BILLING CODE 1410-30-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Chapter I

48 CFR Chapter XV

[FRL-6772-2]

Change of Official EPA Mailing Address; Additional Technical Amendments and Corrections

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: In a previously published **Federal Register** (FR) document, EPA changed the official mailing address in the Code of Federal Regulations, where applicable, to reflect EPA's relocation of the majority of its Headquarter offices in the Washington Metropolitan area to new offices in downtown Washington, DC. However, with 25 CFR volumes, 6 major program areas, and continual amending of the Agency's regulations, it was inevitable that there would be problems. This document is continuing the update and correcting errors made in the previously published FR document. Although the official mailing address has changed, the physical location of the public information centers and dockets has not yet changed. This relocation effort will eventually consolidate the EPA Headquarter offices in the Washington Metropolitan area providing for increased savings, efficiency, and enhancement of customer services. The EPA mailing address change will be phased in for all EPA correspondence, publications, forms, and other documents.

DATES: This final rule is effective on June 28, 2001.

FOR FURTHER INFORMATION CONTACT: Paul Lapsley, Director of Regulatory Management Staff, Office of Policy, Economics, and Innovation (1806), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-5480; e-mail address: lapsley.paul@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and has particular applicability to anyone who might need or want to communicate in writing with EPA, or submit information to the Agency. Since this action may apply to anyone, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document or Other Related Documents?

You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "**Federal Register—Environmental Documents**." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>. A frequently updated electronic version of 40 CFR chapter I is available at http://www.access.gpo.gov/nara/cfr/cfrhtml_00/Title_40/40tab_00.html and for 48 CFR chapter 15 at http://www.access.gpo.gov/nara/cfr/cfrhtml_00/Title_48/48cfrv6_00.html, these beta sites are currently under development.

II. Background

A. What Action is the Agency Taking?

EPA announced and amended its official mailing address in the **Federal Register** issue of August 2, 2000 (65 FR 47323) (FRL-6487-4). With 25 CFR volumes, 6 major program areas, and continual amending of the Agency's regulations, it was inevitable that there would be problems. The technical amendments and corrections in this document will address the problems identified in the the new electronic CFR (e-CFR) available on the Government Printing Office server by the OFR editors during their update.

As explained in the August FR document, EPA is relocating its Headquarter offices in the Washington Metropolitan area to new offices in downtown Washington, DC. This effort will consolidate the majority of the EPA Headquarter offices in the Washington Metropolitan area providing for

increased savings, efficiency, and enhancement of customer services. To date, approximately two-thirds of the EPA Headquarter offices have been successfully relocated to the new location, with the remaining offices expected to move within the next 2 years. Although not all of the offices have been relocated, the Agency will begin to phase in the new address for all of its documents over the next 12 months.

Although EPA's official mailing address has changed, EPA will continue to receive mail with the old address until the EPA relocation is complete. The EPA mailing center which processes all of EPA's mail has not been relocated yet, so EPA will continue to physically receive and process all of its mail at its current location until this operation is relocated.

If you wish to inspect a rulemaking record or deliver documents (e.g., your comments on a rulemaking) directly to the public record centers, which are also referred to as the public docket or locations for the public version of the official record, you should pay particular attention to information about the specific location of the particular public record center, because these record centers have not been relocated. EPA intends to consolidate these centers in the new location, and will announce the relocation when it occurs. For information about the location of these centers go to <http://www.epa.gov/epahome/dockets.htm>.

In certain cases, the EPA mailing address provided in the regulations, or in instructions for submitting a form or other information to EPA, may be an address other than the official mailing address for EPA Headquarter offices. In amending the CFR to reflect the address change, this FR document specifically identifies those CFR sections where the EPA address provided should not be changed. In addition, if you are responding to a request for comments, or otherwise wish to deliver your submission directly to a public docket or a particular office, please be sure to verify the relevant location to ensure that you identify the proper delivery address.

EPA intends to review existing regulatory documents, particularly forms and instructions for submitting information to the Agency, to ensure that the EPA mailing address is properly identified. If necessary, EPA intends to amend these documents over the next 2 years.
