

results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, by the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Mary O'Reilly, Attorney, FirstEnergy Legal Department, FirstEnergy Corporation, 76 S. Main Street, Akron, OH 44308, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated March 28, 2001 (Agencywide Documents Access and Management Systems (ADAMS) Accession No. ML010950383), as supplemented on May 1, 2001 (ADAMS Accession No. ML011290073), which is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension: Form 1, Rules 6a-1 and 6a-2; SEC File No. 270-18; OMB Control No. 3235-0017. Rules 6a-3; SEC File No. 270-15; OMB Control No. 3235-0021.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget requests for extension of the previously approved collections of information discussed below.

The Securities Exchange Act of 1934 ("Act") sets forth a regulatory scheme for national securities exchanges. Rule 6a-1 under the Act¹ generally requires an applicant for initial registration as a national securities exchange to file an application with the Commission on Form 1. An exchange that seeks an exemption from registration based on limited trading volume also must apply for such exemption on Form 1. Rule 6a-2 under the Act² requires registered and exempt exchanges: (1) To amend the Form 1 if there are any material changes to the information provided in the initial Form 1; and (2) to submit periodic updates of certain information provided in the initial Form 1, whether such information has changed or not. The information required pursuant to Rules 6a-1 and 6a-2 is necessary to enable the Commission to maintain accurate files regarding the exchange and to exercise its statutory oversight functions. Without the information submitted pursuant to Rule 6a-1 on

¹ 17 CFR 240.6a-1.

² 17 CFR 240.6a-2.

Form 1, the Commission would not be able to determine whether the respondent met the criteria for registration or exemption set forth in Sections 6 and 19 of the Act. Without the amendments and periodic updates of information submitted pursuant to Rule 6a-2, the Commission would have substantial difficulty determining whether a national securities exchange or exempt exchange was continuing to operate in compliance with the Act.

The respondents to the collection of information are entities that seek registration as a national securities exchange or that seek exemption from registration based on limited trading volume. After the initial filing of Form 1, both registered and exempt exchanges are subject to ongoing informational requirements.

Initial filings on Form 1 by new exchanges are made on a one-time basis. The Commission estimates that it will receive approximately three initial Form 1 filings per year and that each respondent would incur an average burden of 47 hours to file an initial Form 1 at an average cost per response of approximately \$4,517. Therefore, the Commission estimates that the annual burden for all respondents to file the initial Form 1 would be 141 hours (one response/respondent \times three respondents \times 47 hours/response) and \$13,551 (one response/respondent \times three respondents \times \$4,517/response).

There currently are nine entities registered as national securities exchanges and two exempt exchanges. The Commission estimates that each registered or exempt exchange file one amendment or periodic update to Form 1 per year, incurring an average burden of 25 hours to comply with Rule 6a-2. The Commission estimates that the annual burden for all respondents to file amendments and periodic updates to the Form 1 pursuant to Rule 6a-2 is 275 hours (11 respondents \times 25 hours/response \times one response/respondent per year) and \$25,630 (11 respondents \times \$2,330/response \times one response/respondent per year).

Compliance with Rules 6a-1 and 6a-2 and Form 1 is mandatory for entities seeking to register as a national securities exchange or seeking an exemption from registration based on limited trading volume. Information received in response to Rules 6a-1 and 6a-2 and Form 1 shall not be kept confidential; the information collected is public information. As set forth in Rule 17a-1 under the Act,³ a national securities exchange generally is required

to retain records of the collection of information for at least five years.

Section 6 of the Act⁴ sets out a framework for the registration and regulation of national securities exchanges. Under Commission Rule 6a-3,⁵ one of the rules that implements section 6, a national securities exchange (or an exchange exempted from registration based on limited trading volume) must provide certain supplemental information to the Commission, including any material (including notices, circulars, bulletins, lists, and periodicals) issued or made generally available to members of, or participants or subscribers to, the exchange. Rule 6a-3 also requires the exchanges to file monthly reports that set forth the volume and aggregate dollar amount of securities sold on the exchange each month. The information required to be filed with the Commission pursuant to Rule 6a-3 is designed to enable the Commission to carry out its statutorily mandated oversight functions and to ensure that registered and exempt exchanges continue to be in compliance with the Act.

The respondents to the collection of information are national securities exchanges and exchanges that are exempt from registration based on limited trading volume.

The Commission estimates that each respondent make approximately 25 such filings on an annual basis at an average cost of approximately \$21 per response. Currently, 11 respondents (nine national securities exchanges and two exempt exchanges) are subject to the collection of information requirements of Rule 6a-3. The Commission estimates that the total burden for all respondents is 137.5 hours (25 filings/respondent per year \times 0.5 hours/filing \times 11 respondents) and \$5,775 (\$21/response \times 25 responses/respondent per year \times 11 respondents) per year.

Compliance with Rule 6a-3 is mandatory for registered and exempt exchanges. Information received in response to Rule 6a-3 shall not be kept confidential; the information collected is public information. As set forth in Rule 17a-1 under the Act,⁶ a national securities exchange is required to retain records of the collection of information for at least five years.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Written comments regarding the above information should be directed to the following persons: (a) Dest Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington DC 20503; and (b) Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549. Comments must be submitted to the Office of Management and budget within 30 days of this notice.

Dated: June 12, 2001.

Margaret H. McFarland,

Deputy Secretary.
