

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to Federal, state, and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission.

To ensure your comments are considered, please carefully follow the instructions in the public participation section below.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. By becoming a commentor, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative locations or routes), and measures to avoid or lessen environment impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of GAS 1, PJ-11.1;
- Reference Docket No. CP01-70-000; and
- Mail your comments so that they will be received in Washington, DC on or before April 30, 2001.

Comments, protests and interventions may also be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm> under the link to the User's Guide. Before you can file comments you will need to create an account which can be created by clicking on "Login to File" and then "New User Account."

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor." Intervenor play a more formal role in the process. Among other things,

intervenor have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide 14 copies of its filings to the Secretary of the Commission and must sent a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 2).⁴ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Additional information about the proposed project is available from the Commission's Office of External Affairs at (202) 208-1088 or on the FERC website (www.ferc.fed.us) using the "RIMS" link to information in this docket number. Click on the "RIMS" link, select "Docket #" from the RIMS Menu, and follow the instructions. For assistance with access to RIMS, the RIMS helpline can be reached at (202) 208-2222.

Similarly, the "CIPS" link on the FERC Internet website provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings. From the FERC Internet website, click on the "CIPS" link, select "Docket #" from the CIPS menu, and follow the instructions. For assistance with access to CIPS, the CIPS helpline can be reached at (202) 208-2474.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6960-6]

Agency Information Collection Activities: Proposed Collection; Comment Request; Clean Water Act State Revolving Fund Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Clean Water Act State Revolving Fund Program, EPA ICR Number 1391.04, OMB Control Number 2040-0118 and expiration date of 09/30/01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before June 4, 2001.

ADDRESSES: Comments may either be mailed to Nelson L. Price, Office of Wastewater Management (4204M), ICC Building, U.S. Environmental Protection Agency, 1201 Constitution Ave., NW., Washington, DC 20460 or emailed to price.nelson@epa.gov and refer to EPA No. 1391.06.

FOR FURTHER INFORMATION CONTACT: Nelson L. Price at (202) 564-0602, or FAX at (202) 501-2403.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which consist of the fifty states, Puerto Rico, and the recipients of assistance in each of these jurisdictions.

Title: Clean Water Act State Revolving Fund Program (OMB Control No. 2040-0118; EPA ICR No.1391.04) expiring 09/30/01.

Abstract: The Clean Water Act, as amended by "The Water Quality Act of 1987" (U.S.C. 1381-1387 *et seq.*), created a Title VI which authorizes grants to States for the establishment of State Water Pollution Control Revolving Funds (SRFs). The information activities are pursuant to section 606 of the Act, and SRF Interim Final Rule (March 1990).

The 1987 Act declares that water pollution control revolving loan funds shall be administered by an instrumentality of the State subject to the requirements of the Act. This means that each State has a general

⁴ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

responsibility for administering its revolving fund and must take on certain specific responsibilities in carrying out its administrative duties. The information collection activities will occur primarily at the program level through the State Intended Use Plan and Annual Report. The information is needed annually to implement section 606 of the Clean Water Act (CWA). The Act requires the information to ensure national accountability, adequate public comment and review, fiscal integrity and consistent management directed to achieve environmental objectives. The individual information collections are: (1) Capitalization Grant Application and Agreement / State Intended Use Plan, (2) Annual Report, (3) State Audit, and (4) Application for SRF Financial Assistance.

(1) *Capitalization Grant Application and Agreement / State Intended Use Plan*: The State will prepare a Capitalization Grant Application that includes an Intended Use Plan (IUP) outlining in detail how it will use all the funds available to the fund. The grant agreement contains or incorporates by reference the IUP, application materials, payment schedule, and required assurances. The bulk of the information is provided in the IUP, the legal agreement which commits the State and EPA to execute their responsibilities under the Act.

(2) *Annual Report*: The State must agree to complete and submit an Annual Report that indicates how the State has met the goals and objectives of the previous fiscal year as stated in the IUP and grant agreement. The Report provides information on loan recipients, loan amounts, loan terms, project categories, and similar data on other forms of assistance. The Report describes the extent to which the existing SRF financial operating policies, alone or in combination with other State financial assistance programs, will provide for the long term fiscal health of the Fund and carry out other provisions specified in the grant operating agreement.

(3) *Annual Audit*: Most States have agreed to conduct or have conducted a separate financial audit of the capitalization grant which will provide opinions on the financial statements, and a report on the internal controls and compliance with program requirements. The remaining States will be covered by audits conducted under the requirements of the Single Audit Act and by EPA's Office of Inspector General.

(4) *Application for SRF Financial Assistance*: Local communities and other eligible entities have to prepare and submit applications for SRF assistance to their respective State Agency which manages the SRF

program. The State reviews the completed loan applications, and verifies that the proposed projects will comply with applicable Federal and State requirements.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement

Agency Information Collection Activities: Proposed Collection; Comment Request; Information Collection Request Number 0820.08: Hazardous Waste Generator Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB): Hazardous Waste Generator Standards, EPA ICR Number 0820.08, OMB Control Number 2050-0035, current expiration date 9/30/01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before June 4, 2001.

ADDRESSES: Commenters must send an original and two copies of their comments referencing docket number F-2001-HG1P-FFFFF to RCRA Docket Information Center, Office of Solid Waste (5305G), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue N.W., Washington, DC 20460. Hand deliveries of comments should be made to the Arlington, VA, address listed below. Comments may also be submitted electronically by sending electronic mail through the Internet to: rcradocket@epamail.epa.gov. Comments in electronic format should also be identified by the docket number F-2001-HG1P-FFFFF. All electronic comments must be submitted as an

ASCII file avoiding the use of special characters and any form of encryption.

Public comments and supporting materials are available for viewing in the RCRA Information Center (RIC), located at Crystal Gateway 1, 1235 Jefferson Davis Highway, first floor, Arlington, VA. The RIC is open from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding federal holidays. To review docket materials, the public must make an appointment by calling 703-603-9230. The public may copy a maximum of 100 pages from any regulatory docket at no charge. Additional copies cost \$.15/page.

Copies of the original ICR may be requested from the docket address and phone number listed above or may be found on the Internet. On the Internet, access the main EPA gopher menu and locate the directory: EPA Offices and Regions/Office of Solid Waste and Emergency Response (OSWER)/Office of Solid Waste (RCRA/hazardous waste-RCRA Subtitle C/generators.

The official record for this action will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into paper form and place them in the official record, which will also include all comments submitted directly in writing. The official record is the paper record maintained in the RCRA Information Center (the RIC address is listed above in this section).

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline at 1-800-424-9346 or TDD 1-800-553-7672 (hearing impaired). In the Washington metropolitan area, call 703-412-9610 or TDD 703-412-3323. For technical information, contact Bryan Groce at 703-308-8750.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are generators of hazardous wastes; transporters who commingle wastes with different Department of Transportation descriptions; and importers or exporters of hazardous wastes.

Title: Hazardous Waste Generator Standards (OMB Control No. 2050-0035; EPA ICR No. 0820.07), expiring 9/30/01.

Abstract: In the Resource Conservation and Recovery Act (RCRA), as amended, Congress directed the U.S. Environmental Protection Agency (EPA)

to implement a comprehensive program for the safe management of hazardous waste. The core of the national waste management program is the regulation of hazardous waste from generation to transport to treatment and eventual disposal, or from "cradle to grave." Section 3001(d) of RCRA requires EPA to develop standards for small quantity generators. Section 3002 of RCRA among other things states that EPA shall establish requirements for hazardous waste generators regarding recordkeeping practices. Section 3002 also requires EPA to establish standards on appropriate use of containers by generators.

Finally, section 3017 of RCRA specifies requirements for individuals exporting hazardous waste from the United States, including a notification of the intent to export, and an annual report summarizing the types, quantities, frequency, and ultimate destination of all exported hazardous waste (additional reporting requirements for exporters and importers of recyclable materials are covered under ICR Number 1647.01).

This ICR targets five categories of informational requirements in part 262: hazardous waste determination requirements; pre-transport requirements for both large (LQG) and small (SQG) quantity generators (including the generator pre-transport requirements referenced in 40 CFR part 265), air emission standards requirements for LQGs (referenced in 40 CFR part 265, subparts I and J), recordkeeping and reporting requirements for LQGs and SQGs, and export requirements for LQGs and SQGs (i.e., notification of intent to export and annual reporting).

This collection of information is necessary to help generators and EPA (1) identify and understand the waste streams being generated and the hazards associated with them, (2) determine whether employees have acquired the necessary expertise to perform their jobs, and (3) determine whether LQGs have developed adequate procedures to respond to unplanned sudden or non-sudden releases of hazardous waste or hazardous constituents to air, soil, or surface water. This information is also needed to help EPA determine whether tank systems are operated in a manner that is fully protective of human health and the environment and to ensure that releases to the environment are managed quickly and efficiently.

Additionally, this information contributes to EPA's goal of preventing contamination of the environment from hazardous waste accumulation practices, including contamination from
