

People 2010" focus area of Immunization and Infectious Diseases.

The purpose of the program is to build an integrated data management system that will allow the sharing of core data elements needed by the state to effectively fulfill their responsibilities for the surveillance and reporting of communicable diseases.

B. Eligible Applicants

Assistance will be provided only to the State of Delaware, Department of Health and Social Services, Public Health Disease Surveillance Initiative. No other applications are solicited. Eligibility is limited to the Delaware Department of Health and Social Services because fiscal year 2001 Federal appropriations specially directs the Centers for Disease Control and Prevention (CDC) to award to the Department of Health funds to build an integrated disease surveillance system.

Note: Title 2 of the United States Code, Chapter 26, Section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan or other form.

C. Availability of Funds

Approximately \$1,843,000 is available in FY 2001 to fund the award. It is expected that the award will begin on or about July 15, 2001, and will be made for a 12-month budget period within a project period of one year.

Network-Based Surveillance System Initiative; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a one-year grant program for the University of New Mexico in Albuquerque, Emerging Infectious Disease Center. This program addresses the "Healthy People 2010" focus area of Immunization and Infectious Diseases.

The purpose of the program is to build a center that will allow the unique interdisciplinary expertise of multiple institutions, as well as national laboratories, be applied to epidemics and other instances of emerging infectious diseases. The intent of a center is to develop a network-based surveillance system to understand, detect, intervene and prevent emerging epidemics by working at the intersection of public health.

B. Eligible Applicants

Assistance will be provided only to the University of Mexico in Albuquerque. No other applications are solicited. Eligibility is limited to the University of New Mexico because fiscal year 2001 Federal appropriations specifically directs the Centers for Disease Control and Prevention (CDC) to award this University funds to develop a network-based surveillance system.

Note: Title 2 of the United States Code, Chapter 26, Section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan or other form.

C. Availability of Funds

Approximately \$921,000 is available in FY 2001 to fund the award. It is expected that the award will begin on or about July 15, 2001, and will be made for a 12-month budget period within a project period of one year.
