SUPPLEMENTARY INFORMATION:

The Rule

This action amends 14 CFR part 71 (part 71) by changing the legal descriptions of three Federal airways that have "Douglas VOR/DME" included as part of their route structure. Currently, the Douglas VOR/DME and the Converse County, WY Airport share the same location identifier. The fact that the VOR/DME and the airport are not collocated has led to confusion among users. To eliminate this confusion, the Douglas VOR/DME will be renamed the "Hipsher VOR/DME," and all the airways with "Douglas VOR/DME" included in their legal descriptions will be amended to reflect the name change. The name change of the VOR/DME will coincide with the effective date of this rulemaking action.

Since this action merely involves editorial changes in the legal description of three Federal airways, and does not involve a change in the dimensions or operating requirements of that airspace, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9H, dated September 1, 2000, and effective September 16, 2000, which is incorporated by reference in 14 CFR 71.1. The airways listed in this

document would be published subsequently in the order.

RIN 0607-AA33

Report of Tabulations of Population to States and Localities Pursuant to 13 U.S.C. 141(c) and Availability of Other Population Information; Revocation of Delegation of Authority

AGENCY: Department of Commerce.

ACTION: Final rule.

SUMMARY: The Secretary of Commerce is issuing a final rule to revoke a delegation of authority to the Director of the Census. By that delegation the Secretary authorized the Director of the Census to make a determination regarding the methodology to be used in calculating the tabulations of population to be reported to States and localities pursuant to 13 U.S.C. 141(c). This final rule will require that this determination be made by the Secretary, and establishes an open and fair decision-making process.

DATES: This rule is effective February 23, 2001.

FOR FURTHER INFORMATION CONTACT:

Alden F. Abbott, Acting General Counsel, U.S. Department of Commerce, (202) 482-1328.

SUPPLEMENTARY INFORMATION: Through the Census Act, which is codified in title 13 of the United States Code, Congress has delegated to the Secretary of Commerce its broad constitutional authority over the decennial census (see U.S. Constitution Art. I, Sec. 2, Cl.3). On October 6, 2000, the Commerce Department issued a final rule that set forth how the Bureau of the Census will carry out its responsibilities to report tabulations of population to States and localities pursuant to the Census Act. See 65 FR 59712 (October 6, 2000). That rule established a process for the release of data to the States and codified the process by which a committee of senior career officials of the Census Bureau would advise the Director of the Census. In addition, that rule contained a delegation of authority from the Secretary to the Director of the Census to make a determination regarding the methodology to be used in calculating the tabulations of population to be reported to States and localities pursuant to 13 U.S.C. 141(c).

The October 6, 2000, final rule delegated the methodological determination to the Census Director. Reflecting the character of its

responsibilities, the position of Census Director is held by a person who is appointed by the President and confirmed by the Senate. At the present time, the Deputy Director, a career civil servant, is serving as Acting Director. It is unlikely that a new Director will be nominated by the President and confirmed by the Senate prior to the time that this decision must be made. Consistent with Congress' delegation of authority specifically to the Secretary to make the decision regarding the tabulations contemplated by 13 U.S.C. 141(c), and in recognition of the accountability properly expected of the person making the methodological decisions underlying those tabulations, the Secretary has determined that, in the current circumstances, he is the appropriate official to make the final determinations concerning the tabulations of populations to be reported pursuant to 13 U.S.C. 141(c). The Secretary will continue to seek the advice of the statistical experts at the Census Bureau to inform his decision. The Secretary, in his discretion, might also seek the advice of other individuals with knowledge of this issue.

The October 6, 2000, rule further established a process for the release of data to the States to meet the requirements of 13 U.S.C. 141(c). The process in the regulation envisioned two scenarios. First, where the decision was made to use sampling to produce the tabulations of population to report to States and localities after a recommendation by the Census Bureau committee to do so, the October 6, 2000, rule incorporated the requirement of section 209(j) of Public Law 105-119 to also release simultaneously data prepared without the use of such statistical method. Second, the October 6, 2000, rule adopted a new requirement (not mandated by section 209(j)) that, if the decision was made to produce tabulations of population without the use of statistical adjustment notwithstanding a recommendation by the Census Bureau committee to do so, data prepared with the use of such method would be made available to the public simultaneously with the release of data prepared without the use of statistical adjustment. Not discussed in the October 6, 2000, rule was the release of data when the Census Bureau committee recommended statistical adjustment not be used and that recommendation was adopted. Because the Department can not rule out situations in which the release of data produced by statistical adjustment might be inappropriate (for instance the release of statistics with material error),

the Secretary has decided to remove this section of the regulation for further study.

National Emission Standards for Hazardous Air Pollutant Emissions: Group IV Polymers and Resins

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; amendment.

SUMMARY: The EPA is issuing this final rule amendment to indefinitely stay the current compliance date of February 27, 2001, for the provisions pertaining to process contact cooling towers (PCCT) for existing affected sources producing poly (ethylene terephthalate) (PET) using the continuous terephthalic acid (TPA) high viscosity multiple end finisher process. On August 29, 2000, the EPA issued a direct final rule (65 FR 52319) and a parallel proposal (65 FR 52392) to stay the compliance date indefinitely because the EPA is in the process of responding to a request to reconsider relevant portions of the rule which may result in changes to the emission limitation applying to PCCT in this subcategory.

On September 20, 2000, the EPA received an adverse comment on the direct final rule for an indefinite stay of compliance. Therefore, the EPA withdrew the direct final rule (65 FR 64161; October 26, 2000). After considering the comments received, the EPA is promulgating the indefinite stay of compliance through this amendment.
