ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 60

[SC-AT-2001-01; FRL-6956-1]

New Stationary Sources; Supplemental Delegation of Authority to the State of South Carolina

AGENCY: Environmental Protection Agency (EPA).

ACTION: Delegation of authority.

SUMMARY: The South Carolina Department of Health and Environmental Control (SCDHEC or State agency) has requested that EPA approve the “adopt-by-reference” mechanism for delegation of New Source Performance Standards (NSPS). The purpose of the State agency request for approval of its delegation mechanism is to streamline existing administrative procedures by eliminating any unnecessary steps involved in the federal delegation process. With this NSPS delegation mechanism in place, an NSPS promulgated by EPA will become effective in South Carolina on the date the NSPS is adopted if the State agency adopts the NSPS without change. No further State requests for delegation will be necessary. Likewise, no further

Federal Register documents will be published. However, if an NSPS regulation is adopted by the State agency with changes, EPA reserves the right to review and comment on the revised NSPS. The State is required to notify EPA of the revisions. If EPA determines that the revisions are equivalent to the federal NSPS then delegation will occur and notice will be published in the **Federal Register**. EPA reserves the right to implement the federal NSPS directly and continues to retain concurrent enforcement authority.

On October 19, 1976, the EPA initially delegated the authority for implementation and enforcement of the NSPS program to the State of South Carolina. The EPA’s review of the State agency’s pertinent laws, rules, and regulations indicate that adequate and effective procedures are in place for the implementation and enforcement of these Federal standards. This document was written to inform the public of the State agency’s new mechanism for delegation (adopt-by-reference) of NSPS.

EFFECTIVE DATE: The effective date is March 27, 2001.

ADDRESSES: Copies of the request for delegation of authority and EPA’s letter of delegation are available for public inspection during normal business hours at the following locations: Environmental Protection Agency, Region 4, Air & Radiation Technology

Branch, 61 Forsyth Street, SW., Atlanta, Georgia 30303.

South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201-1708.

Effective March 27, 2001, all requests, applications, reports and other correspondence required by any NSPS should not be submitted to the EPA Region 4 office, but should instead be submitted to the following address: South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201-1708.

SUPPLEMENTARY INFORMATION: Section 301, in conjunction with sections 110 and 111(c)(1) of the Clean Air Act as amended November 15, 1990, authorize EPA to delegate authority to implement and enforce the standards set out in 40 CFR part 60, New Source Performance Standards (NSPS).

After a thorough review of the request, the Regional Administrator determined that such a delegation was appropriate for all source categories. All sources subject to the requirements of 40 CFR part 60 will now be under the jurisdiction of the appropriate above mentioned agency.

Since review of the pertinent laws, rules, and regulations for the State agency has shown them to be adequate for implementation and enforcement of the NSPS, EPA hereby notifies the public that it is approving adoption-by-reference as the mechanism for delegation of the NSPS source categories upon publication of this **Federal Register** document.

Administrative Requirements

The Office of Management and Budget has exempted this regulatory action

from Executive Order 12866, entitled “Regulatory Planning and Review.”

The Congressional Review Act, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*), generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. However, section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the Congressional Review Act if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefor, and established an effective date of [insert date of publication]. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Authority: This document is issued under the authority of sections 101, 110, 111, 112 and 301 of the Clean Air Act, as Amended (42 U.S.C. 7401, 7410, 7411, 7412 and 7601).

Dated: March 8, 2001.

SUPPLEMENTARY INFORMATION:

Background

In FR Doc. 00–27833 of November 1, 2000, (65 FR 65376), there were a number of technical errors that are identified and corrected in the Correction of Errors section below. Additionally there are various revisions to Addenda B and C. The provisions in this correction notice are effective as if they had been included in the document published November 1, 2000, that is, January 1, 2001.

Discussion of Addenda B and C

1. While we had proposed revisions to the work relative work units (RVUs) for observation care codes (CPT 99234 through 99236) on page 44196 of the July 17, 2000 proposed rule, we indicated in the November 1, 2000 final rule we were not proceeding with the revisions to the work RVUs. Unfortunately, the work RVUs published in the November 1, 2000 rule continued to reflect the proposed reductions. The following entries on page 65555 are corrected: CPT code 99234, CPT code 99235, and CPT code 99236. These corrections are reflected in correction number 9 to follow. In addition, since no change was made to the RVUs for these codes, they should not be included on page 65585 of Addendum C. Therefore, they have been deleted from Addendum C.

2. On page 65568 of Addendum B, the value assigned to HCPCS code G0105 under the column labeled “Year 2001 Transitional Non-facility Total” is incorrect. The corrected value is reflected in correction number 10 to follow.

3. On page 65569 and 65570 of Addendum B, the short descriptor to HCFA Common Procedure Coding System (HCPCS) codes G0179 and G0190 are listed incorrectly. The corrected descriptor is reflected in correction number 11 to follow.

4. On page 65569 of Addendum B and page 65585 of Addendum C, the short descriptor for HCPCS code G0184 is listed incorrectly. The corrected descriptor is reflected in correction number 12 to follow.

5. On page 65246 of the November 1, 2000, we stated that HCPCS codes G0195 and G0196 will be assigned RVUs and inputs for practice expense.
