SUPPLEMENTARY INFORMATION: The EPA is currently reviewing the NAAQS for PM. Sections 108 and 109 of the CAA require that EPA carry out a periodic review and revision, where appropriate, of the scientific criteria and the NAAQS for "criteria" air pollutants such as PM. Details of EPA's plans for review of the NAAQS for PM were announced in a previous **Federal Register** notice (62 FR 55201, October 23, 1997). The second external review draft of the Air Quality Criteria for Particulate Matter was recently made available for public review and comment (66 FR 18929, April 12, 2001).

The purpose of the Staff Paper is to evaluate the policy implications of the key scientific and technical information contained in the Air Quality Criteria document and identify critical elements that EPA staff believe should be considered in reviewing the NAAQS. The Staff Paper is intended to "bridge the gap" between the scientific review contained in the Air Quality Criteria document and the public health and welfare policy judgments required of the

Administrator in reviewing the NAAQS (Natural Resources Defense Council v. Administrator, 902 F.2d 962, 967 (D.C. Cir. 1990).

This preliminary draft Staff Paper includes preliminary assessments of the scientific and technical information contained in the draft Air Quality Criteria document and discusses proposed analyses to be conducted for inclusion in a subsequent draft Staff Paper. Staff conclusions and recommendations on the PM NAAQS are not included in this preliminary draft but will be included in a subsequent draft to be made available for further review and comment as indicated below.

The draft Risk Analysis Scoping Plan describes EPA's plans and approach for conducting PM health risk analyses that will be summarized and discussed in the next draft of the Staff Paper.

The preliminary draft Staff Paper and draft Risk Analysis Scoping Plan, along with the second external review draft of the Air Quality Criteria for PM, will be reviewed at an upcoming public meeting of the Clean Air Scientific Advisory Committee (CASAC) of EPA's Science Advisory Board. A future **Federal Register** notice will inform the public of the date and location of that meeting. Following the CASAC meeting, EPA will prepare a revised draft Staff Paper, taking into account public and CASAC comments, and will make the revised draft available for further review and comment by CASAC and the public.

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

June 5, 2001.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to

any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before July 16, 2001. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judy Boley at 202-418-0214 or via the Internet at jboley@fcc.gov.

Common Carrier Bureau Clarifies That Future Filings of Numbering Utilization and Forecast Reports Must Include Numbering Resources in the 500 and 900 NPAs

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On June 11, 2001, the Commission released a public notice clarifying that future filings of numbering utilization and forecast reports must include numbering resources in the 500 and 900 NPA. The intended effect of this action is to remind common carriers of the requirement for filing numbering utilization and forecast reports.

FOR FURTHER INFORMATION CONTACT:

Cheryl L. Callahan at (202) 418-2320 or ccallaha@fcc.gov of the Common Carrier Bureau, Network Services Division. The address is: Network Services Division, Common Carrier Bureau, Federal Communications Commission, The Portals II, 445 12th Street, SW., Suite 6A207, Washington, DC 20554. The fax number is: (202) 418-2345. The TTY number is: (202) 418-0484.

SUPPLEMENTARY INFORMATION: Released: June 11, 2001. On March 31, 2000, the Commission released a Report and Order and Further Notice of Proposed Rulemaking that, among other things,

required carriers to report semiannually on their actual and forecasted number usage.¹ Carriers are required to file reports twice each calendar year on or before February 1 for the six-month period ending December 31 and on or before August 1 for the six-month period ending June 30.²

Carriers that receive central office codes or NXX codes (*i.e.*, code holders) from the North American Numbering Administrator (NANPA), or that receive thousands-blocks (*i.e.*, block holders) from a Pooling Administrator, must report utilization and forecast data for all numbering resources in their inventory or "assigned to them", including numbering resources in the 500 and 900 area codes or numbering plan areas (NPAs). In previous numbering utilization and forecast reports, carriers have not included information on the 500 and 900 NPAs. Because the NANPA has reported that the 500 and 900 NPAs are nearing exhaust, it is necessary to more closely track the use of 500 and 900 numbering resources and more closely monitor their projected exhaust. Moreover, the NRO Order mandated that "all carriers that receive numbering resources from the NANPA (*i.e.*, code holders), or that receive numbering resources from a Pooling Administrator in thousands-blocks (*i.e.*, block holders), report forecast and utilization data to the NANPA."³ Clearly 500 and 900 NPA's are covered by this mandate.

The Bureau has instructed the NANPA, in accordance with 47 CFR 52.15(g)(3)(4), to withhold numbering resources from carriers that fail to comply with these reporting requirements. Carriers are encouraged to report numbering resources in the 500 and 900 NPAs separately from those in the geographic NPAs. The NANPA will provide further guidance to carriers completing utilization and forecast data for 500 and 900 numbering resources on its web site, www.nanpa.com.

Acting Chief, Network Services Division, Common Carrier Bureau.
