

such instances, the Corporation may also provide up to \$800 per Fellow beyond the first 30 Fellows to support costs such as health insurance and member training and development.

Because these grants are fixed-amount awards, they do not require Corporation monitoring of actual costs incurred. The cost principles normally applicable to Federal awards do not apply. The sponsor assumes full financial responsibility for the program and must provide the additional financial support necessary to carry out their proposed AmeriCorps Promise Fellows program. The sponsor should indicate the amounts and types of additional financial support required for the program in the budget narrative of the application.

In addition to the approved grant amount, the Corporation will provide an education award to Fellows who successfully complete their term of service.

The project period is negotiable, but generally proposals should indicate a proposed program start date between October 1, 2001 and January 1, 2002.

The Corporation anticipates that these grants will cover up to a three-year period, subject to performance and the availability of appropriations. The funding opportunity announced under this Notice is to cover the first year.

Process for Selecting Sponsors

In selecting sponsors, the Corporation will use the following evaluation criteria:

- | | |
|-----------------------------|-----|
| Program Design | 60% |
| • Getting Things Done | |
| • Participant Development | |
| • Strengthening Communities | |
| Organizational Capacity | 25% |
| Budget/Cost Effectiveness | 15% |

The Corporation will make all final decisions concerning approval of these grants. Upon initial approval of an application, the Corporation will enter into negotiations with the sponsor that may require revisions to the original grant proposal. Final approval of the application is contingent on completion of negotiations to the Corporation's satisfaction.

The Corporation anticipates announcing selected applicants under this announcement by August 15, 2001.

Dated: April 10, 2001.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATE: Interested persons are invited to submit comments on or before June 15, 2001.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the

Department minimize the burden of this collection on the respondents, including through the use of information technology.

Abstract: The Preparing Tomorrow's Teachers To Use Technology program was created in 1999 to meet the critical need for developing technology-proficient educators. That year, 64 Implementation grants were awarded to support consortia that were ready to put into practice innovations that had the potential to "transform their teacher preparation programs into 21st century learning environments." This evaluation will investigate how teacher preparation programs that received PT3 Implementation grants in 1999 conducted reforms in the ways they prepare future teachers to use technology.
