Public Health System Reporting Requirements: The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- a. A copy of the face page of the application (Standard form 424).
- b. A summary of the project (PHSIS), not to exceed one page, which provides:
 - (1) A description of the population to be served.
 - (2) A summary of the services to be provided.
 - (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements. Application guidance materials will specify if a particular FY 2001 activity is subject to the Public Health System Reporting Requirements.

PHS Non-use of Tobacco Policy Statement: The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Executive Order 12373: Applicants submitted in response to the FY 2001 activity listed above are subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal

financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State's Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Division of Extramural Activities, Policy, Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.

FOR FURTHER INFORMATION CONTACT: Victoria Davis, Telephone: 404/679-4176; Facsimile: 404/679-7081.

SUPPLEMENTARY INFORMATION:

Applicant: Jack Greenlee, De Soto Ranger District, U.S. Forest Service, Wiggins, Mississippi TE033485-0.

The applicant requests authorization to remove and reduce to whole possession specimens of the Louisiana quillwort, *Isoetes louisianensis*, and the American chaffseed, *Schwalbea americana*. The purposes of removal to whole possession for the Louisiana quillwort are to conduct genetic tests to differentiate species within the genus *Isoetes*, to collect voucher specimens, and to conduct population surveys. The purposes of removal to whole possession for the American chaffseed are to collect voucher specimens and to conduct population surveys. The proposed activities will take place in the

following Mississippi counties: Harrison, Hancock, Jackson, Pearl River, Stone, George, Lamar, Forrest, Perry, Greene, Jones, and Wayne. The specimens will be deposited into an actively curated herbarium.

Applicant: Steve M. Lohr, Shaw Air Force Base, South Carolina TE039592-0.

The applicant requests authorization to take (harass during capturing, banding, releasing, monitoring, and habitat management) the Red-cockaded woodpecker, *Picoides borealis*, for the purposes of managing the populations on Poinsett Electronic Combat Range. The proposed activities will take place in Sumter County, South Carolina.

Applicant: Carlos E. Diez, Puerto Rico Department of Natural and Environmental Resources, San Juan, Puerto Rico TE039589-0.

The applicant requests authorization to take (capture, collect, relocate, and euthanize) Hawksbill sea turtle, *Eretmochelys imbricata*, for the purposes of conducting genetic studies on 200 eggs and 420 hatchlings to determine the sex ratios of the hatchlings that are being produced on Mona Island. The proposed study consists of three phases: (1) Determination of the pivotal temperature (the incubation temperature at which both sexes are produced in equal proportion); (2) a methodological validation; and (3) the estimation of the sex ratio in hatchlings incubated on Mona Island's beaches. The proposed activities will take place on Mona Island, Puerto Rico.

Availability of a Draft Environmental Assessment and Preliminary Finding of No Significant Impact, and Receipt of an Application for an Incidental Take Permit for Residential Lot Construction and Timber Harvest in North Carolina

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

Crescent Resources, Inc. (Applicant) has requested an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973 (U.S.C. 1531 *et seq.*), as amended (Act). The Applicant anticipates incidental take of the American bald eagle (*Haliaeetus leucocephalus*) over the next 50 years associated with the construction of residential housing and during forest management activities. The level of incidental take requested in the ITP application is one existing bald eagle nest. This take will be in the form of harm and harassment associated with planned construction and forest management activities. The incidental take and measures to minimize and mitigate this take will occur on approximately 11,700 acres owned by the Applicant that surround Lake James in Burke and McDowell counties, North Carolina.

To compensate for the likely effects of these actions, the Applicant will provide six undeveloped sites, each with a 300-foot radius primary buffer zone (i.e., approximately 6.5 acres of land each), along the periphery of Lake James for bald eagle habitat conservation. Each mitigation site will be protected for the duration of the proposed permit and will contain at least one large, prominent pine tree that
