SUPPLEMENTARY INFORMATION:**Request for Comments**

Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or any other materials to the address listed under **ADDRESSES** in this preamble. Persons submitting comments should include their names and addresses, identify the docket number for this rulemaking, the specific section of the proposal to which their comments apply, and give reasons for each comment. The Coast Guard requests that all comments and attachments be submitted in an unbound format suitable for copying and electronic filing. If not practical, a second copy of any bound materials is requested. Persons wanting acknowledgment of receipt of comments should enclose a

stamped, self-addressed postcard or envelope. The Coast Guard will consider all comments received during the comment period and may change this proposal in view of the comments.

No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid in the rulemaking process. Persons may request a public hearing by writing to the address listed above in **ADDRESSES**. The request should include reasons why a hearing would be beneficial. If it determines that the opportunity for oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

The Coast Guard proposes to modify the security zone, enlarging it by approximately 300 square yards to enclose the mouth of Chollas Creek so that unauthorized vessels or persons cannot transit into Chollas Creek.

The modification and expansion of this security zone is needed to ensure the physical protection of naval vessels moored in the area. The modification and expansion of this security zone will also prevent recreational and commercial craft from interfering with military operations involving all naval vessels home-ported at Naval Base, San Diego and it will protect transiting recreational and commercial vessels, and their respective crews, from the navigational hazards posed by such military operations. In addition, the Navy has been reviewing all aspects of its anti-terrorism and force protection posture in response to the attack on the USS COLE. The modification and expansion of this security zone will safeguard vessels and waterside facilities from destruction, loss, or injury from sabotage or other subversive acts, accidents, or other causes of a similar nature. Entry into, transit through, or anchoring within this security zone is prohibited unless authorized by the Captain of the Port, the Commander, Naval Base San Diego, or the Commanding Officer, Naval Station, San Diego.

Vessels or persons violating this section would be subject to the penalties set forth in 50 U.S.C. 192 and 18 U.S.C. 3571: seizure and forfeiture of the vessel, a monetary penalty of not more than \$250,000, and imprisonment for not more than 10 years.

The U.S. Coast Guard may be assisted in the patrol and enforcement of this security zone by the U.S. Navy.

Regulatory Evaluation

This regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal that a full Regulatory Evaluation under paragraph 10(e) of the regulatory policies and procedures of DOT is unnecessary. This proposal will have minimal additional impact on vessel traffic because it is only a slight modification and expansion of the existing security zone codified at 33 CFR 165.1102.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), the Coast Guard considered whether this proposal would have significant impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities because vessel traffic would be allowed to pass through the zone with the permission of the Captain of the Port.

Collection of Information

This proposed regulation contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501-3520).

Federalism

The Coast Guard has analyzed this proposed regulation under Executive Order 13132 and has determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded mandates Reform Act of 1995 (2 U.S.C. 1531-1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those costs. This proposed

rule would not impose an unfunded mandate.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630 Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets the applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Environment

The Coast Guard has considered the environmental impact of this regulation and concluded that, under Figure 2-1, paragraph (34)(g), of Commandant Instruction M16475.1C, it will have no significant environmental impact and it is categorically excluded from further environmental documentation. A Categorical Exclusion Determination and Environmental Analysis Checklist will be available for inspection and copying in the docket to be maintained at the address listed in **ADDRESSES**.

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g) 6.04-1, 6.04-6, and 160.5; 49 CFR 1.46.

Background and Purpose

The Coast Guard published a NPRM on May 15, 1998 (63 FR 27019). That NPRM proposed to modify the Security Zone adjacent to Naval Air Station North Island, Coronado, California, 33 CFR 165.1105. No comments were received. Publication of the final rule, however, was delayed due to the need for operational reassessment. Due to the length of time since publication of the NPRM, we are publishing a supplemental notice of proposed rulemaking and providing an additional opportunity for comment on this rulemaking. The Coast Guard proposes to modify the security zone, enlarging it to accommodate the home-portioning of a
