BILLING CODE 8120-08-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement; Maricopa County, Arizona

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an individual impact statement will be prepared for a proposed highway project within Maricopa County, Arizona.

FOR FURTHER INFORMATION CONTACT:
Kenneth H. Davis, District Engineer,
Federal Highway Administration, 234
North Central Avenue, Suite 330,
Phoenix, AZ 85004, telephone (602)
379-3646.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Arizona Department of Transportation (ADOT), will prepare an environmental impact statement (EIS) to study the proposed South Mountain Corridor in Maricopa County, Arizona. The proposed project will involve construction of a new multilane freeway in the metropolitan Phoenix area extending approximately 25 miles from I-10 west of Phoenix to I-10 southeast of Phoenix to form a southwest loop. The proposed project will evaluate potential impacts to mountain preserve land, residential and commercial development, Tribal lands, cultural resources, historic roads and canals, Endangered Species, jurisdictional water of the U.S., air and noise quality, and hazardous waste.

Improvements to the corridor are considered necessary to provide for the existing and projected traffic demand. A full range of reasonable alternatives will be considered including (1) taking no action; (2) using alternate travel modes; (3) limited access parkway; (4) major urban arterial with transportation system management improvements; and (5) a freeway.

A Final State Environmental Assessment was completed for the South Mountain Corridor. At that time,

a recommended alternative was selected and an accompanying Design Concept Report was completed in September 1988. Due to the elapsed time and changed conditions that have occurred since completion of these documents, new studies are required.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies including the Environmental Protection Agency, U.S. Army Corps of Engineers, Bureau of Indian Affairs, Bureau of Land Management, U.S. Fish and Wildlife Service, Arizona State Land Department, Arizona Game & Fish Department, City of Phoenix, Town of Laveen, City of Avondale, and the Gila River Indian Tribe. Letters will also be sent to interested parties including, the Ahwatukee Foothills Village Planning Committee, Laveen Village Planning Committee and Estrella Village Planning Committee.

A series of public meetings will be held in the communities within the proposed study area. In addition, a public hearing will be held. Public notice will be given advising of the time and place of the meetings and hearing. A formal scoping meeting is planned between Federal, State, city and Tribal stakeholders.

To insure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments, and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Kenneth H. Davis,
District Engineer, Phoenix.

BILLING CODE 4910-22-M

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-97-2341]

Parts and Accessories Necessary for Safe Operation; Manufactured Home Tires

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of intent to deny petitions for rulemaking; request for comments.

SUMMARY: The FMCSA announces its intent to deny petitions for rulemaking from the Manufactured Housing Institute (MHI) and Multinational Legal Services, PLLC (Multinational) concerning overloading of tires used for the transportation of manufactured homes. Currently, these tires may be loaded up to 18 percent over the load rating marked on the sidewall of the tires, or in the absence of such a marking, 18 percent above the load rating specified in publications of certain organizations specializing in tires. The termination date of the rule allowing 18-percent overloading of these tires was originally set for November 20, 2000, but was delayed until December 31, 2001, to provide the agency time to complete its review of the MHI's petition to allow 18 percent overloading on a permanent basis. The agency has now completed its review of the MHI's data and believes that there should be no further delay in the termination date. The agency has also completed its analysis of Multinational's petition to rescind the final rule which delayed the termination date until December 31, 2001, and determined on a preliminary basis that the petition should be denied. Denial of both petitions would result in transporters of manufactured homes being prohibited from operating such units on overloaded tires on or after January 1, 2002.

DATES: We must receive your comments by May 21, 2001. We will consider comments received after the comment closing date to the extent practicable.

ADDRESSES: You can mail, fax, hand deliver or electronically submit written comments to the U.S. Department of Transportation, Docket Management Facility, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590-0001, FAX (202) 493-2251, on-line at <http://dmsees.dot.gov/submit>. You must include the docket number that appears in the heading of this document in your comment. You can examine and copy all comments at the above address from 9 a.m. to 5 p.m., e.t. Monday through Friday, except Federal holidays. If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

FOR FURTHER INFORMATION CONTACT: Mr. Larry W. Minor, Office of Bus and Truck Standards and Operations, MC-PSV, (202) 366-4009, Federal Motor Carrier Safety Administration, 400 Seventh
