BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP01-80-000]

East Tennessee Natural Gas Company; Notice of Intent to Prepare an Environmental Assessment for the Proposed Murray Project and Request for Comments on Environmental Issues

March 14, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of

the Murray Project involving construction and operation of facilities by East Tennessee Natural Gas Company (ETNG) in Bedford, Franklin, Grundy, Hamilton, Marion, Marshall, McMinn, Moore, and Sequatchie Counties, Tennessee, and Catoosa, Murray, and Whitfield Counties, Georgia.¹ These facilities would consist of construction of about 53.3 miles of 20-inch-diameter pipeline, uprate of about 46.5 miles of 12- and 20-inch-diameter pipeline, and installation of 14,130 horsepower (hp) of compression, two meter stations, and appurtenant facilities. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My land? What Do I Need To Know?" was attached to the project notice ETNG provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet website (www.ferc.fed.us).

Summary of the Proposed Project

ETNG wants to provide the cities of Dalton and Cartersville, Georgia with 2,000 dekatherms per day (Dth/d) and 3,000 Dth/d of firm transportation service, respectively. In addition, ETNG wants to provide up to 165,000 Dth/d of firm transportation service to Duke Energy Murray, LLC's (DENA Murray) 1,240-megawatt gas-fired power plant (Murray Energy Facility) under construction in Murray County, Georgia. ETNG seeks authority to:

- Construct 26.88 miles of 20-inch-diameter pipeline in Hamilton County, Tennessee, and Catoosa, Whitfield, and Murray Counties, Georgia (Murray

¹ ETNG's application was filed with the Commission under section 7 of the Natural Gas Act and part 157 of the Commission's regulations.
