Bureau of African Affairs; AF/PD Professional Internship Program

Introduction

The United States Department of State announces an open competition for an assistance award. Nongovernmental organizations may apply to design and manage a multi-faceted program that consists of the following: (1) Azikiwe Professional Fellowships; and, (2) the COMESA (Common Market of East and Southern Africa) Professional Internship Program.

I. Azikiwe Professional Fellows

The Azikiwe Professional Fellowship Program seeks to establish linkages between young Nigerians and their American counterparts in various sectors. The program is divided into two groups: the "Digital Divide Internships" and "Gatekeepers for the Free Flow of Information."

- Digital Divide Internships will consist of six five-week internships for leaders who will play key roles in bringing Internet connectivity to Nigerian government offices and universities. They would spend one week of orientation at a university before going on to month-long internships at university departments or local and state government offices.

- Gatekeepers for the Free Flow of Information will consist of six five-week internships for library professionals involved in overall management and policy-making in key governmental and private libraries and journalists interested in enhancing their professional skills. The program would demonstrate the crucial role of international technology in modern libraries, train the fellows in the use of the Internet and creation of web pages, and demonstrate the best ways to integrate these technologies into Nigerian libraries. Journalistic Interns would focus on improving professional skills (freedom of press, speech), responsible reporting, and constitutional issues. In both cases, Interns would have a two-week orientation program in Washington (at DoS, Library of Congress, Congressional Research Service, media and newspapers, newspaper libraries, universities and communication organizations, etc.). Following the Washington program, the Interns would be placed for three-weeks in an institution with similar interests to their home organization or media or newspapers.

Both sets of professional fellows would be required to develop a plan of short, medium, and long-term goals for their respective institutions before returning home.

II. COMESA Professional Internship Program

The COMESA program will consist of approximately 10-12 internships lasting from 8-12 weeks with corporations, universities, or trade organizations (particularly those involved in NAFTA, CBI, or WTO issues). The program will stress the development of strong management, administrative, finance, negotiation, and organizational skills among select members of the COMESA

Secretariat. In addition, the Interns will develop strategies and techniques focused on learning and developing management skills appropriate for a sub-regional organization. The Program will seek to assist the COMESA Secretariat in enhancing its capacity to handle its burgeoning role as a regional organization focused on economic and trade issues. The AF/PD Professional Internship Program seeks to enhance the professional skills and abilities of the participants by developing the Interns' organizational, Internet, and managerial skills. All Interns will be allotted two days in Washington, DC at the end of their internship to discuss and review the program with AF/PD staff and colleagues. An additional multiplier effect of the program will be to develop future linkages between American and African universities and institutions.

A cooperative agreement will be subject to the availability of funds.

The contract agency will be expected to work closely with AF/PD and Public Affairs Sections of U.S. Embassies in Africa in selecting participants, and in developing and implementing this program.
