

Columbia states that it is proposing to establish Rate Schedule FTS-LAT to provide for firm transportation service on lateral facilities newly constructed for the benefit of a customer or customers. The rate schedule and tariff sheets being filed establish a tariff framework that will enable Columbia to construct and provide transportation service on discrete lateral facilities at incremental rates as requested by customers. The incremental rates for transportation service on a discrete lateral facilities when constructed will be filed and administered under the rate schedule framework proposed herein, including for Columbia's proposed Marcus Hook Lateral in a related certificate filing. Service on the new incrementally priced lateral facilities under Rate Schedule FTS-LAT will not include service under existing Columbia transportation rate schedules. Rate Schedule FTS-LAT is closely modeled after a similar lateral-only type service previously authorized by the Commission.

Columbia is also making conforming changes to its tariff to reflect the addition of this new rate schedule in its tariff.

Columbia states that copies of this filing have been mailed to all firm customers, interruptible customers, and affected state commissions.
