[ATSDR-166]

**Availability of Draft Chemical Technical Summary on Malathion**

**AGENCY:** Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

**ACTION:** Notice of availability.

**SUMMARY:** The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), Section 104 (i)(4) [42 U.S.C. 9604(i)(4)], directs the Administrator of ATSDR to provide informational materials on request on health issues relating to exposure to hazardous or toxic substances to the Administrator of the EPA, State officials, and local officials. A chemical technical summary provides information on a specific public health issue related to real or possible exposure and is a method ATSDR uses to respond rapidly to requests for assistance and public health needs. The chemical technical summary will aid public health and public safety professionals in evaluating symptoms and conducting surveillance of human exposure to toxic material.

This notice announces that a chemical technical summary on malathion is now available for public comment. This ATSDR chemical technical summary reviews the scientific literature describing the relationship between exposure to malathion and possible resultant health effects.

**DATES:** In order to be considered, comments on this draft chemical technical summary must be received within forty-five (45) days from the date of this publication. Comments received after the close of the public comment period will be considered at the discretion of ATSDR based upon what is deemed to be in the best interest of the general public.

**ADDRESSES:** Requests for copies of the draft chemical technical summary should be sent to: Ms. Franchetta Stephens, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE, Atlanta, Georgia 30333, telephone 1-(888) 422-8737 or (404) 639-6345. Written comments regarding the draft chemical technical summary should be sent to the same address. ATSDR reserves the right to provide only one copy of the draft chemical technical summary free of charge. The document may also be accessed at the ATSDR Home page News section at [www.atsdr.cdc.gov](http://www.atsdr.cdc.gov).

Written comments submitted in response to this notice should bear the docket control number ATSDR-166. Because all public comments regarding ATSDR-166 chemical technical summary will be available for inspection, no confidential business information or personal medical information should be submitted in response to this notice.

**FOR FURTHER INFORMATION CONTACT:** Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE., Atlanta, Georgia 30333.

**SUPPLEMENTARY INFORMATION:** Malathion is an organophosphate insecticide commonly used to control mosquitos and other flying insects, especially during outbreaks of vector-borne diseases, to protect public health. Malathion is toxic to aquatic organisms, but has a relatively low toxicity for birds and mammals. The principal toxicological effect of malathion is cholinesterase inhibition, due primarily to malaoxon and to phosphorus thionate impurities. Levels of malathion used for wide-area treatment to protect the public from mosquito-carrying diseases are not likely to result in harmful effects in individuals who are not directly exposed during spraying.

[ATSDR-168]

**Availability of the Draft Document, Public Health Reviews of Hazardous Waste Thermal Treatment Technologies**

**AGENCY:** Agency for Toxic Substances and Disease Registry (ATSDR), HHS.

**ACTION:** Notice of availability and request for public comment of the draft document, Public Health Reviews of Hazardous Waste Thermal Treatment Technologies.

**SUMMARY:** The Agency for Toxic Substances and Disease Registry announces the availability for public comment of the draft document, Public Health Reviews of Hazardous Waste Thermal Treatment Technologies.

**DATES:** Comments must be received by April 23, 2001.

**ADDRESSES:** The document is available by contacting the Chief, Program Evaluation, Records, and Information Services Branch, Agency for Toxic Substances and Disease Registry, 1600 Clifton Road (E-56), Atlanta, GA 30333. Please submit written comments relating to the document to the same location. ATSDR reserves the right to provide only one copy of this draft document free of charge. The document may also be accessed at the ATSDR Home page News section at [www.atsdr.cdc.gov](http://www.atsdr.cdc.gov). Generally, comments submitted will be available to the public upon request. Information submitted which is claimed as personal, medical, or otherwise confidential and proprietary must be clearly marked as such. Information so marked will not be disclosed except in accordance with 45 CFR part 5.

**FOR FURTHER INFORMATION CONTACT:** Further information may be obtained by contacting Betty C. Willis, ATSDR (Mailstop E-56), 1600 Clifton Road, NE, Atlanta, Georgia 30333, telephone (404) 639-6071 or (toll free) 1-888-42-ATSDR, 1-888-422-8737, or Email: [bwillis@cdc.gov](mailto:bwillis@cdc.gov).

**SUPPLEMENTARY INFORMATION:** The Agency for Toxic Substances and Disease Registry (ATSDR) is the lead Department of Health and Human Services agency addressing human health concerns and risks in communities near hazardous waste sites or other sources of environmental contamination. ATSDR has specific responsibilities for public health

activities under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include: Health consultations and public health assessments at sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public.

This draft document, Public Health Reviews of Hazardous Waste Thermal Treatment Technologies, will assist in the Agency's critical mission to reduce and prevent exposures and adverse health outcomes from exposure to hazardous substances. The document provides technical guidance for Agency staff who review thermal treatment technologies to evaluate the potential public health effects associated with the use of incinerators or thermal desorbers to treat hazardous wastes. This document contains detailed technical guidance to promote consistency among Agency staff during evaluations of thermal treatment facilities. People who do not have technical experience and knowledge of thermal technologies may find it difficult to understand.

This draft, Public Health Reviews of Hazardous Waste Thermal Treatment Technologies, is available for public comment so the Agency can benefit from public review and input before finalizing the document. This **Federal Register** notice announces that this draft

document is available for public comment.

Dated: March 19, 2001.

**BILLING CODE 4163-70-P**

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Administration for Children and Families**

**Proposed Information Collection Activity; Comment Request**

*Proposed Projects*

*Title:* Refugee Resettlement Program Estimates: CMA, ORR-1.

*OMB No.* 0970-0030.

*Description:* ORR reimburses, to the extent of available appropriations, certain non-Federal costs for the provision of cash and medical assistance to refugees, along with allowable expenses in the administration of the Refugee Resettlement Program. ORR needs sound State estimates of likely expenditures for refugee cash, medical, and administrative (CMA) expenditures so that it can anticipate Federal costs in upcoming quarters. If Federal costs are anticipated to exceed budget

allocations, ORR must take steps to reduce Federal expenses, such as limiting the number of months of eligibility for Refugee Cash Assistance (RCA) and Refugee Medical Assistance (RMA).

To meet the need for reliable State estimates of anticipated expenses, ORR has developed a single-page form in which States estimate the average number of recipients for each category of assistance, the average unit cost over the next 12 months and the expense for the overall administration of the program. This form, the ORR-1 (formerly Form FSA-601) must be submitted prior to the beginning of each Federal fiscal year. Without this information, ORR would be out of compliance with the intent of its legislation and otherwise unable to estimate program costs adequately.

In addition, the ORR-1 serves as the State's application for reimbursement of its CMA expenses. Submission of this form is thus required by section 412(a)(4) of the Immigration and Nationality Act which provides that "no grant or contract may be awarded under this section unless an appropriate proposal and application \* \* \* are submitted to, and approved by, the appropriate administering official."

*Respondents:* State, Local or Tribal Govt.

*Annual Burden Estimates*

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
ORR-1 .....	48	1	.5	24
Estimated Total Annual Burden Hours .....	.....	.....	.....	24

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Information Services, 370 L'Enfant Promenade, S.W., Washington, DC 20447, Attn: ACF Reports Clearance Officer. All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for proper performance of the functions

of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: March 19, 2001.
