[Program Announcement 01079]

Cooperative Agreement for the Development of State-Level Surveillance Systems, Enhancement of Epidemiologic Practice, and the Development of Epidemiologic Training Programs for State Health Agencies; Notice of Availability of Funds**A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement for the development of state-level surveillance systems, enhancement of epidemiologic practice, and the development of epidemiologic training programs for state health agencies.

B. Eligible Applicants

Assistance will be provided only to the Council of State and Territorial Epidemiologists (CSTE). No other applications are solicited. Because of the professional appointments and technical expertise with tribal, state, territorial and local health agencies, through its membership, CSTE is uniquely capable of applying epidemiologic principles to disease, environmental, and injury problems at the national, state, and local levels, and when states are directly affected. No other organization has the scientific and technical expertise to carry out this project.

C. Availability of Funds

Approximately \$3,000,000 is available in FY 2001 to fund this award. Funds will be allocated to individually described and budgeted projects or activities which will comprise the overall cooperative agreement. Individual projects are expected to range from \$100,000 to \$625,000. It is expected that the award will be made on or about September 30, 2001, and will be made for a 12 month budget period within a project period of up to five years.

D. Where To Obtain Additional Information

Business management technical assistance may be obtained from: Mattie Jackson, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention 2920 Brandywine Road, Room 3000, Atlanta, GA 30341-4146, Telephone number: 770-488-2696, Email address: mij3@cdc.gov.

Program technical assistance may be obtained from: Maryan D. Reynolds, Public Health Advisor 1600 Clifton Road, Mailstop D-18, Atlanta, GA 30333, Telephone number: 404-639-4240, Email address: mdk0@cdc.gov.

Dated: April 25, 2001.

determine under which conditions Head Start works best and for which children.

The Head Start Impact Study involves ten waves of data collection. The first two waves will occur during the field test in fall 2001 and spring 2002. The field test will involve approximately 600 first time enrolled three- and four-year old preschool children across eight grantee/delegate agencies representing different community contexts. The children participating will be randomly assigned to either a Head Start group (that receives Head Start program services) or a comparison group (that does not receive Head Start services but may enroll in other available services selected by their parents or be cared for at home). Waves three through ten will involve data collection for the full-scale study. The Head Start Impact Study is a longitudinal study that will involve approximately 5,000-6,000 first time enrolled three- and four-year old preschool children across an estimated 75 nationally representative grantee/delegate agencies (in communities where there are more eligible children and families than can be served by the program). Data collection for the full-scale study will begin in fall 2002 and extend through spring 2006 with child assessments, conducted in the fall and spring of the Head Start years and in the spring of the kindergarten and first grade years and parent interviews conducted in the fall and spring of each year. Interviews/surveys with program staff/care providers, and quality of care assessments will be conducted in the spring of each year.

This schedule of data collection is necessitated by the mandate in Head Start's 1998 reauthorization (Coates Human Services Amendments of 1998, PL 05-285) that DHHS conduct research to determine, on a national level, the impact of Head Start on the children it serves.

SUMMARY: The Children's Bureau (CB) within the Administration on Children, Youth and Families (ACYF), Administration for Children and Families (ACF) announces the availability of fiscal year (FY) 2001 funds for competing new Adoption Opportunities Program, Child Abuse and Neglect Discretionary Activities, Abandoned Infants Assistance and projects to build the analytical capacity of state child welfare programs. Funds from the Adoption Opportunities Program are designed to provide support for demonstration projects that facilitate the elimination of barriers to adoption and provide permanent loving homes for children who would benefit from adoption, particularly children with special needs. Discretionary funds from the Promoting Safe and Stable Families Program support research, training and technical assistance and evaluation efforts to preserve families. Funds from the Child Abuse Prevention and Treatment Act support knowledge-building research and service demonstration projects designed to assist and enhance national, State and community efforts to prevent, assess, identify and treat child abuse and neglect. Funds from section 101 of the Abandoned Infants Assistance Act, as amended (42 USC 670 note) are to establish a program of comprehensive service demonstration projects to prevent the abandonment in hospitals of infants and young children, particularly those exposed to a dangerous drug and those with the human immunodeficiency virus or who have been perinatally exposed to the virus.

DATES: The closing time and date for receipt of applications is 4:30 p.m. (Eastern Time Zone) on June 15, 2001.

SUPPLEMENTARY INFORMATION:

Priority Areas

2001A. Adoption Opportunities

2001A.1 Adoptive Placements for Children in Foster Care

Eligible Applicants: Eligibility is limited to State social service agencies. Due to funding limitations and to generate and financially support the broadest range of issues and approaches, priority will be given to applicants who have not been funded under this priority in previous years. However, applicants previously funded under this priority area will not be precluded from receiving grants.

Project Duration: The projects will be awarded for a project period of 36 months. The initial grant award will be for a 12-month budget period. The award of continuation funding beyond each 12-month budget period will be subject to the availability of funds, satisfactory progress on the part of each grantee, and a determination that continued funding would be in the best interest of the government.

Federal Share of Project Costs: The maximum Federal share of the project is \$300,000 per budget period.

Matching or Cost Sharing

Requirement: The grantee must provide at least 10 percent of the total approved cost of the project. The total approved cost is the sum of the Federal share and the non-Federal share. Therefore, a project requesting \$300,000 per budget period must include a match of at least \$33,333 per budget period. The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. If approved for funding, grantees will be held accountable for the commitment of non-Federal resources and failure to provide the required amount will result in a disallowance of unmatched Federal funds.

Anticipated Number of Projects To Be Funded: It is anticipated that three projects will be funded.

2001A.2 Field-Initiated Demonstration Projects Advancing the State of the Art in the Adoption Field

Eligible Applicants: States, local government entities, public and private nonprofit licensed child welfare and adoption agencies, and community-based nonprofit adoption organizations which currently work with children in the public child welfare system, and universities with experience in adoptions. Applicants without direct access or responsibility for the targeted children must apply in partnership with States, local government entities, or
