

collected on Form SSA-1588-OCR-SM to ensure that eligibility for benefits continues after entitlement. SSA asks mothers/fathers information about their marital status and children in-care to detect overpayments and avoid continuing payment to those no longer entitled. The respondents are recipients of survivor mother/father Title II (OASDI) benefits.

Number of Respondents: 133,400.

Frequency of Response: 1.

Average Burden Per Response: 5 minutes.

Estimated Annual Burden: 11,117 hours.

7. *Quiz Show—Internet Edition—0960-NEW.*

Background

As stated in the 1997 Agency Strategic Plan, one of the SSA's five major goals is "To Strengthen Public Understanding of the Social Security Programs" so the public will understand what benefits are valuable to them personally. Accordingly, the public will be able to more effectively plan for retirement security. Under this goal, SSA established a strategic objective that, by 2005, 90% of the public will be knowledgeable about SSA programs. In establishing this goal SSA recognized the need to develop innovative methods to help educate and continually measure the public's knowledge of SSA programs.

The Collection—"Quiz Show"

SSA intends to implement an online interactive educational game entitled "Quiz Show—Internet Edition". The purpose of Quiz Show is to help support the Agency's goal of increasing the public's understanding of Social Security programs.

Quiz Show will consist of 10 questions, which are based on 8 key messages about SSA programs that the Agency wants the public to understand. Participation in the online game will be strictly voluntary. Data collected through each Quiz Show question will measure the overall responses for the purpose of gauging the public's knowledge of each key Social Security message.

SSA will implement Quiz Show in stages, with the initial stage providing performance feedback to the user. However, eventually SSA will use Quiz Show to collect performance data and demographic data. SSA will not require users to provide demographic data to play the game. Rather, users would be asked to provide this data voluntarily. Questions related to demographics are for the sole purpose of identifying audiences to whom specific key

messages should be targeted to increase their knowledge. Respondents to Quiz Show will be individuals who visit SSA's website, Social Security Online, and elect to play the online game.

Number of Respondents: 12,000.

Frequency of Response: 1.

Average Burden Per Response: 8 minutes.

Estimated Annual Burden: 1,600 hours.

8. *Work History Report—0960-0578.* The information collected on form SSA-3369 is needed to determine disability by the State DDSs. The information will be used to document an individual's past work history. The respondents are applicants for disability benefits.

Number of Respondents: 1,000,000.

Frequency of Response: 1.

Average Burden Per Response: 30 minutes.

Estimated Annual Burden: 500,000 hours.

9. *Internet Social Security Benefits Application—0960-0618.* The Internet Social Security Benefits Application (ISBA), which is available at the Social Security Administration's (SSA) Internet site, is one application that the Commissioner of Social Security prescribes to meet the requirement to file an application for benefits. Currently, the ISBA can only be used to apply for retirement and spouse's benefits. SSA plans to expand ISBA to encompass surviving spouse (i.e., widow and widower) benefits. The expanded ISBA will enable individuals to complete the application electronically on their own and submit the application over the Internet. Until SSA develops an acceptable electronic signature process, applicants will also print, sign and mail the ISBA statement with the required evidence that supports their benefit application. The information that SSA collects will be used to determine entitlement to Social Security benefits. The respondents are individuals who choose to apply for Social Security benefits over the Internet.

Number of Respondents: 150,000.

Frequency of Response: 1.

Average Burden Per Response: 25 minutes.

Estimated Annual Burden: 62,500 hours.

II. The information collection listed below has been submitted to OMB for clearance. Your comments on the information collection would be most useful if received by OMB and SSA within 30 days from the date of this publication. You can obtain a copy of the OMB clearance package by calling the SSA Reports Clearance Officer on

(410) 965-4145, or by writing to him at the address listed above.

Function Report—Adult; 0960-0603.

Form SSA-3373-TEST is used by the SSA to record the claimant's description of his or her impairment-related limitations and ability to function. The respondents are Applicants for Title II (Old-Age, Survivors and Disability Insurance) and Title XVI (Supplemental Security Income) benefits.

Number of Respondents: 7,000.

Frequency of Response: 1.

Average Burden Per Response: 30.

Estimated Annual Burden: 3,500.

Dated: March 26, 2001.

Frederick W. Brickenkamp,

Reports Clearance Officer.

BILLING CODE 4910-15-U

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Approval of Noise Compatibility Program for Dillingham Airfield, Mokuleia, Hawaii

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the Noise Compatibility Program submitted by the State of Hawaii, Department of Transportation under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Public Law 96-193) and Title 14, Code of Federal Regulations Part 150 (Part 150). These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On September 14, 2000, the FAA determined that the noise exposure maps submitted by the State of Hawaii, Department of Transportation under Part 150 were in compliance with applicable requirements. On March 13, 2001, the Acting Associate Administrator for Airports approved the Dillingham Airfield Noise Compatibility Program. Seven of the eight recommendations of the program were approved. One measure was approved as a voluntary measure, six measures were approved outright, and one measure was disapproved pending the submission of additional information.

EFFECTIVE DATES: The effective date of the FAA's approval of the Dillingham Airfield Noise Compatibility Program is March 13, 2001.

FOR FURTHER INFORMATION CONTACT:

David J. Welhouse, Airport Planner Honolulu Airports District Office, Federal Aviation Administration, Box 50244, Honolulu, Hawaii 96850-0001, Telephone: (808) 541-1243; street address: 300 Ala Moana Blvd., Room 7-128. Documents reflecting this FAA action may be reviewed at this location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the Noise Compatibility Program for the Dillingham Airfield, effective March 13, 2001.

Under section 104(a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act"), an airport operator who has previously submitted a Noise Exposure Map may submit to the FAA a Noise Compatibility Program which sets forth the measures taken or proposed by the airport operator for the reduction of existing noncompatible land uses and prevention of additional noncompatible land uses within the area covered by the Noise Exposure Maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport Noise Compatibility Program developed in accordance with
