This Notice also lists the following information:

*Title of Proposal:* Assessment of Third-Party Economic Development Loans Funded Through HUD's Community Planning and Development Programs.

*Description of the need for the information and proposed use:* The information to be collected is part of a larger study of the character and impacts of third-party economic development lending activities funded through HUD's Community Development Block Grant (CDBG), Economic Development Initiative (EDI), and section 108 Guaranteed Loan programs. Although many communities have used large amounts of CDBG, EDI, and section 108 funds for such purposes, there is very little systematically collected information about the extent of such lending

nationally, the character and performance of the loans that are made, and the economic development impacts of such loans. This information collection is intended to fill this gap by: describing and characterizing the extent of third-party lending under the CDBG, section 108, and EDI programs; characterizing the nature of the national economic development loan portfolio; and assessing the basic performance and impacts of economic development loans. Together with data collected from administrative records, this information will provide HUD with key performance and evaluation data on its community and economic development programs as well as inform ongoing policy discussion regarding the desirability and feasibility of initiating secondary market sales of locally-issued economic development loans. Secondary market sales could provide such jurisdictions with increased capital availability for economic development purposes.

*Members of affected public:* In addition to collection of administrative data associated with economic development lending, these objectives will be accomplished through three surveys. The first involves brief telephone interviews with the national universe of local Directors of Community/Economic Development Departments that have used HUD funds for economic development purposes over the last decade. The second involves in-person, in-depth interviews with a sample of local Directors and other officials of Community/Economic Development Departments in 65 local jurisdictions (cities and urban counties) and states that have done extensive lending for economic development—averaging three interviews per jurisdiction/state. The third involves telephone interviews with principals/representatives of private businesses that in recent years have received economic development loans using CDBG, EDI, or section 108 funds.

Estimation of the total number of hours needed to prepare the information collection, including the number of respondents, frequency of response, and hours of response.

Types of respondents	Number of respondents	Number of responses	Minutes per respondent	Total burden hours
Community/Economic Development Department Directors (by telephone) ....	800	1	20	266

Principals/Representatives of Business Loan Recipients (by telephone) .....	600	1	20	200
Total .....	1595			661

*Status of proposed information collection:* Pending OMB approval.

Dated: March 29, 2001.
