

interest calculated in accordance with the Commission's regulations.

Copies of the filing were served upon the California Independent System Operator Corporation, the California Public Utilities Commission and all parties to Cities of Anaheim, Azusa, Banning, Colton and Riverside, California v. California Independent System Operator Corporation, Docket No. EL00-111-000, where similar issues concerning the CAISO's neutrality adjustment charges were raised.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests must be filed on or before June 21, 2001. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222) for assistance. Answers to the complaint shall also be due on or before June 21, 2001. Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

David P. Boergers,
Secretary.

[Project No. 2232-413 South Carolina]

Duke Energy Corporation; Notice of Availability of Environmental Assessment

June 4, 2001.

An environmental assessment (EA) is available for public review. The EA analyzes the environmental impacts of Duke Energy Corporation's (Duke) application to grant a non-project use of project land to City of York (York) to install a pipeline and intake, for raw

water withdrawal, in Lake Wylie, a reservoir for the Catawba-Wataree Hydroelectric Project. Duke's proposed grant would also allow York to withdraw up to 6 million gallons of water per day from Lake Wylie. The Catawba-Wataree Project is on the Catawba River in Lancaster, York, and Fairfield Counties, South Carolina, and Gaston, Lincoln, and Burke Counties, North Carolina.

The EA was written by staff in the Office of Energy Projects, Federal Energy Regulatory Commission. In the EA, Commission staff conclude that approving Duke's application to grant the use would not constitute a major federal action significantly affecting the quality of the human environment. Copies of the EA can be viewed on the web at www.ferc.fed.us/online/rims.htm. Call (202) 208-2222 for assistance. Copies are also available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington DC 20426, or by calling (202) 208-1371.

[Project No. 2114-091 Washington]

Public Utility District No. 2 of Grant County Washington; Notice of Availability of Environmental Assessment

June 4, 2001.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47910), the Office of Energy Projects has reviewed Public Utility District No. 2 of Grant County's application for an amendment to temporarily waive for the current year the spill flow requirements applicable to its Priest Rapids Project, located on the Columbia River in Grant, Yakima, Kittitas, Douglas, Benton and Chelan Counties, Washington and has prepared an Environmental Assessment (EA). The project occupies 3,051.92 acres of federal lands administered by the Bureau of Land Management Department of Energy, Department of Army, Bureau of Reclamation, and the U.S. Fish and Wildlife Service.

The EA contains the staff's analysis of the potential environmental impacts of the proposed amendment and alternatives developed by staff and concludes that approval of the staff recommended alternative would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA is attached to a Commission order issued on June 1, 2001 for the above application. Copies of the EA are available for review at the Commission's Public Reference Room, located at 888 First Street, NE., Washington, DC 20426, or by calling (202) 208-1371. The EA may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance).

For further information, contact Charles Hall at (202) 219-2853.
