

Craigville Beach Road. The proposed NDA encompasses approximately 2,150 surface acres in the Southwest corner in the Town of Barnstable. The area is roughly bounded by: 41°36'40.0" N by 70°26'41.1" W, 41°37'26.9" N by 70°19'05.4" W, 41°38'19.8" N by 70°19'21.9" W, and 41° 39'03.2" N—70°24'53.8" W.

The State of Massachusetts has certified that there will be two pump-out facilities located within the proposed area to service vessels in the Three Bay/Centerville Harbor Area. The first, is a pump-out boat operated by the Harbormasters Office, and docked at the Oyster Harbor Marine when not in use. The boat has a holding capacity of 300 gallons. The pump-out boat is available Wednesday through Sunday from 0930 to 1630 (9:30 a.m.—4:30 p.m.) from Memorial Day to Thanksgiving. The pump-out boat is accessible by VHF marine radio via Channel 9 and by calling the Marine and Environmental Affairs Division (MEAD) in Barnstable at (508) 790-6273. The second pump-out facility is a self service trailer unit and located at the Oyster Harbor Marine, with a holding capacity of 250 gallons, and provides access for vessels up to 50 feet in length and a draft of 4 feet at mean low water. This facility is available daily from June 15 through September 15 from approximately 0800 to 1700 (8 a.m. to 5 p.m.). During the early spring and late fall this facility is available by contacting the Harbormaster Office by phone at (508) 790-6273.

The town of Barnstable maintains public facilities at four locations, Loops Beach, Craigville Beach, Covells Beach and Dowse's Beach, and are seasonal. In addition the three marinas located within the proposed NDA provide on-shore toilet facilities for marina patrons and their guests.

The waste from the pump-out boat is off loaded to the trailer unit and then transported to the Barnstable Water Pollution Control Facility. The Barnstable Board of Health issues a waste permit for this disposal.

The number of mooring permits indicate that 1,667 vessels reside within the Three Bay/Centerville Harbor Area and 1584 are identified as recreational and 83 are commercial vessels. The Three Bay/Centerville Harbor Area is primarily a "parking lot" harbor and 70% of the vessel population is under 25 feet in length, and therefore do not have any type of Marine Sanitation Device (MSD). There are a number of locations in the Three Bay/Centerville Harbor Area with public launching ramps, however, the size and condition of the ramps and the depth of the water

generally limit use to vessels 25 feet and under. In addition to the vessels that reside in the Three Bay/Centerville Harbor Area, there is a transient population estimated at 110 vessels which have MSDs.

The resources of the Three Bay/Centerville Harbor Area are recreational and commercial. There are four public beaches, the Dead Neck Audubon Bird/Wildlife Refuge, and town conservation lands located within the proposed No Discharge Area. The area is also used by both recreational and commercial shell fishermen for the harvest of quahogs, and soft-shell clams.

Comments and reviews regarding this request for action may be filed on or before June 22, 2001. Such communications, or requests for information or a copy of the applicant's petition, should be addressed to Ann Rodney, U.S. Environmental Protection Agency—New England Region, 1 Congress Street, Suite 1100, CWQ, Boston, MA 02114-2023. Telephone: (617) 918-1538.

Ira Leighton,

Acting Regional Administrator, Region 1.

Notice of Availability for Public Review and Comment of the Continuing Planning Process (CPP) for the State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability for public review and comment of the continuing planning process (CPP) for the State of Missouri.

SUMMARY: The Clean Water Act (the Act) at section 303(e) and EPA's implementing regulation at 40 CFR 130.5, require that each State shall establish and maintain a continuing planning process (CPP) consistent with the Act. Each State is responsible for managing its water quality program to implement the processes specified in the CPP, and EPA is responsible for periodically reviewing the adequacy of the State's CPP. This document is being published in accordance with paragraph 3 of the settlement agreement in the matter of American Canoe Association, *et al.*, v. EPA, No. 98-1195-CV-W-SOW-ECF Cons. with 98-4282-CV-W-SOW-ECF. Consistent with the settlement agreement, EPA is publishing

this notice of availability of the CPP to interested parties. The current CPP in force for the Missouri Department of Natural Resources (MDNR) is the 58 page document entitled Continuing Planning Process dated May 1984. By November 27, 2001 EPA will prepare a preliminary written summary of its review of the CPP and will make that summary available upon request to interested parties for their review and comment. There will be a 60 day comment period following the completed summary. Copies of the CPP will be available beginning May 28, 2001 by contacting the person listed in the following **FOR FURTHER INFORMATION CONTACT** section. Once available, copies of EPA's preliminary written summary may also be requested.

Footnote—The Missouri Department of Natural Resources (MDNR) has acknowledged that the 1984 CPP needs updating. The MDNR 2000 Water Planning 604(b) grant contains a workplan element that calls for the review and revision of the current CPP, with a preliminary draft scheduled for May, 2001 and a final draft tentatively scheduled for submission to the Missouri Clean Water Commission in late 2001. This process is underway. When an official draft is made available by MDNR for public review, this office will likewise make it available for public review. EPA intends to review and comment on the draft.

FOR FURTHER INFORMATION CONTACT: Robert Steiert, Water, Wetlands and Pesticide Division, Geographic Planning and Coordination Branch at (913) 551-7433 or by E-mail at steiert.robert@epa.gov .

Dated: May 16, 2001,

Nat Scurry,

Acting Deputy Regional Administrator, Region VII.
