

INFORMATION CONTACT. Requests to participate should be made in writing and postmarked on or before April 12, 2001. The request should indicate whether or not they are a member or an official of a particular interest group. The request should also state whether or not they are proposing to represent air tour, conservation, or Native American interests while serving on the group. The term of service of advisory group members will be determined by the group itself once it is convened.

At this time all persons who anticipate being covered by the regulation are invited to submit their requests. Once an altitude is established the FAA will once again allow any parties who did not convey an interest because they didn't think they were within the scope of the act to indicate their interest. Membership of the advisory group will be representative of the balanced interests of overflights of national parks as enumerated by Pub. L. 106-181 discussed above. Membership will be limited in number to facilitate efficiency in advice and counsel.

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice to hold one (1) public scoping meeting and one (1) Governmental and Public Agency scoping meeting.

SUMMARY: The Federal Aviation Administration (FAA) is issuing this notice to advise the public that an Environmental Impact Statement will be prepared for development of the proposed West Terminal Complex at the Phoenix Sky Harbor International Airport, Phoenix, Arizona. To ensure that all significant issues related to the proposed action are identified, one (1) public scoping meeting and one (1) governmental and public agency scoping meeting will be held.

FOR FURTHER INFORMATION CONTACT: Kevin B. Flynn, Supervisor, Arizona Standards Section, AWP-623, Airports Division, Federal Aviation

Administration, Western-Pacific Region, P.O. Box 92007, Los Angeles, California 90009-2007, Telephone: 310/725-3632. Comments on the scope of the EIS should be submitted to the address above and must be received no later than Wednesday, May 23, 2001.

SUPPLEMENTARY INFORMATION: The Federal Aviation Administration (FAA) will prepare an Environmental Impact Statement for development of the proposed West Terminal Complex at the Phoenix Sky Harbor International Airport (PHX), Phoenix, Arizona. The need to prepare an Environmental Impact Statement (EIS) is based on the procedures described in FAA Order 5050.4A Airport Environmental Handbook. PHX is a commercial service airport located within a standard metropolitan statistical area and the proposed development includes the development of a new terminal complex; and the proposed development is likely to be controversial. The alternatives to be evaluated in the EIS include, but will not necessarily be limited to, the No-Action Alternative; the Proposed Action Alternative; the Modification of Existing Facilities Alternative, and the Combination of Constructing New and Modifying Existing Facilities Alternative. Comments and suggestions are invited from Federal, State, and local agencies, and other interested parties to ensure that the full range of issues related to these proposed projects are addressed and all significant issues are identified. The FAA reserves the right to the option of converting the study to an Environmental Assessment (EA), if the agency finds that the projected environmental impacts would not be significant. If the EA option is selected, the FAA will then issue a Finding of No Significant Impact (FONSI), which will allow the City of Phoenix to implement the Proposed Action Alternative. Written comments and suggestions concerning the scope of the EIS may be mailed to the FAA informational contact listed above and must be received no later than Wednesday, May 23, 2001.

Public Scoping Meetings

The FAA will hold one (1) public and one (1) governmental agency scoping meeting to solicit input from the public and various Federal, State, and local agencies which have jurisdiction by law or have specific expertise with respect to any environmental impacts associated with the proposed project.
