DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

Working Group on Challenges to the Employment-Based Healthcare System Advisory Council on Employee Welfare and Pension Benefits Plans; Notice of Meeting

Pursuant to the authority contained in section 512 of the Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C. 1142, a public meeting will be held Wednesday, July 18, 2001, of the Advisory Council on Employee Welfare and Pension Benefit Plans Working Group assigned to study challenges to the employment-based healthcare system.

The session will take place in Room N-5437 A-C, U.S. Department of Labor Building, Second and Constitution Avenue, NW, Washington, DC 20210. The purpose of the open meeting, which will run from 9:30 a.m. to approximately 2 p.m., is for working group members to examine weaknesses, strengths and alternatives to employer-based health benefits from both employer and employee perspectives.

Members of the public are encouraged to file a written statement pertaining to the topic by submitting 20 copies on or before July 10, 2001, to Sharon Morrissey, Executive Secretary, ERISA Advisory Council, U.S. Department of Labor, Room N-5677, 200 Constitution Avenue, NW, Washington, DC 20210. Individuals or representatives of organizations wishing to address the Working Group should forward their request to the Executive Secretary or telephone (202) 219-8753. Oral presentations will be limited to 20 minutes, but an extended statement may be submitted for the record. Individuals with disabilities, who need special

accommodations, should contact Sharon Morrissey by July 10, at the address indicated in this notice.

Organizations or individuals may also submit statements for the record without testifying. Twenty (20) copies of such statements should be sent to the Executive Secretary of the Advisory Council at the above address. Papers will be accepted and included in the record of the meeting if received on or before July 10.

Signed at Washington, DC this 21st day of June 2001.

Ann L. Combs,

Assistant Secretary, Pension and Welfare Benefits Administration.

BILLING CODE 1650-01-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR 35.32 and 35.33 "Quality Management Program and Misadministrations".

2. *Current OMB approval number:* 3150-0171.

3. *How often the collection is required:* For quality management program (QMP): *Reporting:* New applicants for medical use licenses, who plan to use byproduct material in limited diagnostic and therapy quantities under Part 35, must develop a written QMP and submit a copy of it to NRC. When a new modality involving therapeutic quantities of byproduct material is added to an existing license, current licensees must submit QMP modifications. This ICR burden estimate is inflated by the one-time cost for the development and submission of QMPs for approximately 2000 Agreement States licensees in the ten Agreement States who have not adopted the rule and are not required to. *Recordkeeping:* Records of written directives, administered dose or dosage, annual review, and recordable events, for 3 years.

For Misadministrations: Reporting: Whenever a misadministration occurs. *Recordkeeping:* Records of misadministrations for 5 years.

4. *Who is required or asked to report:* NRC Part 35 licensees who use byproduct material in limited diagnostic and therapeutic ranges and similar type of licensees regulated by Agreement States.

5. *The estimated number of annual respondents:* 6300 (for both reporting and recordkeeping).

6. *The number of hours needed annually to complete the requirement or request:* 34,743 hours for applicable licensees (Reporting: 24,400 Hrs/yr, and Recordkeeping: 10,343 Hrs/yr, or an average of 5.5 hrs per licensee).

7. *Abstract:* In the medical use of byproduct material, there have been instances where byproduct material was not administered as intended or was administered to a wrong individual, which resulted in unnecessary exposures or inadequate diagnostic or therapeutic procedures. The most frequent causes of these incidents were: insufficient supervision, deficient procedures, failure to follow procedures, and inattention to detail. In an effort to reduce the frequency of such events, the NRC requires licensees to implement a quality management program (§ 35.32) to provide high confidence that byproduct material or radiation from byproduct material will be administered as directed by an authorized user physician. Collection of this information enables the NRC to ascertain whether misadministrations (§ 35.33) are investigated by the licensee and that corrective action is taken. Additionally, NRC has a responsibility to inform the medical community of generic issues identified in the NRC review of misadministrations.

Revisions to 10 CFR 35.32 and 35.33 are being made as part of a complete revision of 10 CFR Part 35 to incorporate specific improvements in NRC's regulations governing the medical use of byproduct material. A final rule revising Part 35 was affirmed by the Commission on October 23, 2000 and was submitted, along with its associated clearance package, to the Office of Management and Budget (OMB). A notice was published in the **Federal Register** on March 16, 2001, announcing a 30-day public comment period on the submittal. It is anticipated that the effective date of the final rule revising Part 35, including the revisions to Sections 35.32 and 35.33, will be March 2002, and the OMB clearance for Sections 35.32 and 35.33 will be then be included under the OMB clearance for Part 35 (3150-0010).

Currently, the OMB clearances for Sections 35.32 and 35.33 are due to expire October 31, 2001. In view of the fact that these parts will shortly thereafter be covered under OMB clearance 3150-0010, the Commission is seeking a 1-year clearance extension for the information collection requirements in these sections to allow sufficient time for OMB to complete its review of the NRC clearance package for the revision to Part 35, for NRC to publish the final rule, and for the rule to become effective. Because the final Part 35 and its OMB clearance will be in place in a short time period, the burden hour estimates in this extension package are not being revised from those contained in the previous OMB approval for
