

find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file the Central Records Unit in Room B-099 of the main Commerce Building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov>. The paper copy and electronic version of the Decision Memorandum are identical in content.

### Changes Since the Preliminary Results

Based on our analysis of comments received, we have made certain changes to the margin calculations. For a discussion of these changes, see the "Margin Calculations" section of the Decision Memorandum.

### Final Results of the Review

As a result of this review, we have determined that the following margin exists for the period September 1, 1998 through August 31, 1999:

Manufacturer/exporter	Period	Margin (percent)
MAN Roland Druckmasc-hinen AG ...	9/1/98-8/31/99	0.00

### Assessment Rates

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the Customs Service. For entries of subject merchandise from MAN Roland, we have calculated an importer-specific assessment rate by aggregating the dumping margins calculated for all examined sales and dividing by the entered value of those sales. This rate will be assessed uniformly on all entries of that particular importer made with respect to the U.S. sale examined. In accordance with 19 CFR 351.106(c)(2), we will instruct the Customs Service to liquidate without regard to antidumping duties all entries of the subject merchandise for which the importer-specific assessment rate is zero or *de minimis* (i.e., less than 0.50 percent).

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent

assessment of double antidumping duties.

### Cash Deposit Requirements

The following deposit requirements shall be effective for all shipments of the subject merchandise from Germany that are entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of these administrative review, as provided for by section 751(a)(1) of the Act: (1) The cash deposit rate for MAN Roland will be the rate established above in the "Final Results of the Review" section; (2) for previously investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters of this merchandise will continue to be 30.72 percent, the all others rate made effective by the less-than-fair value investigation. These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of an APO is a sanctionable violation.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221.

Dated: February 16, 2001.

**Timothy J. Hauser,**

*Acting Under Secretary for International Trade.*

### Stainless Steel Plate in Coils From Belgium; Preliminary Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Preliminary Results of Antidumping Duty Administrative Review.

**SUMMARY:** The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on stainless steel plate in coils from Belgium. The review covers exports of this merchandise to the United States for the period November 4, 1998 through April 30, 2000, by ALZ, N.V. (ALZ), manufacturer and exporter of subject merchandise. The respondent ALZ withdrew, on a timely basis, its request for a review and also requested the return or destruction of its information from the record. In light of the petitioners' request to continue the review process, and ALZ's withdrawal of its information from the record, we are preliminarily determining that adverse facts available must be applied with respect to ALZ. For our analysis on this issue see the "Preliminary Results of Review" below.

**EFFECTIVE DATE:** February 26, 2001.

**FOR FURTHER INFORMATION CONTACT:** Elfi Blum or Abdelali Elouaradia, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230 at (202) 482-0197 or (202) 482-1374, respectively.

#### SUPPLEMENTARY INFORMATION:

#### Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act)

by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations codified at 19 CFR Part 351 (2000).

### Background

On May 21, 1999, the Department published in the **Federal Register** the antidumping duty order on certain stainless steel plate in coils from Belgium (64 FR 27756). On May 31, 2000, in accordance with 19 CFR 351.213, respondent ALZ and its affiliated U.S. importer TrefilARBED, Inc., and the petitioners, Allegheny Ludlum, AK Steel Corporation (formerly Armco, Inc.), J&L Speciality Steel Inc., North American Stainless, Butler-Armco Independent Union, Zanesville Armco Independent Union, and the United Steelworkers of America, AFL-CIO/CLC (collectively, petitioners), requested a review of the antidumping duty order on certain stainless steel plate in coils from Belgium. On July 7, 2000, we published a notice of "Initiation of Antidumping Review." See 65 FR 41942. On August 14, September 5, and September 15, 2000, ALZ responded to sections A, B and D, then C, respectively, of the Department's antidumping questionnaire. On October 5, 2000, ALZ submitted a timely request for withdrawal from the administrative review pursuant to section 351.213(d) of the Department's regulations, and requested the return or destruction of its questionnaire responses. On October 20, 2000, the petitioners stated their request to continue the administrative review, and objected to ALZ's request for the return or destruction of the information submitted in the course of the proceeding. In accordance with the Department's practice, we granted ALZ its request to remove its questionnaire responses from the Department's record. For a detailed discussion regarding the removal of questionnaire responses from the administrative record, see *Memorandum to Barbara E. Tillman through Sally Gannon from Abdelali Elouaradia: Return or Destruction of ALZ, N.V. Questionnaire Response*, December 19, 2000. Given that petitioners also requested a review, we continued conducting this administrative review pursuant to section 751(a) of the Act.

### Scope of Review

The product covered by this order is certain stainless steel plate in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other

elements. The subject plate products are flat-rolled products, 254 mm or over in width and 4.75 mm or more in thickness, in coils, and annealed or otherwise heat treated and pickled or otherwise descaled. The subject plate may also be further processed (*e.g.*, cold-rolled, polished, etc.) provided that it maintains the specified dimensions of plate following such processing. Excluded from the scope of these orders are the following: (1) Plate not in coils, (2) plate that is not annealed or otherwise heat treated and pickled or otherwise descaled, (3) sheet and strip, and (4) flat bars. In addition, certain cold-rolled stainless steel plate in coils is also excluded from the scope of these orders. The excluded cold-rolled stainless steel plate in coils is defined as that merchandise which meets the physical characteristics described above that has undergone a cold-reduction process that reduced the thickness of the steel by 25 percent or more, and has been annealed and pickled after this cold reduction process.

The merchandise subject to these orders is currently classifiable in the Harmonized Tariff Schedule of the United States (HTS) at subheadings: 7219.11.00.30, 7219.11.00.60, 7219.12.00.06, 7219.12.00.21, 7219.12.00.26, 7219.12.00.51, 7219.12.00.56, 7219.12.00.66, 7219.12.00.71, 7219.12.00.81, 7219.90.00.10, 7219.90.00.20, 7219.90.00.25, 7219.90.00.60, 7219.90.00.80, 7220.11.00.00, 7220.90.00.10, 7220.90.00.15, 7220.90.00.60, and 7220.90.00.80. Although the HTS subheadings are provided for convenience and Customs purposes, the written description of the scope of the orders is dispositive.

### Period of Review

The period of review (POR) is November 4, 1998 through April 30, 2000.

### Verification

We did not verify any information provided by respondents, as provided in section 782(i) of the Tariff Act. For further information please refer to the section on *Application of Facts Available* below.

### Application of Facts Available

Pursuant to sections 776(a)(1) and (2) of the Act, if necessary information is not available on the record, or if an interested party or any other person (A) withholds information that has been requested by the administering authority; (B) fails to provide such information by the deadlines for the submission of the information or in the

form and manner requested; (C) significantly impedes a proceeding under the antidumping statute; or (D) provides such information but the information cannot be verified as provided in section 782(i) of the Act, the administering authority shall, subject to section 782(d) of the Act, use the facts otherwise available in reaching the applicable determination. In this case, notwithstanding ALZ's timely withdrawal from the review, the Department is required to continue the review process because the petitioners did not withdraw their request for review. Consequently, ALZ's withdrawal of its participation in the review, and its request that the company's questionnaire responses be removed from the record, constitute a refusal to provide information necessary to conduct the Department's antidumping analysis, pursuant to section 776(a)(2)(A) of the Act. Moreover, ALZ's withdrawal significantly impedes the review process. See section 776(a)(2)(C) of the Act. Therefore, the Department must resort to facts otherwise available in reaching the applicable determination. Absent any response on the record from ALZ, sections 782(d) and (e) do not apply.

Section 776(b) of the Act further provides that, in selecting from among the facts otherwise available, the Department may use an inference adverse to the interests of a party that has failed to cooperate by not acting to the best of its ability to comply with a request for information (*see also* the Statement of Administrative Action (SAA), accompanying the URAA, H.R. Rp. No. 316, 103rd Cong., 2d Sess. 870). ALZ's timely withdrawal from the review and its request to return or destroy the company's initial questionnaire responses constitute a refusal to participate in the review, and demonstrate that ALZ failed to cooperate by not acting to the best of its ability to comply with the Department's request for information. Therefore, pursuant to section 776(b) of the Act, the Department has determined that an adverse inference is warranted with respect to ALZ.

As adverse facts available, we have applied 16.0 percent, the highest margin alleged in the petition, which is based on a comparison between ALZ's U.S. price and constructed value (CV). See "Import Administration AD Investigation Initiation Checklist" (Initiation Checklist) and *Initiation of Antidumping Duty Investigations: Stainless Steel Plate in Coils from Belgium, Canada, Italy, Republic of South Africa, South Korea and Taiwan*,

63 FR 20580 (April 27, 1998) for a discussion of the margin calculations in the petition. We note that, in making adverse inferences, the SAA authorizes the Department to consider the extent to which a party may benefit from its own lack of cooperation (SAA at 870). Here, for purposes of our preliminary determination, we have carefully analyzed the rates contained in the petition and the rates in the less-than-fair-value (LTFV) investigation. Given that the 16.0 percent rate is the highest rate derived from the petition, and that ALZ's final calculated dumping margin from the LTFV investigation was 9.86 percent, we find that the 16.0 percent rate will prevent ALZ from benefitting from its decision not to participate in this review. If parties wish to submit information which they view as more appropriate or relevant for use as adverse facts available, they should submit that information no later than 15 days after publication of this notice.

### Corroboration

Section 776(c) of the Act provides that, when the Department relies on secondary information in using the facts otherwise available, it must, to the extent practicable, corroborate that information from independent sources that are reasonably at its disposal. The SAA defines secondary information as "information derived from the petition that gave rise to the investigation or review, the final determination concerning the subject merchandise, or any previous review" (see SAA at 870). In addition, the SAA clarifies that "corroborate" means that the Department will satisfy itself that the secondary information to be used has probative value (see *id.*). The SAA also states that independent sources used to corroborate may include, for example, published price lists, official import statistics and customs data, as well as information obtained from interested parties during the particular investigation (see *id.*).

In this case, to corroborate the margin calculations in the petition, we examined the basis of the price-to-CV rate of 16.0 percent, contained in the petition of March 31, 1998. The U.S. prices in the petition were based on quotes to U.S. customers obtained through market research. The normal value was based on market research data, consumption data from multiple sources, and ALZ's financial statements.

In accordance with section 776(c) of the Act, to the extent practicable, we examined the key elements of the export price and normal value calculations on which the margins in the petitions were based. This information includes

evidence such as customs statistics or market studies which are considered reliable because they are based on actual, independent trade data and analysis. We were able to corroborate the U.S. price in the petition by comparing these prices to publicly available information compiled by the U.S. Census Bureau and made available by the International Trade Commission (ITC). The ITC reports quantity and value by HTS numbers. Export Prices which are based on U.S. import statistics are considered corroborated (see *Certain Cut-to-Length Carbon Steel Plate from Mexico: Final Results of Antidumping Duty Administrative Review*, 64 FR 76, 84 (January 4, 1999) (Comment 13) (*CTL Plate from Mexico*). Normal value calculations contained in the petition, similar to the U.S. price calculations, were based on both actual independent trade data and analysis, as well as ALZ's own public information. The Department is aware of no other independent sources of information that would enable us to further corroborate the petition's margin calculations.

The implementing regulation for section 776 of the Act, codified at 19 CFR 351.308(c), states: "(t)he fact that corroboration may not be practicable in a given circumstance will not prevent the Secretary from applying an adverse inference as appropriate and using the secondary information in question." Additionally, we note that the SAA at 870 specifically states that where "corroboration may not be practicable in a given circumstance," the Department may nevertheless apply an adverse inference. The SAA at 869 emphasizes that the Department need not prove that the facts available are the best alternative information. Therefore, based on our efforts, described above, to corroborate information contained in the petition, and in accordance with section 776(c) of the Act which discusses facts available and corroboration, we consider the 16.0 percent margin in the petition to be corroborated to the extent practicable for purposes of this preliminary determination (see *CTL Plate from Mexico*, 64 FR at 84).

Finally, we find that the petition information is relevant with respect to ALZ because, as discussed above, the normal value calculations were partially based on ALZ's publicly available data (Financial Statement), while the U.S. price is an actual price quote from ALZ. Thus, we conclude that the 16.0 percent, the highest rate from the petition, is not outdated, and is relevant with respect to ALZ. Moreover, we find that this rate is a reasonably accurate estimate of ALZ's actual rate from the

LTFV investigation, with the built-in increase to prevent ALZ's non-compliance in the future. See *De Cecco v. United States*, 216 F.3d 1027, 1032 (Fed. Cir. June 16, 2000); and *World Finer Foods v. United States*, Consol. Court No. 99-03-00138, Slip Op. 2000-72 (June 26, 2000).

### Preliminary Results of Review

As a result of our review, we preliminarily determine the antidumping margin for ALZ, based on total adverse facts available for the period November 4, 1998 through April 30, 2000, to be as follows:

Manufacturer/exporter	Margin (percent)
ALZ, N.V. ....	16.00
All Others .....	9.86

Any interested party may request a hearing within 30 days of the date of publication of this notice. Any hearing, if requested, will be held 37 days after the date of publication or the first business day thereafter. Case briefs from interested parties may be submitted not later than 30 days after the date of publication. Given the fact that respondent in this proceeding withdrew its information, we invite petitioners to provide relevant public and probative information for use as adverse facts available. Rebuttal briefs, limited to issues raised in case briefs, may be filed not later than five days after the date of filing of case briefs. The Department intends to issue the final results of this administrative review, including its analysis of issues raised in the case and rebuttal briefs, not later than 120 days after the date of publication of this notice.

Upon issuance of the final results of this review, the Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. Upon completion of this review, the Department will issue appraisal instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of the final results of these reviews for all shipments of stainless steel plate in coils from Belgium entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) The cash deposit rate for the reviewed company will be the rate established in the final results of this review; (2) for merchandise exported by manufacturers or exporters not covered in these

reviews but covered in the original investigation of sales at LTFV or a previous review, the cash deposit will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this or a previous review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) for all other producers and/or exporters of this merchandise, the cash deposit rate shall be 9.86 percent, the "all others" rate established in the LTFV investigation (64 FR 15476, March 31, 1999).

These deposit rates, when imposed, shall remain in effect until publication of the final results of the next administrative review. This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR § 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and (a)(2)(B) of the Act (19 USC 1675(a)) and 19 CFR §§ 351.213. Effective January 20, 2001, Bernard T. Carreau is fulfilling the duties of the Assistant Secretary for Import Administration.

Dated: January 31, 2001.

**Bernard T. Carreau,**

*Deputy Assistant Secretary, AD/CVD Enforcement II.*

#### Notice of Postponement of the Final Determination of Investigation: Steel Concrete Reinforcing Bars From Moldova

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** February 26, 2001.

**FOR FURTHER INFORMATION CONTACT:** Nithya Nagarajan or Michele Mire at (202) 482-5253 or (202) 482-4711, respectively; AD/CVD Enforcement, Office 4, Group II, Import

Administration, Room 1870, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

#### The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to Department of Commerce (the Department) regulations refer to the regulations codified at 19 CFR part 351 (2000).

#### Background

This investigation was initiated on July 18, 2000. *See Initiation of Antidumping Duty Investigations: Steel Concrete Reinforcing Bars from Austria, Belarus, Indonesia, Japan, Latvia, Moldova, the People's Republic of China, Poland, the Republic of Korea, the Russian Federation, Ukraine and Venezuela*, 65 FR 45754 (July 25, 2000). The period of investigation (POI) is October 1, 1999 through March 31, 2000. On January 30, 2001, the Department published the notice of preliminary determination. *See Notice of Preliminary Determination of Sales at Less than Fair Value: Steel Concrete Reinforcing Bars from Moldova*, 66 FR 8338 (January 30, 2001).

#### Postponement of Final Determination

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by petitioner. The Department's regulations, at 19 CFR 351.210(e)(2), require that requests by respondents for postponement of a final determination be accompanied by a request for extension of provisional measures from a four-month period to not more than six months.

On February 1, 2001, JV CJSC Moldova Steel Works (MSW), the respondent in this investigation, requested that the Department extend the final determination for the maximum statutory period of 135 days after the publication of the preliminary determination. MSW also requested that the Department extend the imposition of

provisional measures from a four-month period to not more than six months. Accordingly, since we have made an affirmative preliminary determination, and MSW is the sole producer of the subject merchandise in Moldova, we have postponed the final determination until not later than 135 days after the date of publication of the preliminary determination or June 14, 2001.

This notice is published in accordance with section 735(a)(2) of the Act. Effective January 20, 2001, Bernard T. Carreau is fulfilling the duties of Assistant Secretary for Import Administration.

Dated: February 15, 2001.

#### Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From the People's Republic of China; Amended Final Results of 1998-1999 Administrative Review and Determination To Revoke Order in Part

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of amended final results of 1998-1999 administrative review and determination to revoke order in part.

**SUMMARY:** On January 10, 2001, the Department published the final results of the administrative review of the antidumping duty order on tapered roller bearings and parts thereof, finished and unfinished, from the People's Republic of China.<sup>1</sup> On January 12, 2001, certain respondents filed allegations of ministerial errors and on January 18, 2001, the petitioner filed a response to the allegations. Based on our review of the comments received from all parties regarding potential ministerial errors, we have made certain changes to the margin calculation of respondent Wafangdian Bearing Company Ltd. The final weighted-average dumping margin for this company is now zero. We have,

<sup>1</sup> *Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From the People's Republic of China; Final Results of 1998-1999 Administrative Review, Partial Rescission of Review, and Notice of Intent to Revoke Order in Part*, 66 FR 1953 (January 10, 2001) ("Final Results").
