In addition, a memo was signed in October 1990 and renewed in November 1992, 1996, and in 2000, between the ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

Purpose: This Study Team is charged with locating, evaluating, cataloguing, and copying documents that contain information about historical chemical or radionuclide releases from facilities at the Los Alamos National Laboratory since its inception. Matters To Be Discussed: Agenda items include a presentation from the National Center for Environmental Health (NCEH) and its contractor regarding an update on the information-gathering project that began in February 1999, including discussion of the project's initial draft report scheduled to be issued in late August 2001.
