or

Stephen C. Groft, Pharm.D., Executive Director, 6701 Rockledge Drive, Room 1010, MSC 7707, Bethesda, MD 20817-7707, Phone: (301) 435-7592, Fax: (301) 480-1691, E-mail: WHCCAMP@mail.nih.gov

Because of the need to obtain the views of the public on these issues as soon as possible and because of the early deadline for the report required of the Commission, this notice is being provided at the earliest possible time.

Supplementary Information: The President established the White House Commission on Complementary and Alternative Medicine Policy on March 7, 2000 by Executive Order 13147. The mission of the White House Commission on Complementary and Alternative Medicine Policy is to provide a report, through the Secretary of the Department of Health and Human Services, on legislative and administrative recommendations for assuring that public policy maximizes the benefits of complementary and alternative medicine to Americans.

Public Participation

The meeting is open to the public with attendance limited by the availability of space on a first come, first serve basis. Members of the public who wish to present oral comment may register by faxing a request to register at 301-480-1691 or by accessing the website of the Commission at <http://whccamp.hhs.gov> no later than March 21, 2001.

Oral comments will be limited to five minutes. Individuals who register to speak will be assigned in the order in which they registered. Due to time constraints, only one representative from each organization will be allotted time for oral testimony. The number of speakers and the time allotted may also be limited by the number of registrants. All requests to register should include the name, address, telephone number, and business or professional affiliation of the interested party, and should indicate the area of interest or question (as described above) to be addressed.

Any person attending the meeting who has not registered to speak in advance of the meeting will be allowed to make a brief oral statement during the time set aside for public comment if time permits, and at the Chairperson's discretion. Individuals unable to attend the meeting, or any interested parties, may send written comments by mail, fax, or electronically to the staff office of the Commission for inclusion in the public record.

When mailing or faxing written comments provide, if possible, an electronic version on diskette. Persons needing special assistance, such as sign language interpretation or other special accommodations, should contact the Commission staff at the address or telephone number listed no later than March 21, 2001.

Dated: March 15, 2001.

LaVerne Y. Stringfield,
Director, Office of Federal Advisory
Committee Policy.

[ATSDR-166]

**Availability of Draft Chemical
Technical Summary on Malathion**

AGENCY: Agency for Toxic Substances
and Disease Registry (ATSDR),
Department of Health and Human
Services (HHS).

ACTION: Notice of availability.

SUMMARY: The Comprehensive
Environmental Response,
Compensation, and Liability Act of 1980
(CERCLA), as amended by the
Superfund Amendments and
Reauthorization Act of 1986 (SARA),
Section 104 (i)(4) [42 U.S.C. 9604(i)(4)],
directs the Administrator of ATSDR to
provide informational materials on
request on health issues relating to
exposure to hazardous or toxic
substances to the Administrator of the
EPA, State officials, and local officials.
A chemical technical summary provides
information on a specific public health
issue related to real or possible exposure
and is a method ATSDR uses to respond
rapidly to requests for assistance and
public health needs. The chemical
technical summary will aid public
health and public safety professionals in
evaluating symptoms and conducting
surveillance of human exposure to toxic
material.

This notice announces that a chemical
technical summary on malathion is now
available for public comment. This
ATSDR chemical technical summary
reviews the scientific literature
describing the relationship between
exposure to malathion and possible
resultant health effects.

DATES: In order to be considered,
comments on this draft chemical
technical summary must be received
within forty-five (45) days from the date
of this publication. Comments received
after the close of the public comment
period will be considered at the
discretion of ATSDR based upon what
is deemed to be in the best interest of
the general public.

ADDRESSES: Requests for copies of the
draft chemical technical summary
should be sent to: Ms. Franchetta
Stephens, Division of Toxicology,
Agency for Toxic Substances and
Disease Registry, Mailstop E-29, 1600
Clifton Road, NE, Atlanta, Georgia
30333, telephone 1-(888) 422-8737 or
(404) 639-6345. Written comments
regarding the draft chemical technical
summary should be sent to the same
address. ATSDR reserves the right to
provide only one copy of the draft
chemical technical summary free of
charge. The document may also be
accessed at the ATSDR Home page
News section at www.atsdr.cdc.gov.

Written comments submitted in
response to this notice should bear the
docket control number ATSDR-166.
Because all public comments regarding
ATSDR-166 chemical technical
summary will be available for
inspection, no confidential business
information or personal medical
information should be submitted in
response to this notice.

FOR FURTHER INFORMATION CONTACT:
Division of Toxicology, Agency for
Toxic Substances and Disease Registry,
Mailstop E-29, 1600 Clifton Road, NE.,
Atlanta, Georgia 30333.

SUPPLEMENTARY INFORMATION: Malathion
is an organophosphate insecticide
commonly used to control mosquitos
and other flying insects, especially
during outbreaks of vector-borne
diseases, to protect public health.
Malathion is toxic to aquatic organisms,
but has a relatively low toxicity for birds
and mammals. The principal
toxicological effect of malathion is
cholinesterase inhibition, due primarily
to malaoxon and to phosphorus thionate
impurities. Levels of malathion used for
wide-area treatment to protect the
public from mosquito-carrying diseases
are not likely to result in harmful effects
in individuals who are not directly
exposed during spraying.
