SUPPLEMENTARY INFORMATION:**General**

This notice implements section 117 of the Carl D. Perkins Vocational and Technical Education Act of 1998 (Pub. L. 105–332), enacted October 31, 1998. Section 117 authorizes the Secretary to award grants to tribally controlled postsecondary vocational and technical institutions to operate vocational and technical education programs.

The 1998 amendments to the Perkins Act changed many of the requirements applicable to the TCPVTIP. Former grant recipients under the Tribally Controlled Postsecondary Vocational Institutions Program will find that the changes brought about by the 1998 amendments are likely to have a noticeable impact on how tribal postsecondary institutions must now operate projects.

The following summary is intended to help potential applicants to become familiar with important changes to the TCPVTIP and with the way in which these changes impact on the administration of the TCPVTIP.

Changes to the Program

(a) *Eligibility.* Under the definition of "tribally controlled postsecondary vocational and technical institution" in section 3(28) of the Act, institutions of higher education meeting the eligibility requirements in section 3(28)(A)–(G) of the Act are eligible to apply for and receive awards under the TCPVTIP. Prior to the 1998 amendments, tribally controlled community colleges generally were not considered eligible under this program. See 57 F.R. 36773–74 (August 14, 1992) (Section 410.5, definition of "Tribally controlled postsecondary vocational institution".) Under this notice, funding opportunities are provided for additional tribal institutions to strengthen their vocational and technical education programs.

(b) *Allowable expenses.* (1) Unlike part H of the Carl D. Perkins Vocational and Applied Technology Education Act of 1990 (20 U.S.C. 2301 *et seq.*), section 117 of the Act does not provide for grants for the operation, maintenance, expansion, or improvement of tribally controlled postsecondary vocational institutions. Instead, under section 117 of the Act, grants are to be used to fund projects that provide basic support for

vocational and technical education programs for Indian students. (20 U.S.C. 2327(a), (b), and (e)). Costs that are not specifically authorized by section 117 of the Act or clearly associated with vocational and technical programs for Indians, such as the administrative expenses of the entire institution, will not be considered by the Secretary as allowable direct costs under this program.

(2) While section 117(e)(1)(B) of the Act continues to authorize the use of grant funds for capital expenditures, including operations and maintenance, and minor improvements and repair, and physical plant maintenance costs, under the Act these costs are allowable only when incurred for the conduct of programs funded under section 117 of the Act. (20 U.S.C. 2327(e)(1)(B)).

(3) Section 117(e)(1)(A) of the Act specifically authorizes student stipends, whereas the previous statute did not. Institutions may provide a stipend to a student to enable the student to participate in a vocational and technical education program under section 117 of the Act. (20 U.S.C. 2327(e)(1)(A)).

(c) *Supplanting.* In accordance with section 311(a) of the Act, funds awarded under this program must supplement, and cannot supplant, non-Federal funds used to carry out vocational and technical education activities and tech-prep activities. (20 U.S.C. 2391). Under the Department's administrative regulations, because of this new statutory prohibition against supplanting in the TCPVTIP, grantees will also be required to apply their negotiated restricted indirect cost rates to this program. (See 34 CFR 75.563). There was no supplanting provision applicable to this program prior to the 1998 amendments.

Definitions

Indian means a person who is a member of an Indian tribe.

Indian student count means a number equal to the total number of Indian students enrolled in a tribally controlled postsecondary vocational and technical institution determined by adding the figures for paragraphs (a) through (d) of this definition:

(a) *Full-time students.* The number of Indian students registered at the institution on October 1 of each year, who carried a full-time academic workload, as determined by the institution. This figure does not include summer school registrants, continuing education registrants, or part-time students.

(b) *Part-time students.* The full time equivalent of the number of Indian students registered at the institution on

October 1 of each year who carried a part-time academic workload, as determined by the institution. This figure does not include summer school or continuing education registrants.

(c) *Summer students.* The full-time equivalent of the total number of credit or clock hours earned toward a certificate or degree at the institution by Indian students during the summer term. Credit or clock hours toward a certificate or degree earned in classes during a summer term are counted only if the tribally controlled postsecondary vocational and technical institution has established criteria for the admission of summer term students on the basis of the students' ability to benefit from the education or training offered. The institution shall be presumed to have established those criteria if the admission procedures for those studies include counseling or testing that measures the students' aptitude to successfully complete the courses in which the students have enrolled.

(d) *Continuing education students.* The full-time equivalent of the total number of credit or clock hours earned by Indian students enrolled in the institution's continuing education program. (20 U.S.C. 2327(h)(2)).

Under section 117(h)(2)(C) of the Act, the Indian student count does not include either credit earned by students for purposes of obtaining a high school degree or its equivalent, or the number of students registered in programs that provide a high school degree or its equivalent. (20 U.S.C. 2327(h)(2)(C)).

If grantees use inconsistent methods for converting credit and clock hours to a full-time equivalent, in order to arrive at a consistent calculation of the full-time equivalent for students in summer and continuing education programs using the semester, trimester, or quarter system, the Secretary will divide the number of credit hours by 12 and the number of clock hours by 24.

Indian tribe means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native or regional or village corporation as defined in or established pursuant to the Alaskan Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. (20 U.S.C. 2327(h)(1); 25 U.S.C. 1801(a)(2)).

Institution of higher education, as defined in section 3(28) of the Act and in section 101 of the Higher Education Act of 1965, means—

(a) An educational institution in any State that—

(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;

(2) Provides an educational program for which the institution awards a bachelor's degree or provides not less than a 2-year program that is acceptable for full credit toward such a degree;

(3) Is a public or other nonprofit institution; and

(4) Is accredited by a nationally recognized accrediting agency or association, or if not so accredited, is an institution that has been granted preaccreditation status by such an agency or association that has been recognized by the Secretary of the Interior for the granting of preaccreditation status, and the Secretary of the Interior has determined that there is satisfactory assurance that the institution will meet the accreditation standards of such an agency or association within a reasonable time.

(b) The term also includes—

(1) Any school that provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and that meets the provisions of paragraphs (a)(1), (3), and (4) of this definition.

(2) A public or nonprofit private educational institution in any State that, in lieu of the requirement in paragraph (a)(1) of this definition, admits as regular students persons who are beyond the age of compulsory school attendance in the State in which the institution is located.

(Authority: 20 U.S.C. 1001 and 2302(28))

Stipend means a subsistence allowance for a student that is necessary for the student to participate in a project funded under this program.

Tribally Controlled Community College or University means an institution of higher education which is formally controlled, or has been formally sanctioned, or chartered, by the governing body of an Indian tribe or tribes, except that no more than one such institution shall be recognized with respect to any such tribe.

(Authority: 20 U.S.C. 2302(27) and 25 U.S.C. 1801(a)(4))

Tribally Controlled Postsecondary Vocational and Technical Institution means an institution of higher education (as defined in the "Definitions" section of this notice) that—

(a) Is formally controlled, or has been formally sanctioned or chartered, by the governing body of an Indian tribe or tribes;

(b) Offers a technical degree or certificate granting program;

(c) Is governed by a board of directors or trustees, a majority of whom is Indians;

(d) Demonstrates adherence to stated goals, a philosophy, or a plan of operation that fosters individual Indian economic and self-sufficiency opportunity, including programs that are appropriate to stated tribal goals of developing individual entrepreneurships and self-sustaining economic infrastructures on reservations;

(e) Has been in operation for at least 3 years;

(f) Holds accreditation with or is a candidate for accreditation by a nationally recognized accrediting authority for postsecondary vocational and technical education; and

(g) Enrolls the full-time equivalent of not less than 100 students, of whom a majority is Indians.

(Authority: 20 U.S.C. 2302(28))

Vocational and technical education means organized educational activities that—

(1) Offer a sequence of courses that provides an individual with the academic and technical knowledge and skills the individual needs to prepare for further education and careers (other than careers requiring a baccalaureate, master's, or doctoral degree) in current or emerging employment sectors; and

(2) Include competency-based applied learning that contributes to an individual's academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupational-specific skills.

For the purposes of this definition, the term "sequence of courses" means a series of courses in which vocational and academic education are integrated, and which directly relates to, and leads to, both academic and occupational competencies.

(Authority: 20 U.S.C. 2301(2) and 2302 (29))

Note: Applicants are encouraged to review all applicable definitions in section 3 of the Act.

Eligible Programs, Services, and Activities

Under the TCPVTIP, projects may use grant funds to pay for the following—

(a) *Authorized expenses.* The Secretary awards grants to carry out projects that provide vocational and technical education programs to Indian students. Grants may be used to pay for expenses associated with—

(1) The maintenance and operation of the vocational and technical education

program funded under section 117 of the Act, including development costs, costs of basic and special instruction (including special programs for individuals with disabilities and academic instruction), materials, student costs, administrative expenses, boarding costs, transportation, student services, daycare and family support programs for students and their families (including contributions to the costs of education for dependents) and student stipends;

(2) Capital expenditures, including operations and maintenance, and minor improvements and repair, and physical plant maintenance costs, for the conduct of vocational and technical education programs funded under section 117 of the Act; and

(3) Cost associated with the repair, upkeep, replacement, and upgrading of instructional equipment used in vocational and technical education programs funded under the grant. (20 U.S.C. 2327(e)(1)).

(b) *Student stipends.* (1) A tribally controlled postsecondary vocational and technical institution may provide a stipend to a student to enable the student to participate in a vocational and technical education program under section 117 of the Act.

(2) In order to receive a stipend, the student must—

(i) Be enrolled in a vocational and technical education project funded under this program as at least a half-time student;

(ii) Be in regular attendance in a TCPVTIP project and meet the tribally controlled postsecondary institution's attendance requirement;

(iii) Maintain satisfactory progress in his or her course of study according to the tribally controlled postsecondary institution's published standards of satisfactory progress; and

(iv) Have an acute economic need that—

(A) Prevents participation in a project funded under this program; and

(B) Cannot be met through a work-study program.

(3) Acute economic need means an income, of the family of a dependent student or of an independent student, that is at or below the national poverty level according to the latest available data from the Department of Commerce or the Department of Health and Human Services Poverty Guidelines.

(4) The amount of a stipend may be the greater of either the minimum hourly wage prescribed by State or local law, or the minimum hourly wage established under the Fair Labor Standards Act.

(5) An institution may only award a stipend if the stipend combined with other resources the student receives does not exceed the student's financial need. The student's financial need is the difference between the student's cost of attendance and the financial aid or other resources that will be used to defray the costs of the student participating in the TCPVTIP.

(6) To calculate the amount of a student's stipend, a grantee would multiply the number of hours a student actually attends vocational and technical education instruction by the amount of the minimum hourly wage that is prescribed by State or local law, or by the minimum hourly wage that is established under the Fair Labor Standards Act.

Example: If a grantee uses the Fair Labor Standards Act minimum hourly wage of \$6.15 and a student attends classes for 18 hours a week, the student's stipend would be \$110.70 for the week during which the student attends classes ($\$6.15 \times 18 = 110.70$).

Attendance Costs Under This Program May Not Be Considered as Income

(a) The portion of any student financial assistance received under the Act that is made available for attendance costs described in paragraph (b) of this section of the notice may not be considered as income or resources in determining eligibility for assistance under any other program funded in whole or in part with Federal funds.

(b) For purposes of this section, attendance costs are—

(1) Tuition and fees normally assessed a student carrying the same academic workload as determined by the institution, including costs for rental or purchases of any equipment, materials, or supplies required of all students in the same course of study; and

(2) An allowance for books, supplies, transportation, dependent care, and miscellaneous personal expenses for a student attending an institution on at least a half-time basis, as determined by the institution.

(Authority: 20 U.S.C. 2415)

Eligibility for Assistance Under This Program May Not Preclude Assistance Under Other Programs

Except as specifically provided for in the Act, eligibility for assistance under this program shall not preclude any tribally controlled postsecondary vocational and technical institution from receiving Federal financial assistance under any program authorized under the Higher Education Act of 1965, or any other applicable program for the benefit of institutions of

higher education or vocational and technical education.

(Authority: 20 U.S.C. 2327(f)(1))

(b) For each of the past three academic years—

(i) A list of the vocational and technical education certificate and degree programs that were offered by the institution (e.g., Nursing, Automotive Technology); and

(ii) For the vocational and technical education program(s), the total number of students that enrolled, dropped out, graduated, and were placed in additional training or education, military service, or employment after graduation.

(h) A detailed budget identifying the costs to be paid with a grant under this program and resources available from other Federal, State, and local sources, including any student financial aid, that will be used to achieve the goals and objectives of the proposed project.

(i) Strategies and resources for objectively evaluating the institution's progress towards, and success in, achieving the goals and objectives of the project. (20 U.S.C. 2302(28); 2327(a), (c), (d), (e), (g)(1), and (h)(2))

Competitive Priorities

Under the authority of 34 CFR 75.105(c)(2)(ii), the Secretary gives preference to applications that meet the

following competitive priorities. The Secretary awards up to five points to applicants that meet the competitive priority in a particularly effective way. These priority points are in addition to any points an applicant earns under the selection criteria for the program.

Competitive Priority 1—High interest/high demand areas (up to 5 points)

Projects that propose to introduce, expand, or refine "high interest/high demand" vocational and technical education programs in the applicant institution. The need for "high interest/high demand" programs should be based on the institution reviewing such evidence as changing trends in an occupation, documented labor market needs, or evidence of emerging jobs in the career or occupational area (e.g., occupational forecast data, survey data from interested persons and business owners in the local area).

Competitive Priority 2—Professional development (up to 5 points)

Projects that propose on-going professional development activities (e.g., internships, teacher externships, business/education collaboratives, use of technology to facilitate training activities) intended to enhance the teaching or occupational skills and competencies of the applicant's staff who serve vocational and technical education students. The training should be designed to help the staff to better meet the vocational and technical educational goals and objectives of the proposed project. To the extent possible, professional development activities should be related to training students for emerging occupations relevant to the needs of the community.

Competitive Priority 3—Student recruitment, retention, and course completion. (up to 5 points)

Projects that propose, as a part of their TCPVTIP projects' vocational and technical education program, to use effective techniques for increasing student recruitment, enrollment, retention, and completion. The effectiveness of the techniques must be supported by empirical data.

Program Requirements

To ensure the high quality of TCPVTIP projects and the achievement of the goals and purposes of section 117(a)-(f) and (h) of the Act, the Secretary establishes the following program requirements:

(a) *Evaluation.* (1) Each grantee shall budget for and conduct an ongoing evaluation of its effectiveness. The evaluation must be conducted by an independent evaluator.

A performance report must include, for the period covered by the report—

(i) A comparison of actual accomplishments in relation to the objectives established for the period and a description of any problems, delays, or adverse conditions that materially impair the ability of the project to accomplish its purposes, the reasons for such problems, delays or adverse conditions, and an explanation of any action or actions taken or contemplated to resolve the difficulties. Note: Grantees must request prior approval for a change in the scope or the objectives of the project or program (even if there is no associated budget revision requiring prior written approval). (34 CFR 74.25(c));

(B) The number and kind of academic, vocational and technical, and work credentials and competencies acquired and demonstrated by individuals participating in the project, especially the number of students earning certificates and degrees. Grantees should also report students' participation in programs providing training at the associate degree level that is articulated with an advanced degree option; and

(C) The number of referrals the project made to social services and related services to aid participants to benefit from the project, to prepare them for employment, or to assist them in obtaining employment.

(2) An annual evaluation report that is submitted along with the annual performance report.

(3) An annual accurate and detailed accounting of the institution's operating and maintenance expenses and such other information concerning costs as the Secretary may reasonably require. (20 U.S.C. 2327(e)(2)).

(Approved by the Office of Management and Budget under Control Number 1830-0542)

Determination of Number and Funding Level of Grants

(a) The number of grants made and the amount of each grant is determined under the provisions of 34 CFR 75.230-75.234 and section 117(e) of the Act. The formula in section 117(c) of the Act does not apply to the first year of funding under this competition.

(b) For fiscal years subsequent to the first year of funding under this competition—

(i) The Secretary will determine the number of grants and the amount of each grant based on the availability of appropriations, 34 CFR 75.253, and section 117(e) of the Act; and

(ii) If appropriations for each such subsequent fiscal year are not sufficient to fund the total amount that approved grantees are eligible to receive, the Secretary will allocate grant amounts in accordance with section 117(c) of the Act.

(Authority: 20 U.S.C. 2327(c))

Government Performance and Results Act

The Government Performance and Results Act of 1993 (GPRA) places management expectations and requirements on Federal departments and agencies by creating a framework for more effective planning, budgeting, program evaluation, and fiscal accountability for Federal programs. The intent of GPRA is to improve public confidence by holding departments and

agencies accountable for achieving program results. Under GPRA, departments and agencies must clearly describe the goals and objectives of their programs, identify resources and actions needed to accomplish these goals and objectives, develop a means of measuring progress made, and regularly report on their achievement. One important source of program information on successes and "lessons learned" is the project evaluation conducted under individual grants. In accordance with GPRA requirements, TCPVTIP grantees are asked to include the following objective and performance indicator when evaluating the success of their projects:

The extent to which vocational students served in tribally controlled postsecondary vocational and technical institutions make successful transitions to work or continuing education. The Department's performance indicator for this objective is that by fall 2002, 60% of vocational students will receive an AA degree or certificate.

(Approved by the Office of Management and Budget under Control Number 1830-0542)

Waiver of Rulemaking

While it is generally the practice of the Secretary to offer interested parties the opportunity to comment on a regulation before it is implemented, section 437(d)(1) of the General Education Provisions Act exempts from formal rulemaking requirements, regulations governing the first grant competition under a new or substantially revised program authority (20 U.S.C. 1232(d)(1)). The program authority for what was formerly known as the Tribally Controlled Postsecondary Vocational Institutions Program was substantially revised on October 31, 1998 by section 117 of Pub. L. 105-332. In order to make awards on a timely basis, the Secretary has decided to publish this notice in final form under the authority of section 437(d)(1).

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned

If you marked item 12 on the application "Yes" and designated exemptions in 12a, **(all research activities are exempt)**, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under **II.B. "Exemptions,"** below. The Narrative must be succinct. **Provide this information in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 12 on the face page, and designated no exemptions from the regulations **(some or all of the research activities are nonexempt)**, address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the cir-

cumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

Instructions for Part III—Budget Narrative

The budget narrative should explain, justify, and, if needed, clarify your budget summary. For each line item (personnel, fringe benefits, travel, etc.) in your budget, explain why it is there and how you computed the costs.

Please limit this section to no more than five pages. Be sure that each page of your application is numbered consecutively.

Instructions for Part IV—Program Narrative

The program narrative will comprise the largest portion of your application. This part is where you spell out the

who, what, when, why, and how, of your proposed project.

Although you will not have a form to fill out for your narrative, there is a format. This format is based on the selection criteria. Because your application will be reviewed and rated by a review panel on the basis of the selection criteria, your narrative should follow the order and format of the criteria.

Before preparing your application, you should carefully read the legislation and EDGAR rules governing the program; eligibility requirements; "Content of Application" section of this notice; "Eligible Programs, Services and Activities" section of this notice; priorities; selection criteria; and program requirements for this competition.

Your program narrative should be clear, concise, and to the point. Begin the narrative with a one page abstract or summary of your project. Then describe the project in detail, addressing each selection criterion in order. Be sure to number consecutively ALL pages in your application.

The Secretary strongly suggests that you limit the program narrative to no more than 30 doubled-spaced, typed pages (on one side only), although the Secretary will consider your application if it is longer. Be sure to number consecutively ALL pages in your application.

You may include supporting documentation as appendices to the program narrative. Be sure that this material is concise and pertinent to this program competition.

You are advised that—

(a) The Secretary considers only information contained in the application in ranking applications for funding consideration.

(b) The technical review panel evaluates each application solely on the basis of the eligible programs, services, and activities; selection criteria; and competitive priorities contained in this notice.

(c) Letters of support included as appendices to an application, that are of direct relevance to or contain commitments that pertain to the established selection criteria, such as commitment of resources, will be reviewed by the panel. Letters of support sent separately from the formal application package are not considered in the review by the technical review panels. (34 CFR 75.217)

Appendix B

Potential applicants frequently direct questions to officials of the Department regarding application notices and

programmatic and administrative regulations governing various direct grant programs. To assist potential applicants, the Department has assembled the following most commonly asked questions followed by the Department's answers.

Q. Can we get an extension of the deadline?

A. No. A closing date may be changed only under extraordinary circumstances. Any change must be announced in the **Federal Register** and must apply to all applications. Waivers for individual applications cannot be granted regardless of the circumstances.

Q. How many copies of the application should I submit and must they be bound?

A. Applicants are required to submit one original and two copies of the grant application. To aid with the review of applications, the Department encourages applicants to submit four additional copies of the grant application. The Department will not penalize applicants who do not provide additional copies. The binding of applications is optional.

Q. We just missed the deadline for the XXX competition. May we submit under another competition?

A. Yes, however, the likelihood of success is not good. A properly prepared application must meet the specifications of the competition to which it is submitted.

Q. I'm not sure which competition is most appropriate for my project. What should I do?

A. We are happy to discuss any such questions with you and provide clarification on the unique elements of the various competitions.

Q. Will you help us prepare our application?

A. We are happy to provide general program information. Clearly, it would not be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about application requirements, evaluation criteria, and the priorities. Applicants should understand, however, that prior contact with the Department is not required, nor will it in any way influence the success of an application.

Q. When will I find out if I'm going to be funded?

A. You can expect to receive notification within 3 to 4 months depending on the number of the applications received and the number of Department competitions with similar closing dates.

Q. Once my application has been reviewed by the review panel, can you tell me the outcome?

A. No. Every year we are called by a number of applicants who have a legitimate reason for needing to know the outcome of the panel review prior to official notification. Some applicants need to make job decisions, some need to notify a local school district, etc. Regardless of the reason, because final funding decisions have not been made at that point, we cannot share information about the results of the panel review with anyone.

Q. Will my application be returned if I am not funded?

A. No. We no longer return unsuccessful applications. Thus, applicants should retain at least one copy of the application.

Q. Can I obtain copies of reviewers' comments?

A. Upon written request, reviewers' comments will be mailed to unsuccessful applicants.

Q. If my application receives high scores from the reviewers, does that mean that I will receive funding?

A. Not necessarily. It is often the case that the number of applications scored highly by the reviewers exceeds the dollars available for funding projects under a particular competition. The order of selection, which is based on the scores of all the applications reviewed and other relevant factors, determines the applications that can be funded.

Q. What happens during pre-award clarification discussions?

A. During pre-award clarification discussions, technical and budget issues may be raised. These are issues that have been identified during the panel and staff reviews that require clarification. Sometimes issues are stated as "conditions." These are issues

that have been identified as so critical that the award cannot be made unless those conditions are met. Questions may also be raised about the proposed budget. Generally, these issues are raised because an application contains inadequate justification or explanation of a particular budget item, or because the budget item seems unimportant to the successful completion of the project. If you are asked to make changes that you feel could seriously affect the project's success, you may provide reasons for not making the changes or provide alternative suggestions. Similarly, if proposed budget reductions will, in your opinion, seriously affect the project activities, you may explain why and provide additional justification for the proposed expenses. An award cannot be made until all issues under discussion have been resolved.

Q. Where can copies of the Federal Register, Education Department General Administrative Regulations (EDGAR), and Federal statutes be obtained?

A. Copies of these materials can usually be found at your local library. If not, they can be obtained from the Government Printing Office by writing to Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Telephone: (202) 708-8228. When requesting copies of regulations or statutes, it is helpful to use the specific name of the public law, number of a statute, or part number of a regulation. The material referenced in this notice should be referred to as follows:

(1) The Carl D. Perkins Vocational and Technical Education Act of 1998, Public Law 105-332, 20 U.S.C. 2301.

(2) Education Department General Administrative Regulations, 34 CFR parts 74, 75, 77, 81, 82, 85, 86, 97, 98, and 99.

Copies of these materials may also be found on the World Wide Web at <http://www.access.gpo.gov/nara>.
