Opportunities On-Line (COOL) is a web-based software system that automates the vacancy announcement, application intake, application evaluation, and application referral processes, for positions in the Department of Commerce (DOC).

COOL will provide the DOC with a more user-friendly on-line employment application process and enable the DOC to process hiring actions in a more efficient and timely manner. The on-line application will provide an electronic real time candidate list that will allow the DOC to review applications from applicants almost instantaneously. Given the immediate hiring needs of the

DOC, time consumed in the mail distribution system or paper review of applications delays the decision-making process by several weeks. The implementation of the COOL electronic application will result in increased speed and accuracy in the employment process. It will also streamline labor and reduce costs.
