

Recordkeeping burden. OMB invites public comment.

Dated: June 27, 2001.

John Tressler,

*Leader, Regulatory Information Management,
Office of the Chief Information Officer.*

Office of Postsecondary Education

Type of Review: Reinstatement, with change, of a previously approved collection for which approval has expired.

Title: Report of Financial Need and Certification for the Jacob K. Javits Fellowship Program (JS).

Frequency: Annually.

Affected Public: Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden: Responses: 100; Burden Hours: 400.

Abstract: The Department of Education (ED) uses this form to collect financial need information of students who have Javits fellowships and certification of academic progress of Javits fellows from institutions where Javits fellows attend. ED uses the data to calculate fellowship amounts for individuals and the total amount of program funds to be sent to the institution.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov/owa/cgi/owa/browsecoll?psn=01401>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 4050, Regional Office Building 3, Washington, D.C. 20202-4651. Requests may also be electronically mailed to the internet address OCIO_RIMG@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Joe Schubart at (202) 708-9266. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Office of Science

Office of Science Financial Assistance Program Notice 01-27: Advanced Detector Research Program

AGENCY: U.S. Department of Energy (DOE).

ACTION: Notice inviting grant applications.

SUMMARY: The Division of High Energy Physics of the Office of Science (SC), U.S. Department of Energy (DOE), hereby announces its interest in receiving grant applications for support under its Advanced Detector Research Program. Applications should be from investigators who are currently involved in experimental high energy physics, and should be submitted through a U.S. academic institution. The purpose of this program is to support the development of the new detector technologies needed to perform future high energy physics experiments.

DATES: To permit timely consideration for award in fiscal year 2002, formal applications submitted in response to this notice should be received before October 30, 2001.

Applicants are requested to submit a letter of intent by September 25, 2001, which includes the title of the proposal, the name of the principal investigator(s), the requested funding and a one-page abstract. Failure to submit a letter of intent will not negatively prejudice a responsive formal application submitted in a timely manner. Electronic submission of letters of intent is both acceptable and preferred.

ADDRESSES: Completed formal applications referencing Program Notice 01-27 should be forwarded to: U.S. Department of Energy, Office of Science, Grants and Contracts Division, SC-64, 19901 Germantown Road, Germantown, Maryland 20874-1290, ATTN: Program Notice 01-27. The above address must also be used when submitting applications by U.S. Postal Service Express Mail, any other commercial mail delivery service, or when hand carried by the applicant. An original and seven copies of the application must be submitted. Due to the anticipated number of reviewers, it would be helpful for each applicant to submit an additional four copies of the application. In addition, for this notice, project descriptions must be 25 pages or less, including tables and figures, but excluding attachments. The application must also contain an abstract or project summary, letters of intent from all non-funded collaborators, and short curriculum vitae of all senior personnel.

Letters of intent referencing Program Notice 01-27, should be forwarded to: U.S. Department of Energy, Office of Science, Division of High Energy Physics, SC-221, 19901 Germantown Road, Germantown, MD 20874-1290, ATTN: Michael Procario. Letters of intent can also be submitted via E-mail

at the following E-mail address: michael.procario@science.doe.gov.

FOR FURTHER INFORMATION CONTACT: Dr. Michael Procario, Division of High Energy Physics, SC-221 (GTN), U.S. Department of Energy, 19901 Germantown Road, Germantown, Maryland 20874-1290. Telephone: (301) 903-2890. E-Mail: michael.procario@science.doe.gov.

SUPPLEMENTARY INFORMATION: Future high energy physics experiments will require higher performance detectors to exploit the higher beam energies and intensities of new or upgraded accelerators. Higher performance detectors are also needed to probe for new physical processes in both accelerator and non-accelerator based experiments. Proposed detector research should be driven by the anticipated needs of experiments to be built within the foreseeable future, as well as upgrades to current experiments. Interesting technologies would include, but not be limited to charged particle track detectors, calorimeters or particle identification detectors that are less sensitive to radiation, have higher resolution, are lower in cost, or can be read out faster than currently available detectors.

It is anticipated that in fiscal year 2002, approximately \$500,000 will be awarded in total, subject to availability of appropriated funds. The number of awards will be determined by the number of excellent applications and the total funds available for this program. Multiple year funding of grant awards is possible, with funding provided on an annual basis subject to availability of funds. Cost sharing is encouraged but not required. It is expected that the final development or fabrication of detectors for specific experiments will not be funded by this program.

Applicants are welcome to collaborate with researchers in other institutions, such as universities, industry, non-profit organizations, federal laboratories and Federally Funded Research and Development Centers (FFRDCs), including DOE National Laboratories, such as Fermi National Accelerator Laboratory. In the case of collaborative applications submitted from different institutions that are directed at a single research activity, each application must have a different scope of work and a qualified principal investigator who is responsible for the research effort being performed at his or her institution. There must be a single technical description of the proposed work, and separate face pages and budget pages for each institution. The scope of work at

each institution must be clearly specified. While collaborations with researchers at FFRDCs are encouraged, no funds will be provided to those organizations under this notice. The procedure for submitting a collaborative application can be accessed via the web at <http://www.science.doe.gov/production/grants/Colab.html>. This section provides specific details regarding collaborating institutions and states, "The lead organization must submit their own grant application plus the other collaborator's applications to DOE in one package with a cover letter, which describes the role to be played by each organization, the managerial arrangements, and the advantages of the multi-organizational effort."

Applications will be subjected to scientific merit review (peer review) and will be evaluated against the following criteria, which are listed in descending order of importance as set forth in 10 CFR part 605.10(d):

1. Scientific and/or technical merit of the project;
2. Appropriateness of the proposed method or approach;
3. Competency of applicant's personnel and adequacy of proposed resources; and
4. Reasonableness and appropriateness of the proposed budget.

In considering item 1 particular attention will be paid to:

- The importance of the physics that motivates developing the proposed detector,
- Whether the proposed research is generic detector research that will benefit more than one experiment,
- The magnitude of the potential impact versus the risk of failure.

General information about development and submission of applications, eligibility, limitations, evaluations and selection processes, and other policies and procedures are contained in the Application Guide for the Office of Science Financial Assistance Program and 10 CFR Part 605. Electronic access to the application guide and required forms is available on the World Wide Web at: <http://www.sc.doe.gov/production/grants/grants.html>.

The Catalog of Federal Domestic Assistance Number for this program is 81.049, and the solicitation control number is ERFAP 10 CFR part 605.

Issued in Washington, DC on June 26, 2001.

John Rodney Clark,

Associate Director of Science for Resource Management.

BILLING CODE 6450-01-U

DEPARTMENT OF ENERGY

Office of Science

DOE/NSF Nuclear Science Advisory Committee

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Department of Energy/National Science Foundation Nuclear Science Advisory Committee (NSAC). Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Monday, July 23, 2001; 8:30 a.m. to 6:00 p.m. and Tuesday, July 24, 2001; 8:30 a.m. to 12:00 p.m.

ADDRESSES: Doubletree Hotel, 1750 Rockville Pike, Regency Conference Room, Rockville, Maryland 20852-1699

FOR FURTHER INFORMATION CONTACT: Cathy A. Hanlin, U.S. Department of Energy; 19901 Germantown Road; Germantown, Maryland 20874-1290; Telephone: 301-903-3613

SUPPLEMENTARY INFORMATION:

Purpose of Meeting

To provide advice and guidance on a continuing basis to the Department of Energy and the National Science Foundation on scientific priorities within the field of basic nuclear science research.

Tentative Agenda

Monday, July 23, 2001, and Tuesday, July 24, 2001

- Report from the Department of Energy.
- Report from the National Science Foundation.
- Status Report on the NSAC Long Range Plan.
- Presentation of Charge to NSAC to Review and Evaluate the Scientific Opportunities in the DOE Low Energy Nuclear Physics Subprogram.
- Status Report on the Michigan State University National Superconducting Cyclotron Laboratory.
- Public Comment (10-minute rule).

Public Participation

The meeting is open to the public. If you would like to file a written statement with the Committee, you may do so either before or after the meeting. If you would like to make oral statements regarding any of these items on the agenda, you should contact Cathy A. Hanlin at 301-903-3613. You must make your request for an oral statement at least 5 business days before the meeting. Reasonable provision will be

made to include the scheduled oral statements on the agenda. The Chairperson of the Committee will conduct the meeting to facilitate the orderly conduct of business. Public comment will follow the 10-minute rule.

Minutes

The minutes of the meeting will be available for public review and copying within 30 days at the Freedom of Information Public Reading Room; Room 1E-190; Forrestal Building; 1000 Independence Avenue, SW.; Washington, D.C., between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C. on June 27, 2001.

Belinda Hood,

Acting Deputy Advisory Committee Management Officer.

[FR Doc. 01-16697 Filed 7-2-01; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Fernald

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Fernald. The Federal Advisory Committee Act (Pub. L. No. 92-463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Thursday, July 12, 2001, 6 p.m.-9 p.m.

ADDRESSES: Fernald Environmental Management Project Site, Services Building Conference Room, 7400 Willey Road, Hamilton, OH 45219.

FOR FURTHER INFORMATION CONTACT: Doug Sarno, Phoenix Environmental, 6186 Old Franconia Road, Alexandria, VA 22310, at (703) 971-0030 or (513) 648-6478, or e-mail; djsarno@theperspectivesgroup.com.

SUPPLEMENTARY INFORMATION:

Purpose of the Board

The purpose of the Board is to make recommendations to the Department of Energy in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda

6:00 p.m.—Call to Order

6:00-6:30 p.m.—Chair's Remarks and Ex Officio Announcements
