Office of Justice Programs

[OJP (BJS)-1316]

Continuation of Federal Justice Statistics Program

AGENCY: Bureau of Justice Statistics, Office of Justice Programs, Justice.

ACTION: Solicitation for award of cooperative agreement.

SUMMARY: The purpose of this notice is to announce a public solicitation for the

continuation of the Bureau of Justice Statistics' (BJS) Federal Justice Statistics Program (FJSP). The FJSP serves as the national resource for data describing the processing of criminal cases in the Federal criminal justice system. Under this program, data generated by Federal criminal justice agencies are collected, maintained, analyzed, and archived. Data are also linked across agencies to permit more complex analyses of Federal criminal justice issues. Regular annual reports and special topical reports are prepared that describe the Federal criminal justice system, Federal defendants and offenses, and other special issues of interest. In addition, special tabulations are prepared, pursuant to BJS direction, in response to requests from government officials. The project to be funded under the proposed cooperative agreement will continue the program's current activities.

DATES: Proposals must be postmarked on, or before, July 20, 2001. Awards will be made by September 30, 2001. Project activities will commence on October 1, 2001.

ADDRESSES: Proposals should be mailed to: Applications Coordinator, Bureau of Justice Statistics, 810 7th Street, NW, Washington, DC 20531.

FOR FURTHER INFORMATION CONTACT: John Scalia, Program Manager, Federal Justice Statistics Program, Bureau of Justice Statistics. Phone: (202) 616-3276. E-mail: John.Scalia@usdoj.gov.

SUPPLEMENTARY INFORMATION:

Background

The Bureau of Justice Statistics Federal Justice Statistics Program (FJSP) was initiated in 1982 to serve as a central resource for information describing the processing of Federal criminal defendants and characteristics of those defendants. The program collects data from different components of the Federal criminal justice system and tracks the progress of suspects from investigation through prosecution, adjudication, sentencing, and corrections. The program represents the primary BJS effort describing the Federal criminal justice system and responds directly to the legislative authorization that BJS "collect, analyze, and disseminate comprehensive Federal justice transaction statistics (including statistics on issues of Federal justice interest such as public fraud and high technology crime)" as set forth in 42 U.S.C. 3732(c)(15).

In keeping with the original program plan which was designed to minimize data collection costs, no original data collection is supported under this program. Data are obtained from

operational Federal agencies including the U.S. Marshals Service, the Drug Enforcement Administration, the Federal Bureau of Investigation, the Executive Office for the United States Attorneys, the Administrative Office of the United States Courts, the Bureau of Prisons, and the United States Sentencing Commission. In order to trace the flow of cases from one stage to another and to supplement any individual agency's data, computer matching techniques have been developed that permit the linking of data obtained from different sources. The linking of these data permit more complex and detailed analysis of particular issues.

Throughout the history of the FJSP, a regular series of reports has been produced. These reports include the annual *Compendium of Federal Justice Statistics* (available on the Internet at <http://www.ojp.usdoj.gov/bjs/abstract/cfjs99.htm>) which describes, in detail, offenders processed at each stage of the Federal criminal justice system for a particular year, the annual *Federal Criminal Case Processing report* (available on the Internet at <http://www.ojp.usdoj.gov/bjs/abstract/fccp99.htm>) which present key statistics for the reporting year and trend for the past several years, and a series of Special Reports addressing specific aspects of the Federal criminal justice system, specific offenses, or other special issues of interest. Recent Special Reports include: Federal Criminal Appeals, 1999, with trends 1985-99 (available on the Internet at <http://www.ojp.usdoj.gov/bjs/fca99.htm>), Offenders Returning to Federal Prison, 1986-97 (available on the Internet at <http://www.ojp.usdoj.gov/bjs/abstract/orfp97.htm>), and Federal Firearm Offenders, 1992-98 (available on the Internet at <http://www.ojp.usdoj.gov/bjs/abstract/ffo98.htm>). In addition, the program serves as the primary source of information for other BJS statistical series that describe individuals in the Federal criminal justice system; program staff have also responded to ad hoc BJS requests for specific data tabulations and analyses from public officials and private citizens.

Objectives

The purpose of this award is to support the continuation of the Federal Justice Statistics Program. The recipient of funds will serve as the Federal Justice Statistics Resource Center whereby the recipient will continue to collect, maintain, and archive data from Federal justice agencies, produce annual reports (the *Compendium of Federal Justice Statistics* and *Federal Criminal Case*
