NATIONAL COUNCIL ON DISABILITY

Advisory Committee Meeting/Conference Call

AGENCY: National Council on Disability (NCD).

SUMMARY: This notice sets forth the schedule of the forthcoming meeting/conference call for NCD's advisory committee—International Watch. Notice of this meeting is required under Section 10(a)(1)(2) of the Federal

Advisory Committee Act (Pub. L. 92-463).

International Watch: The purpose of NCD's International Watch is to share information on international disability issues and to advise NCD's Foreign Policy Team on developing policy proposals that will advocate for a foreign policy that is consistent with the values and goals of the Americans with Disabilities Act.

Date and Time: June 21, 2001, 12:00 p.m.–1:00 p.m. EDT.

For International Watch Information, Contact: Kathleen A. Blank, Attorney/Program Specialist, NCD, 1331 F Street NW., Suite 1050, Washington, DC 20004; 202-272-2004 (voice), 202-272-2074 (TTY), 202-272-2022 (fax), kblank@ncd.gov (e-mail).

Agency Mission: NCD is an independent federal agency composed of 15 members appointed by the President of the United States and confirmed by the U.S. Senate. Its overall purpose is to promote policies, programs, practices, and procedures that guarantee equal opportunity for all people with disabilities, regardless of the nature of severity of the disability; and to empower people with disabilities to achieve economic self-sufficiency, independent living, and inclusion and integration into all aspects of society.

This committee is necessary to provide advice and recommendations to NCD on international disability issues.

We currently have balanced membership representing a variety of disabling conditions from across the United States.

Open Meeting/Conference Call: This NCD advisory committee meeting/conference call will be open to the public. However, due to fiscal constraints and staff limitations, a limited number of additional lines will be available. Individuals can also participate in the conference call at the NCD office, which is located at 1331 F Street, NW., Suite 1050, Washington, DC. Those interested in joining this conference call should contact the appropriate staff member listed above.

Records will be kept of all International Watch meetings/conference calls and will be available after the meeting for public inspection at NCD.

Signed in Washington, DC, on April 17, 2001.

Ethel D. Briggs,

Executive Director.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-336]

Northeast Nuclear Energy Company, et al. Millstone Nuclear Power Station, Unit No. 2; Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-65, issued to Northeast Nuclear Energy Company, et al. (the licensee), for operation of the Millstone Nuclear Power Station, Unit No. 2 (MP2), located in New London County, Connecticut.

The proposed amendment would revise the MP2 Final Safety Analysis Report (FSAR), Chapter 14, description of the Steam Generator Tube Rupture (SGTR) event and its associated radiological dose consequences. The changes are not the result of hardware changes to the plant or changes in operating practices. Rather, the changes are the result of incorporating a postulated loss of offsite power into the event analyses as well as revised assumptions and analysis methodology. The proposed FSAR changes show that the postulated dose consequences for the updated SGTR analysis are higher than the dose consequences for the previous analysis.

Specifically, the proposed changes in the assumptions associated with the SGTR analyses will increase the dose consequences for two hypothetical cases: Case 1 involves a spike in the reactor coolant iodine activity level as a result of the SGTR accident; Case 2 involves a pre-accident spike in the iodine activity level. For Case 1, the revised calculations result in the following changes to the postulated accident doses for the Exclusion Area Boundary (EAB), and Low Population Zone (LPZ): EAB thyroid dose increases from .160 REM to 15.4 REM; EAB whole body dose increases from .146 REM to 2.2 REM; LPZ thyroid dose increases from .017 REM to 2.1 REM; and, LPZ whole body dose increases from .045 REM to .3 REM. For Case 2, the postulated doses would change as follows: EAB thyroid dose increases from .813 REM to 27.8 REM; EAB whole body dose increases from .146 REM to .8 REM; LPZ thyroid dose increases from .085 REM to 3.7 REM; and LPZ whole body dose increases from .045 REM to .1 REM.

Before issuance of the proposed license amendment, the Commission

will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By May 21, 2001, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>). If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.
