AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of Meeting.

SUMMARY: The Nuclear Regulatory Commission's (NRC's) Office of Nuclear Materials Safety and Safeguards is developing criteria for determining when risk information should be used in the regulation of nuclear waste and materials. The purpose of the case studies is (1) to illustrate what has been done and what could be done in the materials and waste arenas to alter the regulatory approach in a risk-informed manner and (2) to establish a framework for using a risk-informed approach in the materials and waste arenas by testing a set of draft screening criteria, and determining the feasibility of safety goals.

NRC staff is in the initial phase of its case study on uranium recovery facilities. The purpose of this meeting is to (1) communicate to stakeholders the status of this case study, and (2) to solicit recommendations and comments on how NRC should proceed with the case study, apply the draft screening criteria, develop safety goals, and incorporate risk information into its regulatory program. The tentative agenda for the meeting is as follows:

1. Opening remarks.
2. Provide background information on the case study effort.
3. Present status of case study.

Northeast Utilities, et al. (70-9883)

Notice of Proposal To Issue Securities; Order Authorizing Solicitation of Proxies

Northeast Utilities ("NU"), 174 Brush Hill Avenue, West Springfield, Massachusetts 01090-0010, a registered holding company, has filed a declaration under sections 6(a), 7, and 12(e) of the Act and Rules 54, 62, and 65 under the Act.

NU seeks the Commission's approval for: (1) The solicitation of proxies from NU's common shareholders seeking adoption of the Northeast Utilities Employee Share Purchase Plan ("Plan"), which contemplates the issuance of NU's common shares, \$5.00 par value ("Common Shares") and (2) the issuance each year, during the ten year term of the Plan, of NU Common Shares (either authorized, but previously unissued shares or reacquired shares) not to exceed one-half percent (0.5%) of the number of shares outstanding as of the end of the preceding year¹ and derivatives of such shares.

On April 9, 2001, NU's Board of Trustees ("Board") adopted an Employee Share Purchase Plan ("Plan"). This Plan replaces an earlier Employee Share Purchase Plan adopted in 1998 by order of the Commission dated April 29, 1998 (HCAR No. 26865) ("Prior 1998

¹ Based on the number of issued and outstanding Common Shares on December 31, 2000 this restriction will permit 719,181 Common Shares to be issued to fund purchases by Plan participants in 2001 and 7,191,818 Common Shares over the ten year life of the Plan. The issuance each year is subject to appropriate adjustment in the event of recapitalizations, mergers, splits or similar corporate transactions.

Plan"), which NU discontinued in December of 2000 in anticipation of the merger with Consolidated Edison, Inc. The Prior 1998 Plan allowed officers to participate, but only as optional participants, which in effect required that the officers purchase the share at 100% rather than 85% of the market value as of a designated date determined by the Plan's committee. Under the current Plan officers may participate under the same terms as other eligible participants. NU proposes to submit the Plan to its shareholders for approval at NU's Annual Meeting of Shareholders to be held on June 28, 2001. If approved by NU's shareholders, the Plan will be effective as of August 1, 2001. The Plan will terminate ten years from its effective date, unless terminated earlier by the Board.

The Plan will be administered by the Compensation Committee of NU's Board of Trustees or by a delegate ("Committee"). The Plan is intended to be an employee stock purchase plan under Section 423 of the Internal Revenue Code of 1986, as amended. Through programs established by the Committee from time to time eligible employees may purchase newly issued Common Shares through payroll deduction. The purchase price will be determined by the Committee and will be between 85 percent and 100 percent of the lower of closing market value on the first and last days of the purchase period. Shares purchased under the Employee Share Purchase Plan may not be transferred for six months following the purchase date.

Additionally, NU requests authority to solicit proxies approving the Plan from the holders of NU Common Shares, for use at the Annual Meeting of Shareholders to be held June 28, 2001. It is anticipated that solicitation materials will be mailed to shareholders commencing on or about May 11, 2001.

NU proposes to mail the notice of meeting, statement relating to the Plan, proxy statement and proxy to its shareholders for the annual meeting, and has filed its proxy solicitation material relating to the Plan. NU requests that an order authorizing the solicitation of proxies be issued as soon as practicable under rule 62(d). It appears to the Commission that NU's declaration as it pertains to the proposed solicitation of proxies should be permitted to become effective immediately under rule 62(d).

Rule 54 states that the Commission will not consider the effect of the capitalization or earnings of any subsidiary which is an exempt wholesale generator ("EWG") or foreign utility company ("FUCO") upon the
