The collection of information is necessary to assure that gravesite set-asides are not wasted. Some holders become ineligible, are buried elsewhere, or simply wish to cancel a gravesite set-aside for them. Without this information, unused set-asides would exist which could be used by other veterans.

Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement, without change, of a previously approved collection for which approval has expired, and allow 60 days for public comment in response to the notice. This notice solicits comments on the information needed to ensure that the items being purchased meet minimum safety standards and to protect VA employees, VA beneficiaries and the public.

**DATES:** Written comments and recommendations on the proposed collection of information should be received on or before June 11, 2001.

**ADDRESSES:** Submit written comments on the collection of information to Donald E. Kaliher, Office of Acquisition and Materiel Management (95A), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420 or e-mail

**SUPPLEMENTARY INFORMATION:** Under the PRA of 1995 (Public Law 104-13; 44 U.S.C., 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, OA&MM invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of OA&MM's functions, including whether the information will have practical utility; (2) the accuracy of OA&MM's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

*Title:* Veterans Affairs Acquisition Regulation (VAAR) Provision 852.211-75, Technical Industry Standards.

*OMB Control Number:* 2900-0586.

*Type of Review:* Reinstatement, without change, of a previously approved collection for which approval has expired.

*Abstract:* VAAR provision 852.211-75, Technical Industry Standards, requires that items offered for sale to VA under the solicitation conform to certain technical industry standards, such as Underwriters Laboratory (UL) or the National Fire Protection Association, and that the contractor furnish evidence to VA that the items meet that requirement. The evidence is normally in the form of a tag or seal affixed to the item, such as the UL tag on an electrical cord or a tag on a fire-rated door. This requires no additional effort on the part of the contractor, as the items come from the factory with the tags already in place, as part of the manufacturer's standard manufacturing operation. Occasionally, for items not already meeting standards or for items not previously tested, a contractor will have

to furnish a certificate from an acceptable laboratory certifying that the items furnished have been tested in accordance with, and conform to, the specified standards. Only firms whose products have not previously been tested to ensure the products meet the industry standards required under the solicitation will be required to submit a separate certificate. The information will be used to ensure that the items being purchased meet minimum safety standards and to protect VA employees, VA beneficiaries, and the public.

*Affected Public:* Business or other for-profit; Individuals and households; and Not-for-profit institutions.

*Estimated Annual Burden:* 50 hours.

*Estimated Average Burden Per Respondent:* 30 minutes.

*Frequency of Response:* On occasion.
