DATES: Written comments will be accepted through July 5, 2001.

FOR FURTHER INFORMATION CONTACT: Tom Phillips, Team Leader, at (505) 525-4377 or Amy Lueders, Field Manager at (505) 525-4300.

SUPPLEMENTARY INFORMATION: In 1999 Congress passed the Military Lands Withdrawal Act (PL 106-65) which withdrew large tracts of public land for military purposes. PL 106-65 included the withdrawal of approximately 608,000 acres on McGregor Range in Southern New Mexico. The legislation directed the Secretary of the Interior to manage the natural resources on McGregor Range under FLPMA and to develop a management plan within two years of the law's enactment. The planning area will include withdrawn public land on McGregor Range in Otero County, encompassing approximately 608,000 acres administered by BLM. The BLM, will work in concert with the U.S. Army, Ft. Bliss, which will participate as a cooperating agency for the development of the RMPA/EIS.

It is anticipated that the RMPA/EIS process will require 18 months to complete and will include public and agency scoping, coordination and consultation with Federal, State, tribal, and local agencies, public review and public hearings on the published draft RMPA/draft EIS, a published proposed RMPA/final EIS, published Record of Decision, and Plan Amendment.

Publication of the Record of Decision is anticipated in November, 2002.

The BLM Interdisciplinary team that will be developing this RMPA/EIS will include specialists with expertise in: soils, geology, vegetation, wildlife, livestock grazing, recreation, cultural/paleontology, and fire ecology.

BLM public information and scoping will include notification to the public and Federal, state, tribal, and local agencies of the proposed action; identification by the public of the range of issues and concerns to be considered in the EIS; development of planning criteria; and the solicitation of assistance from the public to identify reasonable alternatives. In addition, the public will have the opportunity to ask questions regarding the proposed project at scheduled public scoping meetings (see SUMMARY section of this notice).

Written comments should address: (1) Issues to be considered, (2) if the planning criteria are adequate for the issues, (3) feasible and reasonable alternatives to examine, and (4) relevant information having a bearing on the RMPA/EIS. BLM will maintain a mailing list of parties and persons interested in being kept informed about the progress of the RMPA/EIS. Documents relevant to this planning effort will be available for public review at the BLM Las Cruces Field Office located at 1800 Marquess, Las Cruces, New Mexico.

A range of reasonable alternatives, including an alternative considering no action as required by NEPA, will be developed and analyzed in the EIS. Through scoping, the public will assist in developing alternatives. The results of scoping will be sent to all those on the mailing list for this project in a newsletter or scoping report. Following an in-depth analysis of the impacts associated with the alternatives analyzed, one alternative will be selected as the agency-preferred alternative. The agency-preferred alternative will be identified in a draft RMPA/draft EIS scheduled to be released in the fall of 2001. Once the draft is released additional public review will be announced through the media and a **Federal Register** notice.

Anticipated Issues and Concerns

The anticipated Issues/Concerns include the following:

1. *Soil and Water:* Stream Channel Conditions; Water Quality; Water Quantity/Supply.
2. *Vegetation:* Management of Grassland Habitat; Noxious/Invasive Weeds.
