Purpose of Meeting: To obtain stakeholder views on how to improve the NRC oversight program for ensuring that fuel cycle licensees and certificate holders maintain protection of worker and public health and safety, protection of the environment, and safeguards for special nuclear material and classified matter in the interest of national security. The oversight program applies to commercial nuclear fuel cycle facilities regulated under 10 CFR parts 40, 70, and 76. The facilities currently include gaseous diffusion plants, highly enriched uranium fuel fabrication facilities, low-enriched uranium fuel fabrication facilities, and a uranium hexafluoride (UF₆) production facility. These facilities possess large quantities of materials that are potentially hazardous (i.e., radioactive, toxic, and/or flammable) to the workers, public, and environment. Also, some of the facilities possess information and material important to national security. In revising the oversight program, the goal is to have an oversight program that: (1) Provides earlier and more objective indications of facility performance in the areas of safety and national security, (2) increases stakeholder confidence in the NRC, and (3) increases regulatory effectiveness, efficiency, and realism. To achieve this goal, the NRC desires the revised oversight program to be more risk-informed and performance-based.

The May 8, 2001 public meeting will focus on the development of a general policy on how the effectiveness of licensee corrective actions will be factored into performance assessments and the NRC's response to licensee performance.

DATES: Members of the public, industry, and other stakeholders are invited to attend and participate in the meeting, which is scheduled for 9 to 10:15 a.m. on Tuesday, May 8, 2001. The meeting will be held in the One White Flint North building in conference room O-4B6.

ADDRESSES: NRC Headquarters, 11555 Rockville Pike, in Rockville, MD. Visitor parking around NRC Headquarters is limited; however, the public meeting site may be reached by taking the Washington DC area metro to White Flint. NRC Headquarters is located across the street from the White Flint metro station.

Information Collection Abstract

Title: Peace Corps Day Brochure Registration Form.

Need for and Use of This Information: This collection of information is necessary because the Peace Corps' Office of Domestic Programs builds

awareness of the continuing benefits that former Volunteers bring back to the United States after their service through its Coverdell World Wise Schools program, the Fellows/USA graduate fellowship program, Returned Volunteers Services, and through Peace Corps Day. For more than 10 years, programs and publications have aimed to harness the cross-cultural experiences of returned Peace Corps Volunteers (RPCVs) to foster better global understanding among Americans, and particularly students, throughout the United States. The information is used by the Office of Domestic Programs to send presentation and educational materials to RPCVs, which enhances the quality of the presentations. Information is also used by Public Affairs Specialists to promote Peace Corps Day regionally, broadly raising awareness for the Peace Corps and augmenting recruiting efforts.
