

The mineral interest will be conveyed in whole or in part upon favorable mineral examination.

The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those instances where the reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.

Minerals Reservation—All Minerals

Upon publication of this Notice of Segregation in the **Federal Register** as provided in 43 CFR 2720.1-1(b), the mineral interests owned by the United States in the private lands covered by the application shall be segregated to the extent that they will not be subject to appropriation under the mining and mineral leasing laws. The segregative effect of the application shall terminate upon: issuance of a patent or deed of such mineral interest; upon final rejection of the application; or two years from the date of publication of this notice, whichever occurs first.

Dated: March 28, 2001.

Denise P. Meridith,
State Director.

DEPARTMENT OF THE INTERIOR

National Park Service

Submission of Study Package to Office of Management and Budget; Review Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service; Glacier National Park.

ACTION: Notice and request for comments.

ABSTRACT: In 2001, The National Park Service (NPS) is proposing to conduct a telephone survey of potential visitors to Glacier National Park. For purposes of this study, potential visitors are those that have expressed interest in visiting Glacier National Park by making contact with a state-funded tourism

development office but subsequently did not visit. Survey results will help describe and quantify potential socio-economic impacts of Going-to-the-Sun Road rehabilitation alternatives by providing information regarding behavior of potential visitors if travel on Going-to-the-Sun Road is hampered.

The estimated number of responses is 700. At an average of one or ten minutes per interview, the expected burden is 64 hours.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR part 1320, Reporting and Record Keeping Requirements, the NPS invites public comment on this proposed information collection request (ICR). Comments are invited on: (1) The need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The NPS goal in conducting this survey is to collect information that aids in assessing the potential socio-economic impacts of rehabilitation alternatives for Going-to-the-Sun Road. Direct responses from potential visitors will provide quality information upon which to develop reliable analyses.

There were no public comments received as a result of publishing in the **Federal Register** a 60-day notice of intention to request clearance of information collection for this survey.

DATES: Public comments will be accepted on or before May 29, 2001.

SEND COMMENTS TO: Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for the Interior Department, Office of Management and Budget, Washington, DC 20503.

The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments within thirty days from the date listed at the top of this page in the **Federal Register**.

FOR FURTHER INFORMATION OR A COPY OF THE STUDY PACKAGES SUBMITTED FOR OMB REVIEW, CONTACT: Fred Babb Voice: 406-888-7976; Email: fred_babb@nps.gov

SUPPLEMENTARY INFORMATION:

Title: Survey of Potential Visitors to Glacier National Park.

Bureau Form Number: None.

OMB Number: 1024-new.

Expiration Date: September 30, 2001 (requested).

Type of request: Request for new clearance.

Title: Description of need: The National Park Service needs information to assess the potential socio-economic impacts of rehabilitation alternatives for Going-to-the-Sun Road.

Automated Data Collection: At the present time, there is no automated way to gather this information, since it includes asking potential visitors about their travel plans and preferences if restrictions are imposed on Going-to-the-Sun Road during rehabilitation.

Description of respondents: Respondents are potential visitors to Glacier National Park. These are individuals that made an inquiry to Travel Montana regarding Glacier National Park in the last 12 months prior to the inception of the study but did not visit Glacier National Park. Travel Montana is a state-sponsored tourism development organization.

Estimated average number of respondents: 700.

Estimated average number of responses: Each respondent will respond only one time, so the number of responses will be the same as the number of respondents, 700.

Estimated averaged burden hour per response: 1 minute or 10 minutes.

Frequency of Response: 1 time per respondent.

Estimated annual reporting burden: 64.2 hours.

Dated: April 5, 2001.

Betsy Chittenden,

Information Collection Clearance Officer,
WASO Administrative Program Center,
National Park Service.

DEPARTMENT OF THE INTERIOR

National Park Service

Submission of Study Package to Office of Management and Budget; Review Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service; Glacier National Park.

ACTION: Notice and request for comments.

ABSTRACT: Later in 2001, the National Park Service (NPS) is proposing to conduct a mail-out/mail-back survey of businesses in the Glacier National Park area, which comprises three counties in Montana (Lake, Glacier and Flathead) plus some communities in southwest

Alberta, Canada. Survey results will provide information from business managers about (a) the business' reliance on tourism by season; (b) perceived business impact during rehabilitation of Going-to-the-Sun Road; (c) recommended mitigation strategies, and; (d) the size and ownership of the business. The information will be used to develop the forthcoming socioeconomic impact analysis and mitigation strategies to minimize any potential negative impact during road rehabilitation.

The estimated number of responses is 5,340. At an average of 15 minutes to complete the self-administered survey, the expected burden is 1,335 hours.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR part 1320, Reporting and Record Keeping Requirements, the NPS invites public comment on this proposed information collection request (ICR). Comments are invited on: (1) The need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The NPS goal in conducting this survey is to collect information that aids in assessing the potential socio-economic impacts of rehabilitation alternatives for Going-to-the-Sun Road. Direct responses from local businesses will provide quality information upon which to develop reliable analyses.

There were no public comments received as a result of publishing in the **Federal Register** a 60-day notice of intention to request clearance of information collection for this survey.

DATES: Public comments will be accepted on or before May 29, 2001.

SEND COMMENTS TO: Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for the Interior Department, Office of Management and Budget, Washington, DC 20503.

The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments within thirty days from the date listed at the top of this page in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Title: Survey of Businesses in the Glacier National Park Area.

Bureau Form Number: None.

OMB Number: 1024-new.

Expiration Date: September 30, 2001 (requested).

Type of Request: Request for new clearance.

Description of need: The National Park Service needs information to assess the potential socio-economic impacts of rehabilitation alternatives for Going-to-the-Sun Road.

Automated Data Collection: At the present time, there is no automated way to gather this information, since it includes asking local business managers their judgment about reliance on tourism, perceived business impacts during rehabilitation of Going-to-the-Sun Road, and recommended mitigation strategies.

Description of respondents: Respondents are businesses located in the Glacier National Park area, which includes Flathead, Glacier and Lake Counties in Montana and the communities of Waterton, Cardson, Fort McCloud, and Pincher Creek in Alberta, Canada.

Estimated average number of respondents: 5,340.

Estimated average number of responses: Each respondent will respond only one time, so the number of responses will be the same as the number of respondents, 5,340.

Estimated average burden hour per response: 15 minutes.

Frequency of Response: 1 time per respondent.

Estimated annual reporting burden: 1,335 hours.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Submission of Study Package to Office of Management and Budget: Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service, Acadia National Park.

ACTION: Notice and request for comments.

ABSTRACT: The National Park Service (NPS) in conjunction with the U.S. Navy and the University of Vermont, is proposing in 2001 to conduct a survey of military and civilian employees of the U.S. Navy base located in the Schoodic Peninsula section of Acadia National Park. In the survey, employees will be asked about their recreational use of Acadia National Park and their feelings about how Navy base property should be used if and when it is transferred to the National Park Service.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR part 1320, Reporting and Record Keeping Requirements, the NPS invites public comment on the proposed information request (ICR). Comments are invited on: (1) The need for the information, including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The NPS goal in conducting this survey is to determine the amount and type of recreational use of Acadia National Park by U.S. Navy Base employees, and how these employees feel about potential future uses of Navy Base property if and when this property is transferred to the National Park Service.

There were no public comments received as a result of publishing in the **Federal Register** a 60-day notice of intention to request clearance of information collection for this survey.

DATES: Public comments will be accepted on or before May 29, 2001.

SEND COMMENTS TO: Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for the Interior Department, Office of Management and Budget, Washington, DC 20503.

The OMB has up to 60 days to approve or disapprove the information collection, but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments within 30 days from the date listed at the top of this page of the **Federal Register**.
