

submitted to OMB may be obtained from Mr. Eddins.

SUPPLEMENTARY INFORMATION: This Notice informs the public that the Department of Housing and Urban Development (HUD) has submitted to OMB, for emergency processing, an information collection package with respect to alternatives to the SF 424, Application for Federal Assistance, and directly related forms intended to offer consolidated and streamlined grant application processes in accordance with the provisions of Public Law 106-107, The Federal Financial Assistance Improvement Act of 1999.

This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: HUD Alternative for SF 424 forms, Application for Federal Assistance and attendant forms.

OMB Control Number: 2501-Pending.

Agency Form Numbers: HUD-424, HUD-424-B, HUD-424-C.

Members of Affected Public: State, Local or Tribal Government, Not-for-Profit Institutions.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of responses, and hours of response: An estimation of the total number of hours needed to prepare the forms for each grant application is 1, however, the burden will be assessed against each individual grant program submission under the Paperwork Reduction Act; number of respondents is 9,091; frequency of response is on the occasion of application for benefits.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: May 2, 2001.

Wayne Eddins,

*Departmental Reports Management Officer,
Office of the Chief Information Officer.*

DEPARTMENT OF THE INTERIOR

National Park Service

General Management Plan, Final Environmental Impact Statement, Zion National Park, Utah

AGENCY: National Park Service, Department of the Interior.

ACTION: Availability of final environmental impact statement and general management plan for Zion National Park.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service announces the availability of a Final Environmental Impact Statement and General Management Plan (FEIS/GMP) for Zion National Park, Utah.

DATES: The Draft EIS/GMP was on public review from December 6, 1999 through February 29, 2000. Responses to public comment are addressed in the FEIS/GMP. A 30-day no-action period will follow publication of the Environmental Protection Agency's Notice of Availability of the FEIS/GMP in the **Federal Register**.

ADDRESSES: Copies of the FEIS/GMP are available from the Superintendent, Zion National Park, Springdale, Utah 84767-1099; Telephone (435) 772-0142. Public reading copies of the FEIS/GMP will be available for review at the following locations: Office of the Superintendent, Zion National Park, Springdale, Utah 84767-1099; Telephone (435) 772-0142. Planning and Environmental Quality, Intermountain Support Office—Denver, National Park Service, 12795 W. Alameda Parkway, Lakewood, CO 80228, Telephone: (303) 969-2851.

Office of Public Affairs, National Park Service, Department of the Interior, 18th and C Streets NW., Washington, DC 20240, Telephone: (202) 208-6843.

SUPPLEMENTARY INFORMATION: The FEIS/GMP analyzes four alternatives for managing and using Zion National Park. The plan is intended to provide a foundation to help park managers guide park programs and set priorities for the management of Zion National Park over the next 20 years. The "no-action" alternative is a continuation of the present management course regarding the management of visitor use. The National Park Service's preferred

alternative would emphasize management of resources and visitors, rather than providing new developments, and establishes a zoning framework to proactively address impacts resulting from visitor use. Alternative A would provide opportunities for more widespread and increased use of Zion, while still protecting resources and providing opportunities for a range of visitor experiences. Alternative B would focus on providing increased protection for park resources while still providing opportunities for a range of visitor experiences. All of the action alternatives would limit park visitation in some backcountry areas, recommend adjustments to the park boundary, and recommend five drainages and their tributaries in the park, and six tributaries on Bureau of Land Management lands adjacent to the park, be included in the national wild and scenic rivers system.

The FEIS/GMP in particular evaluates the environmental consequences of the preferred alternative and the other alternatives on natural resources (e.g., air and water quality, North Fork of the Virgin River floodplain, Virgin spinedace, Mexican spotted owl, desert bighorn sheep), natural sounds, the range of visitor experiences and activities, and the socioeconomic environment.

FOR FURTHER INFORMATION CONTACT: Superintendent, Zion National Park, at the above address and telephone number.

Dated: March 9, 2001.

R. Everhart,

Director, Intermountain Region, National Park Service.
