5. The FNPRM also sought comment on issues related to the ability of BOCs to provide both interLATA and intraLATA information services through a separate affiliate created pursuant to section 272 or 274 of the 1996 Act. It further stated that once the separation requirements under section 272 and 274 sunset, structural separation for intraLATA information services based on the existence of the statutorily-mandated affiliate would have to be reexamined. The relevant separation requirements in Section 272 and 274 did sunset on February 8, 2000, and we therefore seek comment on this development.
