SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-44471; File No. SR-DTC-2001-07]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing of Proposed Rule Change Relating to the Movement of All DRS Issues into Profile and the Establishment of the "S" Position as the Default Position

June 22, 2001.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on May 25, 2001, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would establish a date on which all securities issues which are presently eligible for the Direct Registration System ("DRS") in DTC and which are not in the Profile Modification System ("Profile"), which is part of DRS, will have to move into Profile. Additionally, a broker-dealer's request for a withdrawal by transfer (W.T.)² for a DRS eligible issue which does not specifically request a certificate will automatically default to a DRS book-entry position (an "S" position) on the books of the issuer or its transfer agent. Both of these changes would become effective November 1, 2001.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. DTC has prepared summaries, set forth in sections (A), (B),

and (C) below, of the most significant aspects of these statements.³

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In 1996, the New York Stock Exchange, Inc. modified its listing criteria to permit listed companies to issue securities in book entry form provided that the issue is eligible for DRS processing⁴ through a depository.⁵ Since then, there has been a steady growth in securities issued through DRS, primarily through corporate action distributions and initial public offerings. An investor may update broker-dealer information directly with the respective DRS limited participant (*i.e.*, the transfer agent) and also may instruct the DRS limited participant to move the investor's share positions to the investor's broker-dealer's participant account at DTC by completing the appropriate information on the transaction advice and submitting the hard copy paper instruction to the DRS limited participant.⁶ In 1999, the volume of DRS free deliver order activity moving positions from DRS limited participants to participants (*i.e.*, from transfer agents to broker-dealers) exceeded 183,000 transactions.⁷ In 2000, the volume increased to 280,000 transactions, and through March of 2001, the volume was 76,000.

In January 1999, the DRS Committee approved Profile's system specifications and authorized DTC to proceed with the development of Profile.⁸ DTC completed production of Profile on June 5, 1999, and it has been available for use since then. Profile allows a DTC participant to submit electronically to a transfer agent who is a DRS limited participant an investor's instruction that its share positions be moved from the investor's DRS account with the DRS limited participant to the investor's broker-

³ The Commission has modified the text of the summaries prepared by DTC.

⁴ In order for an issue to be eligible for DRS processing through DTC, the issue must be "FAST" eligible. The issuer or its transfer agent must provide direct mail service and have automated computer links with DTC.

⁵ Securities Exchange Act Release No. 37937 (November 8, 1996), 61 FR 58728 [File No. NYSE 96-29].

⁶ A DTC participant can establish broker-dealer information on behalf of a customer when submitting a W.T. request to establish a book entry position in DRS on a limited participant's records.

⁷ This free deliver order activity is made up of a movement of share positions from DRS limited participants to participants free of payment.

⁸ The DRS Committee is comprised of representatives from the Commission, DTC, and the brokerage and transfer agent communities, and is responsible for designing DRS.

¹ 15 U.S.C. 78s(b)(1).

² W.T. is a service that allows participants to withdraw physical stock or registered bond certificates from DTC and have them registered in a name other than Cede & Co., DTC's nominee name.
