

Management Division, 4015 Wilson Boulevard, Room 709A, 4015, Arlington, VA 22203-1984. Commenters are encouraged to send their comments on a computer disk, or via Internet E-mail to bteaster@msha.gov, along with an original printed copy. Ms. Teaster can be reached at (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

FOR FURTHER INFORMATION CONTACT: Brenda C. Teaster, Acting Chief, Records Management Division, U.S. Department of Labor, Mine Safety and Health Administration, Room 709A, 4015 Wilson Boulevard, Arlington, VA 22203-1984. Ms. Teaster can be reached at bteaster@msha.gov (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Title 30, CFR 57.11053 requires the development of an escape and evacuation plan specifically addressing the unique conditions of each underground metal and nonmetal mine. Section 57.11053 also requires that revisions be made as mining progresses. The plan must be available to the inspector and conspicuously posted for the benefit of affected miners. The plan is required to be reviewed jointly by the operator and MSHA once every 6 months.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Escape and Evacuation Plan. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - Enhance the quality, utility, and clarity of the information to be collected; and
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request may be viewed on the Internet by accessing the MSHA Home Page (<http://www.msha.gov>) and selecting "Statutory and Regulatory Information" then "Paperwork Reduction Act Submissions (<http://www.msha.gov/regspwork.htm>)", or by contacting the employee listed above in the **FOR FURTHER INFORMATION CONTACT** section of this notice for a hard copy.

III. Current Actions

An accurate, up-to-date plan is vital to the safety of the miners and rescue personnel in the event of an emergency. The plans are monitored by MSHA to ensure that plans are updated as mining progresses and that the escape routes are still effective.

Type of Review: Extension.
Agency: Mine Safety and Health Administration.
Title: Escape and Evacuation Plan.
OMB Number: 1219-0046.
Affected Public: Business or other for-profit institutions.
Frequency: On occasion.
Cite/Reference/Form/etc: 30 CFR 57.11053.

Total Respondents: 284.
Total Responses: 568.
Average Time per Response: 8 hours.
Estimated Total Burden Hours: 4,544 hours.

Total Annualized Capital/Startup Costs: \$0.
Total Operating and Maintenance Costs: \$1,704.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: May 23, 2001.
Brenda C. Teaster,
Acting Chief, Records Management Division.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. ICR-1218-0186(2001)]

Cadmium in Construction Standard (29 CFR 1926.1127); Extension of the Office of Management and Budget's (OMB) Approval of the Information-Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of an opportunity for public comment.

SUMMARY: OSHA solicits comments concerning its request to increase the existing burden-hour estimates for, and to extend OMB approval of, the collection-of-information requirements of the Cadmium in Construction Standard (29 CFR 1926.1127).

DATES: Submit written comments on or before July 31, 2001.

ADDRESSES: Submit written comments to the Docket Office, Docket No. ICR-1218-0186(2001), OSHA, U.S. Department of Labor, Room N-2625, 200 Constitutional Avenue, NW., Washington, DC 20210; telephone (202) 693-2350. Commenters may transmit written comments of 10 pages or less by facsimile to (202) 693-1648.

FOR FURTHER INFORMATION CONTACT: Todd Owen, Directorate of Policy, OSHA, U.S. Department of Labor, Room N-3641, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2444. A copy of the Agency's Information-Collection Request (ICR) supporting the need for the information collections specified in the Cadmium in Construction Standard is available for inspection and copying in the Docket Office or by requesting a copy from Todd Owen at (202) 693-2444. For electronic copies of the ICR contact OSHA on the Internet at <http://www.osha.gov/comp-links.html>, and select "Information Collection Requests."

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information-collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and cost) is minimal, collection instruments are understandable, and OSHA's estimate of the information-collection burden is correct. The Occupational Safety and Health Act of the 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The information-collection requirements specified in the Cadmium in Construction Standard (§ 1926.1127) protect employees from the adverse health effects that may result from

occupational exposure to cadmium. The major information-collection requirements in § 1926.1127 include conducting employee exposure monitoring, notifying employees of their cadmium exposures, implementing a written compliance program, implementing a written emergency plan for managing inadvertent and substantial releases of airborne cadmium, implementing medical surveillance of employees, providing examining physicians with specific information, ensuring that employees receive a copy of their medical-surveillance results, maintaining employees' exposure-monitoring and medical records for specific periods, and providing access to these records by OSHA, the National Institute for Occupational Safety and Health, the affected employees, and their authorized representatives.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information-collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and cost) of the information-collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information-collection and -transmission techniques.

III. Proposed Actions

OSHA is requesting to increase the existing burden-hour estimate for, and to extend OMB approval of, the collection-of-information requirements specified in § 1926.1127. In this regard, the Agency is requesting to increase the current burden-hour estimate from 36,388 hours to 36,631 hours, a total increase of 243 hours. This increase results mainly from reestimating the burden hours required for employers to determine if cadmium is present in the workplace and, if so, whether employee exposure above the action level is possible. OSHA will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of this information-collection requirements.

Type of Review: Extension of currently approved information-collection requirements.

Title: Cadmium in Construction.

OMB Number: 1218-0186.

Affected Public: Business or other for-profit; not-for-profit institutions; Federal government; State, local or tribal governments.

Number of Respondents: 10,000.

Frequency of Response: Occasionally.

Average Time per Response: From 5 minutes (.08 hour) to maintain an employee's medical or exposure record to 1.5 hours to administer an employee medical examination.

Estimated Total Burden Hours: 36,631 hours.

Estimated Cost (Operation and Maintenance): \$2,232,500.

IV. Authority and Signature

R. Davis Layne, Acting Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506), Secretary of Labor's Order No. 3-2000 (65 FR 50017).

Signed at Washington, DC on May 29, 2001.

R. Davis Layne,

Acting Assistant Secretary of Labor.

BILLING CODE 4510-26-M

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities; Proposed Collection; Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: Under the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501 et seq.), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 66 FR 2943 and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Comments regarding these information collections are best assured of having their full effect if received by OMB within 30 days of publication in the **Federal Register**.

ADDRESSES: Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street, NW., Room 10235, Washington, DC 20503, and to Anita Eisenstadt, Assistant General Counsel, through surface mail (National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230); email (aeisenst@nsf.gov) or fax (703-292-9041). Copies of the submission(s) may be obtained by calling 703-292-8060.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT: Call or write Anita Eisenstadt, Assistant General Counsel, at the National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230; call (703) 292-8060, or send email to aeisenst@nsf.gov.

SUPPLEMENTARY INFORMATION:

Title of Collection: Antarctic emergency response plan and environmental protection information.

Abstract: The NSF, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 et seq.) ("ACA") regulates certain non-governmental activities in Antarctica. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act. On June 4, 1998, NSF published a proposed rule in the **Federal Register** (63 FR 30438) to implement certain of these statutory amendments. The proposed rule would require non-governmental Antarctic expeditions using non-U.S. flagged vessels to ensure that the vessel owner has an emergency response plan. The
