**Environmental Impact Statement:
Wythe County, VA**

AGENCY: Federal Highway Administration, DOT.

ACTION: Notice of intent.

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public of its intent to prepare an Environmental Impact Statement in cooperation with the Virginia Department of Transportation (VDOT) for the I-77/I-81 Improvement Project in Wythe County to address safety and capacity issues.

FOR FURTHER INFORMATION CONTACT: John Simkins, Environmental Protection Specialist, Federal Highway Administration, Post Office Box 10249, Richmond, Virginia 23240-0249, Telephone 804-775-3342.

SUPPLEMENTARY INFORMATION: The Federal Highway Administration (FHWA), in cooperation with the Virginia Department of Transportation (VDOT), will prepare an environmental impact statement (EIS) for the I-77/I-81 Improvement Project in Wythe County. Interstates 77 and 81 currently share a common corridor for approximately nine miles from immediately east of Fort Chiswell to the Town of Wytheville. The study area's limits begin just west of I-81 exit 70 and extend east for a distance of approximately 15 miles, ending west of the I-81 exit 84. The study window's southern limits begin along I-77,

approximately three miles south of the I-77/I-81 interchange. The northern limits are located near Cove Mountain, north of the I-77/I-81 separation in Wytheville.

Recognizing that the National Environmental Policy Act (NEPA) process requires the consideration of a reasonable range of alternatives that will address the purpose and need, the EIS will include a range of alternatives for study consisting of a no-build alternative as well as alternatives consisting of transportation system management strategies, mass transit, improvements to existing roadways, and/or new alignment facilities. These alternatives will be developed, screened, and carried forward for analysis in the draft EIS based on their ability to address the purpose and need that will be developed while avoiding known and sensitive resources.

The scoping process is currently underway. Scoping letters describing the proposed study and soliciting input are being sent to the appropriate Federal, State and local agencies who have expressed or are known to have an interest or legal role in this proposal. Private organizations, citizens, and interest groups also will have an opportunity to provide input into the development of the EIS and identify issues that should be addressed. No formal scoping meeting is planned at this time.

A series of public informational meetings and a public hearing will be held. Notices of public meetings or public hearings will be given through various forums providing the time and place of the meeting along with other relevant information. The draft EIS will be available for public and agency review and comment prior to the public hearing.

To ensure that the full range of issues related to this proposed action are identified and taken into account, comments and input are invited from all interested parties. Comments and questions concerning the proposed action and draft EIS should be directed to FHWA at the address provided above.

Authority: 23 U.S.C. 315; 49 CFR 1.48

Issued on: May 3, 2001.

Environmental Protection Specialist.

National Highway Traffic Safety Administration

Annual List of Defect and Noncompliance Decisions Affecting Nonconforming Imported Vehicles

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Annual list of defect and noncompliance decisions affecting nonconforming imported vehicles.

SUMMARY: This document contains a list of vehicles recalled by their manufacturers during Calendar Year 2000 (January 1, 2000 through December 31, 2000) to correct a safety-related defect or a noncompliance with an applicable Federal motor vehicle safety standard (FMVSS). The listed vehicles are those that have been decided by NHTSA to be substantially similar to vehicles imported into the United States that were not originally manufactured to conform to all applicable FMVSS. The registered importers of those nonconforming vehicles are obligated to provide their owners with notification of, and a remedy for, the defects or noncompliances for which the listed vehicles were recalled.

FOR FURTHER INFORMATION CONTACT: George Entwistle, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

SUPPLEMENTARY INFORMATION: Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards (FMVSS) shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle of the same model year that was originally

manufactured for importation into and sale in the United States and certified under 49 U.S.C. 30115. Once NHTSA decides that a nonconforming vehicle is eligible for importation, it may be imported by a person who is registered with the agency pursuant to 49 U.S.C. 30141(c). Before releasing the vehicle for use on public streets, roads, or highways, the registered importer must certify to NHTSA, pursuant to 49 U.S.C. 30146(a), that the vehicle has been brought into conformity with all applicable FMVSS.

If a vehicle originally manufactured for importation into and sale in the United States is decided to contain a defect related to motor vehicle safety, or not to comply with an applicable FMVSS, 49 U.S.C. 30147(a)(1)(A) provides that the same defect or

noncompliance is deemed to exist in any nonconforming vehicle that NHTSA has decided to be substantially similar and for which a registered importer has submitted a certificate of conformity to the agency. Under 49 U.S.C. 30147(a)(1)(B), the registered importer is deemed to be the nonconforming vehicle's manufacturer for the purpose of providing notification of, and a remedy for, the defect or noncompliance.

To apprise registered importers of the vehicles for which they must conduct a notification and remedy (i.e., "recall") campaign, 49 U.S.C. 30147(a)(2) requires NHTSA to publish in the **Federal Register** notice of any defect or noncompliance decision that is made with respect to substantially similar U.S. certified vehicles. Annex A

contains a list of all such decisions that were made during Calendar Year 2000. The list identifies the Recall Number that was assigned to the recall by NHTSA after the agency received the manufacturer's notification of the defect or noncompliance under 49 CFR Part 573. After December 31, 2001, NHTSA will publish a comparable list of all defect and noncompliance decisions affecting nonconforming imported vehicles that are made during the current calendar year.

Authority: 49 U.S.C. 30147(a)(2); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: May 7, 2001.

Marilynne Jacobs,

Director Office of Vehicle Safety, Compliance.

SUPPLEMENTARY INFORMATION: Federal Motor Vehicle Safety Standard 202 has required head restraints in front outboard positions for all cars manufactured January 1, 1969 and later, for sale in the United States. The National Highway Traffic Safety Administration extended the standard to include light trucks (pickup trucks, vans, and sport utility vehicles with Gross Vehicle Weight Rating less than 10,000 pounds) as of September 1, 1991.

NHTSA's 1982 evaluation of head restraints in passenger cars estimated a 13 percent overall reduction in injuries to drivers in rear impacts. The current evaluation, based on data from eight states (Florida, Indiana, Maryland, Missouri, North Carolina, Pennsylvania, Texas, and Utah) estimates that head restraints reduced overall injury risk in light trucks in rear impacts by a statistically significant 6 percent.

How Can I Influence NHTSA's Thinking on This Evaluation?

NHTSA welcomes public review of the technical report and invites reviewers to submit comments about the data and the statistical methods used in the analyses. NHTSA will submit to the Docket a response to the comments and, if appropriate, additional analyses that supplement or revise the technical report.
