

SUMMARY: The following applicants have applied for permits to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

If you wish to comment, you may submit comments by any one of the several methods. You may mail comments to the Service's Regional Office (see **ADDRESSES**). You may also comment via the internet to "victoria_davis@fws.gov". Please submit comments over the internet as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your internet message. If you do not receive a confirmation from the Service that we have received your internet message, contact us directly at either telephone number listed below (see **FURTHER INFORMATION**). Finally, you may hand deliver comments to either Service office listed below (see **ADDRESSES**). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and address, you must state this prominently at the beginning of your comments. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

DATES: Written data or comments on these applications must be received, at the address given below, by May 29, 2001.

ADDRESSES: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (Attn: Victoria Davis, Permit Biologist). Telephone: 404/679-4176; Facsimile: 404/679-7081.

FOR FURTHER INFORMATION CONTACT: Victoria Davis, Telephone: 404/679-4176; Facsimile: 404/679-7081.

SUPPLEMENTARY INFORMATION:
Applicant: Homosassa Springs Wildlife State Park, Tom Linley, Park Manager, Homosassa, Florida TE040783-0

The applicant requests authorization to take (Hold in Captivity) twelve Key deer. *Odocoileus virginianus clavium*, for the purposes of maintaining a captive population to provide a safety net for the wild population if a natural disaster, *i.e.*, catastrophic hurricane, were to occur, and to provide educational opportunities for the general public. *Odocoileus virginianus clavium* will be transferred from the National Key Deer Refuge, Big Pine Key, Monroe County, Florida to the Homosassa Springs Wildlife State Park, Homosassa, Citrus County, Florida.

Applicant: U.S. Forest Service-Savannah River, Donald W. Imm, Acting Assistant Manager Wildlife, Fisheries, and Botany, New Ellenton, South Carolina, TE040792-0.

The applicant requests authorization to take (harass during capturing, banding, releasing, monitoring, and habitat management) the Red-cockaded woodpecker, *Picoides borealis*, for the purposes of managing the populations on the Department of Energy Savannah River Site. The proposed activities will take place in Aiken, Barnwell, and Allendale Counties, South Carolina.

Dated: April 12, 2001.

Sam D. Hamilton,
Regional Director.

Fish and Wildlife Service

Notice of Availability of a Draft Recovery Plan for the Howell's Spectacular Thelypody (*Thelypodium howellii* ssp. *spectabilis*) for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability for public review of a draft recovery plan for the Howell's spectacular thelypody (*Thelypodium howellii* ssp. *spectabilis*). This threatened plant, a member of the mustard family, occurs on fewer than 12 small sites located within 100 acres of private lands near North Powder and

Haines in eastern Oregon (Baker and Union Counties).

DATES: Comments on the draft recovery plan received by June 25, 2001, will be considered by the Service.

ADDRESSES: Copies of the draft recovery plan are available for inspection, by appointment, during normal business hours at the following location: Snake River Basin Office, U.S. Fish and Wildlife Service, 1387 S. Vinnell Way, Suite 368, Boise, Idaho 83709 (phone: 208/378-5243). Requests for copies of the draft recovery plan and written comments and materials regarding this plan should be addressed to Robert Ruesink, Field Supervisor, at the above address.

FOR FURTHER INFORMATION CONTACT: Edna Vizgirdas, Fish and Wildlife Biologist, at the above address.

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the U.S. Fish and Wildlife Service's endangered species program. To help guide the recovery effort, we are working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. We will consider all information presented during the public comment period prior to approval of each new or revised recovery plan. Substantive technical comments will result in changes to the plans. Substantive comments regarding recovery plan implementation may not necessarily result in changes to the recovery plans, but will be forwarded to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions.

The Howell's spectacular thelypody was listed as a threatened species on June 25, 1999. This taxon is endemic to the Baker-Powder River Valley in

eastern Oregon. It is currently found in five populations in Baker and Union Counties, Oregon. It formerly also occurred in the Willow Creek Valley in Malheur County. The species grows in alkaline meadows in valley bottoms, usually in and around shrubs such as greasewood or rabbitbrush. The plants are threatened by habitat modification such as grazing during spring and early summer, trampling, urban development, and competition from non-native plants.

The objective of this plan is to provide a framework for the recovery of the Howell's spectacular thelypody so that protection by the Endangered Species Act is no longer necessary. Recovery is contingent upon protecting and managing the thelypody's habitat to maintain and enhance viable populations of the thelypody.

The Howell's spectacular thelypody will be considered for delisting when: (1) At least five stable or increasing thelypody populations are distributed throughout its extant or historic range and populations must be naturally reproducing with stable or increasing trends for 10 years; (2) all five populations are located on permanently protected sites; (3) management plans have been developed and implemented for each site that specifically provide for the protection of thelypody and its habitat; and (4) a post-delisting monitoring plan is in place that will monitor the status of thelypody for at least 5 years at each site.

Public Comments Solicited

We solicit written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of this plan.

Authority: The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533 (f).

Dated: February 6, 2001.

Rowan W. Gould,

Acting Regional Director, Region 1, Fish and Wildlife Service.

Fish and Wildlife Service

Issuance of Permit for Marine Mammals

On February 8, 2001, a notice was published in the **Federal Register**, Vol. 66, No. 27, Page 9592, that an application had been filed with the Fish and Wildlife Service by Joseph Mirro for a permit (PRT-037832) to import one

polar bear (*Ursus maritimus*) trophy taken from the Western Hudson Bay population, Canada for personal use.

Notice is hereby given that on April 2, 2001, as authorized by the provisions of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*) the Fish and Wildlife Service authorized the requested permit subject to certain conditions set forth therein.

Documents and other information submitted for these applications are available for review by any party who submits a written request to the U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203. Phone (703) 358-2104 or Fax (703) 358-2281.

Dated: March 13, 2001.

Anna Barry,

Senior Permit Biologist, Branch of Permits, Division of Management Authority.

Request for Public Comments on Proposed Information Collection Submitted to OMB for Review Under the Paperwork Reduction Act

A request for the information collection described below has been submitted to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)). Copies of the proposed collection may be obtained by contacting the Bureau's clearance officer at the phone number listed below. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days; therefore, public comments should be submitted to OMB within 30 days in order to assure their maximum consideration. Public comments on the proposal should be made directly to the Desk Officer for the Interior Department, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 and to the Bureau Clearance Officer, U.S. Geological Survey, 807 National Center, Reston, VA 20192.

As required by OMB regulations at 5 CFR 1320.8(d)(1), the U.S. Geological Survey solicits specific public comments as to:

1. Whether the collection of information is necessary for the proper performance of the functions on the

bureaus, including whether the information will have practical utility;

2. The accuracy of the bureau's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

3. The quality, utility, and clarity of the information to be collected; and

4. How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Title: Understanding Visitor Uses, Motives, and Benefits at Sherburne National Wildlife Refuge.

OMB Approval No: New collection.

SUMMARY: Respondents supply information through a mailed survey and onsite interviews on (1) their motivations for visiting Sherburne National Wildlife Refuge; (2) desired experiences and benefits they receive from the Refuge; (3) attitudes and perceptions; and (4) actions and objectives they prefer for Refuge. Information will be used to improve management and operation of Refuge.

Estimated Completion time: 25 minutes.

Estimated Annual Number of Respondents: 1000.

Frequency: Once.

Estimated Annual Burden hours: 416 hours.

Affected Public: Visitors to Sherburne National Wildlife Refuge in the State of Minnesota.

FOR FURTHER INFORMATION CONTACT: To obtain copies of the survey, contact the Bureau clearance officer, U.S. Geological Survey, 807 National Center, 12201 Sunrise Valley Drive, Reston, Virginia, 20192, telephone (703) 648-7313.

Dated: April 10, 2001.

Dennis B. Fenn,

Associate Director for Biology.
