SUPPLEMENTARY INFORMATION:**I. Abstract**

The International Trade Administration's Business Information Service for the Newly Independent States offers business intelligence and counseling to U.S. companies seeking to export or invest in the countries of the former Soviet Union. One of the essential components of BISNIS's services is assisting companies in locating suitable financing for exports. Often, official sources, such as the Export-Import Bank of the United States, cannot handle all requests for a variety of reasons. FinanceLink is an internet-based service to facilitate contact between exporters and financing agencies. Exporters fill out a form giving relevant details about the desired transaction and submit it via Internet to BISNIS; BISNIS will, in turn, distribute the information collected to potential financing agencies. The intention is to provide a service that benefits both exporters and financing agencies.

II. Method of Collection

The request is sent via Internet to Department of Commerce, BISNIS Information Service for the Newly Independent States, Trade Finance Specialist.
