

Comment Process

As noted, the National Park Service will undertake an environmental impact analysis effort to identify issues and alternatives for fire management on land administered by Yosemite National Park. The subject-scoping phase will build upon preliminary outreach made for public comments on fire management planning conducted in April 1999. The park seeks to elicit a wide range of comments from organizations, individuals, agencies, Tribes, and other entities to fully inform the preparation of the draft EIS. The scoping period for the FMP EIS will conclude 30 calendar days after the date of publication of this Notice of Intent in the **Federal Register**. As soon as this date has been determined, a notice will be posted on the park's website at www.nps.gov.yose/planning.

During the scoping period a public meeting will held to present information developed to date, to answer questions about the plan and planning process, and to solicit and accept comments from the public. This meeting will be held March 29 in Yosemite National Park at the Yosemite Valley Visitor Center (from 2 pm to 4 pm). All interested individuals, organizations, and agencies are invited to attend this meeting, or provide written comments or suggestions during the scoping period. Please submit written comments to: Superintendent, Yosemite National Park, P.O. Box 577, Yosemite NP, CA 95389 (Attn: Fire Management Plan). Electronic comments may be transmitted to yose_planning@nps.gov (in the subject line type: Fire Management Plan Scoping).

If individuals submitting comments request that their name or/and address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always: NPS will make available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses; and, anonymous comments may not be considered.

Decision

The official responsible for a final decision regarding the Fire Management Plan is the Regional Director, Pacific West Region, National Park Service. The official responsible for implementation is the Superintendent, Yosemite

National Park. The draft EIS and fire management plan are expected to be available for public review and comment in the summer of 2001. At this time it is anticipated that the final EIS and plan are to be completed during the fall-winter 2001, or winter 2002. Distribution of the draft and final EIS's will be duly noticed in the **Federal Register**, as well as in local and regional press media.

Dated: February 26, 2001.

John J. Reynolds,

Regional Director, Pacific West Region.

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent to Repatriate Cultural Items in the Possession of the Arizona State Museum, Tucson, AZ, and in the Control of the U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC.

AGENCY: National Park Service, Interior.
ACTION: Notice.

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items in the possession of the Arizona State Museum, Tucson, AZ, and in the control of the U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC, that meet the definition of "unassociated funerary objects" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

The 20,475 objects from site AZ U:13:1 ASM are 2 abraders, 6 abraded fragments, 4 axes, 1 stone ball, 3,890 shell beads, 437 stone beads, 5 turquoise beads, 10,560 beads of unspecified material, 14 bone artifacts, 16 bone artifact fragments, 2 bone awls, 2 bone awl fragments, 2 nonhuman bone fragments, 237 ceramic bowls, 1 clay bowl, 52 stone bowls, 8 ceramic bowls (RV), 4 stone bowl fragments, 75 bracelet fragments, 5 ceramic cauldrons, 2 reconstructable ceramic cauldrons, 33 ceramic censurs, 6 ceramic artifacts, 8 cinders, 3 clay artifacts, 1 concretion, 1 stone cylinder, 3 sherd disks, 3 stone disks, 1 perforated sherd disk, 1 perforated sherd disk fragment, 1 stone disk fragment, 1 ear spool, 8 ceramic figurines, 4 stone figurines, 29 ceramic figurine fragments, 30 ceramic figurine heads, 1 grinding slab, 1 ceramic handle fragment, 3 pieces of hematite, 19 horn

artifacts, 84 ceramic jars, 1 ceramic jar fragment, 1 ceramic ladle, 3 ceramic legged plates, 1 mano, 7 medicine stones, 2 metates, 11 mica pieces, 4 fragments of unidentified minerals, 1 piece of obsidian, 2 bone ornaments, 6 shell ornaments, 55 stone ornament fragments, 136 palettes, 31 palette fragments, 38 shell pendants, 22 stone pendants, 1 pendant of unidentified material, 1 pestle, 7 pigment fragments, 1 ceramic pitcher, 10 plaques, 53 plaque fragments, 32 ceramic plates, 1 reconstructable ceramic plate, 3,243 projectile points, 3 projectile point fragments, 5 proto-palettes, 1 proto-palette fragment, 1 punch, 597 quartz crystals, 1 quartz nodule, 3 shell rings, 4 stone rings, 1 bone ring fragment, 3 stone rods, 37 ceramic scoops, 1 reconstructable ceramic scoop, 9 ceramic seed jars, 133 shells, 19 shell artifacts, 3 shell artifact fragments, 168 shell fragments, 31 sherds, 1 sherd artifact, 1 stone spoon, 14 stone artifacts, 2 stone artifact fragments, 4 pyrite tessera, 13 shell tessera, 1 stone tessera, 147 turquoise tessera, 5 textile fragments, 6 textile impressions, 8 tripod plates, 1 bone tube fragment, 11 pieces of turquoise, 1 turtle shell, 2 vegetal artifacts, and 2 wood artifacts.

These objects were removed in 1934-35, during archeological excavations conducted by the Gila Pueblo Foundation of Arizona, and in 1964-65 during excavations by University of Arizona personnel at the Snaketown site (AZ U:13:1 ASM), on the Gila River Reservation, Pinal County, AZ.

The archeological evidence, including characteristics of portable material culture, attributes of ceramic styles, domestic and ritual architecture, site organization, and canal-based agriculture of the settlement places the Snaketown site within the archeologically-defined Hohokam tradition, and within the Phoenix Basin variant of that tradition. The occupation of the Snaketown site spans the years circa A.D. 500/700-1100/1150.

The 18 objects from site AZ U:13:21 ASM are 1 scoop, 10 bowls, 6 jars, and 1 pitcher.

These objects were removed during joint University of Arizona Department of Anthropology and Arizona State Museum excavations at site AZ U:13:21 ASM, Gila River Indian Reservation, Pinal County, AZ, in 1964-65.

The archeological evidence, including characteristics of portable material culture, attributes of ceramic styles, domestic and ritual architecture, site organization, and canal-based agriculture of the settlement places site AZ U:13:22 ASM within the archeologically-defined Hohokam
