

OMB Number: 0584–0506.

Expiration Date: July 31, 2001.

Type of Request: Extension of previously approved collection.

Abstract: In December, 2000, FNS announced a program for competitively awarding grants and cooperative agreements for research that will improve the administrative effectiveness of the Food Stamp Program (FSP) in delivering nutrition related benefits (65 FR 81819, December 27, 2000). FNS solicited proposals to that would support research on the effects of community partnerships to reach underserved populations such as working families, children, immigrants, and elderly.

This action described in this Notice is authorized under section 17(a)(1) of the Food Stamp Act of 1977, (7 U.S.C. 2026(a)(1)) with Fiscal Year (FY) 2001 funding set aside for grants projects to educate potentially eligible persons about the nutritional benefits of the FSP. As specified in the Notice, competitive grants would be awarded to non-food stamp governmental authorities such as local school districts, public health clinics, non-profit community based organizations, and institutions of higher education, foundations and other non-profit research institutes. Grantees (winning respondents) may operate their projects for up to two years.

FNS will use the information reported from the grantees to consolidate a report of success stories, and lessons learned from the projects. Moreover, this information will be used to inform FNS about useful strategies that promote access and are successful in increasing participation of eligible persons in the FSP. FNS also intends to share widely with the public so others may replicate effective strategies of public education and outreach.

OMB approval for the collection burden associated with the solicitation for grant proposals was approved on an emergency basis for 6 months. This Notice summarizes the burden estimates that were presented in the emergency approval. This Notice will also provide burden estimates that will continue to apply to the winning grantees for the remaining period in which the projects are in operation. In January, 2001, FNS announced that it was awarding grants to 14 of the responding applicants. Each grantee was awarded no more than \$300,000 for their project.

Respondents: Respondents to the “Request for Applications for Research Grants to Improve FSP Access Through Partnerships and New Technology” are non-food stamp governmental authorities, nonprofit local organizations, institutions of higher

learning, foundations, and other non-profit organizations.

Estimated Number of Responses per Respondent: Under the initial collection burden, FNS estimated that 250 respondents would request and submit an application for the research grants and up to 15 of these respondents would be selected to receive grant funds from FNS. The actual number of applications received by FNS was 108, of which 14 were selected to receive funding.

Estimate of Burden: Under the initial collection burden, FNS estimated that each applicant (respondent) would need 80 hours to complete the application as specified in the Request for Applications. The winning respondents (grantees) would subsequently be required to submit quarterly reports (total of 8) and a draft and final report. The burden estimates for these actions are as follows

- *Submission of Application*—250 respondents times 80 hours equals 20,000 hours.
- *Quarterly Reports*—14 grantees times 8 quarterly reports times 3 hours equals 336 hours.
- *Draft and Final Report*—14 grantees times 2 reports times 60 hours (approximate for each report) equals 1,680 hours.

Estimated Total Annual Burden on Respondents: The total reporting and recordkeeping burden for OMB No. 0584–0506 is estimated to be 22,016 hours for the entire grant period. For the remaining two year period, the total annual burden placed on the 14 grantees is estimated to be 2,016 hours (estimate for quarterly and draft and final report) divided by 2 (time in which grants may be in operation) equals 1,008.

Buick Vegetation Management Environmental Assessment, Deschutes National Forest, Deschutes County, Oregon

AGENCY: Forest Service, USDA.

ACTION: Notice of availability.

SUMMARY: The Environmental Assessment for the Buick Vegetation Management project is available for review and comment. This project analyzes 33,505 acres of National Forest

lands within General Forest, Deer Habitat, Scenic Views and Old Growth Management Area. The objective of the project is to begin the process of creating forest conditions that are resilient and resistant to disturbances, maintain and enhance wildlife habitat, visual integrity, and historic forest characteristics. The project would also amend the boundaries of two Old Growth Areas within the Old Growth Management Area allocation of the Deschutes National Forest Land and Resource Management Plan. The Buick Vegetation Management project area is located about 35 miles south of Bend, Oregon, and 17 miles east of La Pine, Oregon.

The Environmental Assessment is available upon request from the Bend/Ft. Rock Ranger District, 1230 NE Third St., Suite 262–A, Bend, OR, 97701; at the Deschutes National Forest Supervisor’s Office, 1645 Highway 20 East, Bend, Oregon; and at the Deschutes National Forest website at www.fs.fed.us/r6/deschutes.
