## II. Background

### A. What Guidance Does this PR Notice Provide?

The PR Notice announces the discontinuation of phenol resistance testing as a part of efficacy testing for antimicrobial disinfectants and sanitizers. The Agency will now consider registering or reregistering antimicrobial disinfectant or sanitizer pesticides without supporting phenol resistance testing. All other data in support of registration or reregistration, including any required efficacy testing data, would also need to be submitted and accepted by the Agency.

Phenol resistance testing is a standard that has traditionally been used to estimate the intrinsic resistance or sensitivity of some test bacteria to chemical disinfectants and sanitizers. For years, the Agency has been aware of the lack of standard and uniform resistance levels to phenol expressed by the test cultures used in the existing Official Methods of Analysis of the Association of Official Analytical Chemists (AOAC) test methods. Historically, the inability to maintain and propagate test cultures that express standard and uniform levels of phenol resistance has been a recognized scientific problem which has persisted for at least 70 years. Furthermore, the inability of many reputable and competent testing facilities to achieve consistent test results with the phenol resistance standard has prompted both concern and action by the Agency.

On September 10, 1997, after internal scientific deliberation, the Agency placed before the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel (SAP) the following question regarding phenol resistance:

What scientific direction should be taken regarding the lack of standard and uniform resistance levels to phenol of the test cultures used in the existing AOAC (Association of Official Analytical Chemists) efficacy test methods? Should the Agency:

- Totally eliminate the phenol resistance requirement; or

- Modify the required phenol resistance patterns to provide a broader range of acceptable resistance; or
- Replace the phenol resistance requirements with some other procedures that assure hardness and equivalence to test cultures, such as standard, quantitative inoculum level?

Briefly, the SAP responded that there is no current relevance to requiring the phenol resistance test and, therefore, the phenol coefficient method should be eliminated and new protocols should be established for defining the conditions for culturing test microorganisms with suitable resistance levels to antimicrobials.

Subdivision G of the Pesticide Assessment Guidelines, part 91-1, describes the general product performance (efficacy) standards for disinfectants and sanitizers. Subsection (b)(3)(I) of part 91-1 refers to the AOAC standard tests that may be used to satisfy the data requirements of 40 CFR 158.640. In turn, these AOAC tests include references to phenol resistance testing.

The Agency concurs with the SAP, which has engaged in considerable discussion and deliberation, internally and with members of the scientific and regulated communities, on how to best proceed. Given the inapplicability of a test organism's resistance to phenol when disinfectants or sanitizers are tested for their efficacy performance, the Agency no longer requires submission of testing to demonstrate compliance with AOAC-specified levels of expressed phenol resistance by test microorganisms during the efficacy evaluation of disinfectants or sanitizers. However, as an interim measure while method development research continues, the Agency recommends a minimum inoculum level of  $10^4$  colony forming units per carrier for all test microorganisms when the AOAC carrier based tests are used.

**PRELIMINARY/FINAL COMMITMENT APPLICATION**  
**ATTACHMENT D: Anti-lobbying Declaration/Disclosure**

OMB No. 3048-0005  
Expires 07/31/2001

This attachment applies only to applications for final commitments.

**1. Anti-Lobbying Law.**

Under a U.S. law (31 U.S.C. 1352), recipients of U.S. government loans, grants, contracts, and cooperative agreements are prohibited from spending Federally appropriated funds to influence certain U.S. government employees, including Ex-Im Bank employees, in connection with the awarding of those Federal awards.

Recipients of Federal loans, grants, guarantees, insurance, contracts and cooperative agreements may spend non-Federally appropriated funds for such lobbying purposes; however, they are required to report such lobbying expenditures.

The law applies to Ex-Im Bank loan, guarantee and insurance transactions. Declaration and Disclosure Forms are to be filed by applicants and recipients and certain exporters and suppliers, as defined below.

**2. Compliance Procedures.**

**2a. Who Must File.**

All applicants for final commitments from Ex-Im Bank must file a Declaration regardless of whether non-Federally appropriated funds have been spent for lobbying purposes. If non-Federally appropriated funds have been spent, a Disclosure Form must also be filed. Applicants include borrowers and lenders who are applicants for final commitments for medium-term and long-term direct loans and guarantees.

*The Declaration and/or Disclosure Forms must be received by Ex-Im Bank from the applicant before Ex-Im Bank will consider the application for a final commitment.*

All recipients under Ex-Im Bank programs, who are not the applicant for a final commitment, must file a Declaration and, if they have spent funds for lobbying purposes, a Disclosure Form. Recipients include borrowers who receive Ex-Im Bank direct loans and lenders who receive Ex-Im Bank guarantees.

*The Declaration and/or Disclosure Forms must be received by Ex-Im Bank from the recipients before Ex-Im Bank will enter into a loan or guarantee agreement.*

All suppliers who have entered into a contract in excess of \$100,000 with the recipient of an Ex-Im Bank direct loan or grant must file a Declaration and, if funds have been spent for lobbying purposes, a Disclosure Form.

*Such suppliers must file the Declaration and/or Disclosure Forms upon being awarded the supply contract.*

**2b. Exemptions.**

The law has been interpreted so that it does not apply to foreign governments, their instrumentalities or their wholly-owned companies. Therefore, these entities are exempt from filing both the Declaration and Disclosure Forms.

The law's disclosure requirements do not apply to loan or guarantee transactions where the U.S. Government-financed portion is \$150,000 or less.

**2c. How To File.**

Complete the appropriate Declaration Form on the following page. If you are required to file a Disclosure Form, it will be provided by Ex-Im Bank upon request. Any person who fails to file the required forms shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

**PRELIMINARY/FINAL COMMITMENT APPLICATION**  
**ATTACHMENT F: Project Finance**

OMB No. 3048-0005  
 Expires 07/31/2001

**I. Project Finance.**

The term "project finance" refers to the financing of projects that are dependent on the project cash flows for repayment as defined by the contractual relationships within each project. These projects do not rely on the typical export credit agency security package which has recourse to a foreign government, financial institution or established corporation to meet a reasonable assurance of repayment criterion. By their very nature, projects rely for successful completion on a large number of integrated contractual arrangements.

**1. Ex-Im Bank Project Finance.**

- **Maximum Support Possible.** Where appropriate, Ex-Im Bank will offer the maximum support allowed within the rules of the OECD Arrangement, to include:
  - a) *Financing of interest accrued during construction related to the Ex-Im Bank financing.*
  - b) *Allowance of up to 15% foreign content in the U.S. package.*
  - c) *Maximum repayment term allowed under the OECD guidelines.*
- **No Size Limitation.** There are no minimum or maximum size limitations.
- **Flexible Coverage.** Any combination of either direct loans or guarantees for commercial bank loans with political risk only or comprehensive coverage are available for a given project.
- **Flexible Equity Arrangements.** There are no predetermined equity requirements. Ex-Im Bank will review and determine the appropriate equity structure on a case-by-case basis. The equity sponsor's ownership position cannot be transferred without Ex-Im Bank's consent.
- **Ex-Im Bank Exposure Fee Commensurate with Risk.** Exposure fees will vary depending on the risk assessment of the project and the type of coverage requested during construction and post completion. The exposure fee can be paid up-front or with each disbursement and can be financed.
- **Environmental Considerations.** Ex-Im Bank's environmental procedures will apply.
- **Rapid Case Processing.** With the help of outside financial consultants, Ex-Im Bank will give a preliminary indication of support, called a Preliminary Project Letter (PPL), within 45 days from the date evaluation begins by the outside consultant. Should the project be sufficiently developed, the sponsor may proceed directly to a final commitment from the PPL, as determined by the Project Finance Division.
- **Financial Consultants.** Ex-Im Bank has advisers on specific project finance cases. Please contact the Structured Finance Group.

**PRELIMINARY/FINAL COMMITMENT APPLICATION**  
**ATTACHMENT F: Project Finance**

OMB No. 3048-0005  
 Expires 07/31/2001

**2. Application Process.**

- **Submission.** The project finance application must include: 1) the standard *Ex-Im Bank Preliminary Commitment/Final Commitment Application*, and 2) five copies of the materials listed in this attachment. These materials should be marked "Project Finance Application" and submitted to Ex-Im Bank.
- **Preliminary Review.** Ex-Im Bank will review the submitted material within five to ten business days of the date that the application is received by the Structured Finance Division. This review will determine if the application includes the information required to proceed with an evaluation.
- **Incomplete Applications.** If the application presented is determined to be incomplete by the Structured Finance Division, the applicant will be contacted with an explanation of the application's deficiencies. If the application is not determined to be suitable for limited recourse project financing but could still be considered for another form of Ex-Im Bank financing, it will be forwarded to the appropriate division and the applicant will be notified.
- **Choice of Financial Consultant.** A financial consultant will be selected by Ex-Im Bank to evaluate the application. Determination of the specific financial consultant will depend on several factors including geographic and sector expertise, and ability to meet project deadlines.
- **Evaluation Fee.** Before the financial consultant begins review, the applicant will be required to pay an evaluation fee.
- **Other Fees.** For most projects, Ex-Im Bank will require, either in conjunction with other lenders or for its own use, the advice of independent outside legal counsel, independent engineers, and insurance advisers. In addition, there may be other fees associated with conducting proper due diligence. Payment for these and any other fees will be the responsibility of the project sponsors or the applicant.
- **Preliminary Project Letter.** Assuming the evaluation process is satisfactory, the Project Finance Division will issue a PPL. The PPL indicates that Ex-Im Bank is prepared to move forward on a financing offer and the corresponding general terms and conditions. These terms and conditions will be based upon the information available at the time of application. The evaluation and issuance of the PPL will be completed within 45 days of commencement of the evaluation.
- **Evaluation Post-PPL.** After issuance of the PPL, Ex-Im Bank will work with the applicant to secure a final commitment. On a case-by-case basis, Ex-Im Bank may continue to utilize the financial consultant.

**3. Project Criteria and Application Information Requirements.**

**a. General Project. (5 copies)**

*Definition*

- Ideally the project should have long-term contracts from creditworthy entities for the purchase of the project's output and the purchase of the project's major project inputs such as fuel, raw materials, and operations and maintenance. Such contracts should extend beyond the term of the requested Ex-Im Bank financing. Where such contracts do not exist, additional equity and/or other credit support is expected.
- The project should contain an appropriate allocation of risk to the parties best suited to manage those risks. Sensitivity analysis should result in a sufficient debt service coverage ratio to ensure uninterrupted debt servicing for the term of the debt.
- Total project cost should be comparable to projects of similar type and size for a particular market.
- Product unit pricing and costs should reflect market-based pricing.
- Devaluation risk needs to be substantially mitigated through revenues denominated in hard currencies, revenue adjustment formulas based on changing currency relationships, or other structural mechanisms.
