These alternatives will be submitted to the Council in July for approval to hold public hearings and gather comments on the draft amendment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

[Docket No. RP01-350-000]

#### Colorado Interstate Gas Company; Notice of Proposed Changes in FERC Gas Tariff

April 4, 2001.

Take notice that on March 30, 2001, Colorado Interstate Gas Company (CIG) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed in Appendix A to the notice attached to the filing, to become effective May 1, 2001.

The proposed rate changes would increase revenues from jurisdictional service by approximately \$9.4 million based on the 12-month period ending December 31, 2000, as adjusted. CIG states that \$9.4 million rate increase would be necessary to: (1) Compensate CIG for the inflation in operating costs that has occurred since its last general rate case in 1996, including the expansion filings in Docket No. CP00-452-000 (Raton Basin Expansion), Docket No. CP01-1-000 (Valley Line I

Expansion), safest-related system integrity, as well as substantial electronic and computer enhancements; (2) modify rates to reflect CIG's current business and discounting profile and; (3) would allow CIG to earn a rate of return on CIG's assets, at a level that will be competitive in capital markets.

CIG states that the tariff sheets listed in Appendix A include two new transportation services, and change significantly the nature and the cost of its two no-notice delivery services, as well as multiple conforming tariff modifications.

CIG states that a full copy or abbreviated copy of its filing are being serviced on all jurisdictional customers, applicable state commissions, and interested parties that have requested service.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.
