

Planning and Review, this proposed rule revises the NFIP regulations to (1) include the definitions for future conditions hydrology and for the flood plains that may be shown on the FIRMs, for informational purposes at the request of the community, to reflect future conditions hydrology and (2) establish the zone symbol to be used to identify future conditions flood hazard areas on the FIRMs. We know of no substantial direct effects on the States, or on the distribution of power and responsibilities among the various levels of government.

The Office of Management and Budget has reviewed this rule under the provisions of Executive Order 13132.

Executive Order 12778, Civil Justice Reform

This Proposed Rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778, Civil Justice Reform.

Executive Order 12866, Regulatory Planning and Review

Promulgation of this rule is required by statute, 42 U.S.C 4014(f) which also specifies the regulatory approach to be taken in the proposed rule. To the extent possible under the statutory requirements of 42 U.S.C. 4014(f), this Proposed Rule adheres to the provisions of E.O. 12866, Regulatory Planning and Review. Under Executive Order 12866, 58 FR 51735, October 4, 1993, a significant regulatory action is subject to OMB review and the requirements of the Executive Order. The Executive Order defines "significant regulatory action" as one that is likely to result in a rule that may:

(1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

(2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

This proposed rule revises the NFIP regulations to (1) include the definitions for future conditions hydrology and for the flood plains that may be shown on the FIRMs, for informational purposes at the request of the community, to reflect

future conditions hydrology and (2) establish the zone symbol to be used to identify future conditions flood hazard areas on the FIRMs. We know of no conditions that would qualify the rule as a "significant regulatory action" within the definition of section 3(f) of the Executive Order. To the extent possible this rule adheres to the principles of regulation in Executive Order 12866. The Office of Management and Budget has not reviewed this rule under the provisions of Executive Order 12866.
