SUPPLEMENTARY INFORMATION:

I. Background

The North American Free Trade Agreement (NAFTA) Implementation Act amended Chapter 2 of Title II of the Trade Act of 1974 to add a Subchapter D—NAFTA Transitional Adjustment Assistance Program. This program provides needed adjustment assistance to workers adversely affected because of imports from Canada or Mexico or shifts of production from the United States to those countries.

Section 250 of the Act authorizes the Governor of each State to accept petitions for certification of eligibility to apply for adjustment assistance. Once a petition for NAFTA adjustment assistance is filed with the Governor in the State where the firm is located, the law gives the Governor ten days to make a preliminary finding of whether the petition meets the group eligibility requirements under Subchapter D, and transmits the finding to the Secretary of Labor. The NAFTA Confidential Data Request Form ETA-9043 establishes the format which has been used by the Governor for making a preliminary finding.

Employment and Training Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; NAFTA-Transitional Adjustment Assistance Customer Survey Form

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed renewal of the information collection of the NAFTA Transitional Adjustment Assistance Customer Survey Form, ETA 9044.

A copy of the proposed information collection request can be obtained by contacting the employee listed below in the contact section of this notice.

DATES: Written comments must be submitted on or before June 5, 2001. Written comments should evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; enhance the quality, utility, and clarity of the information to be collected; and minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Section 250 of the Act authorizes the Governor of each State to accept petitions for certification of eligibility to apply for NAFTA transitional adjustment assistance. Once a preliminary finding is issued by the Governor, the Secretary must determine to what extent, if any, increased imports from Mexico or Canada have impacted the petitioning workers' firm selling market, and thus determine whether the statutory criteria for worker group eligibility are met. The customer survey form establishes the format which has been used by the Secretary to determine the impact of imports.

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Mine Ventilation System Plan

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: Submit comments on or before June 5, 2001.

FOR FURTHER INFORMATION CONTACT: Brenda C. Teaster, Acting Chief, Records Management Division, U.S. Department of Labor, Mine Safety and Health Administration, Room 709A, 4015 Wilson Boulevard, Arlington, VA 22203-1984. Mrs. Teaster can be reached at bteaster@msha.gov (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Underground mines present harsh and hostile working environments. the ventilation system is the most vital life support system in underground mining and a properly operating ventilation system is essential for maintaining a safe and healthful working environment. Lack of adequate ventilation in underground mines has resulted in fatalities from asphyxiation and explosions.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Mine Ventilation System Plan. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

A well planned mine ventilation system is necessary to assure a fresh air supply to miners at all working places, to control the amounts of harmful airborne contaminants in the mine atmosphere, and to dilute possible accumulation of explosive gases.

The standard requires that mine operators prepare a written plan of the mine's ventilation system and to update the plan annually. The purposes are to insure that each operator routinely plans, reviews, and updates the plan; to insure the availability of accurate and correct information; and to provide MSHA with the opportunity to alert the mine operator to potential hazards.
