

Titanium Sponge will allow the Administrator to sell additional quantities of the material to meet increased industry demand. The Committee is seeking public comments on the potential market impact of these proposed increases.

The quantities of Mica Splittings and Titanium Sponge listed in the proposed FY 2002 AMP are not sales target disposal quantities. They are only a statement of the proposed maximum quantities of these materials that may be disposed of in a particular fiscal year. The quantities of these two materials that will actually be offered for sale will depend on the market for the materials at the time of their offering as well as on the quantities of the materials approved for disposal by Congress.

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the proposed increased disposal quantities of Mica Splittings and Titanium Sponge. Although comments in response to this Notice must be received by August 8, 2001 to ensure full consideration by the Committee, interested parties are encouraged to submit comments and supporting information at any time thereafter to keep the Committee informed as to the market impact of the sales of these materials. Public comment is an important element of the Committee's market impact review process.

Anyone submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public file. The Committee will seek to protect such information to the extent permitted by law.

The records related to this Notice will be made accessible in accordance with the regulations published in part 4 of title 15 of the Code of Federal Regulations (15 C.F.R. 4.1 et seq.). Specifically, the Bureau of Export Administration's FOIA reading room is located on its web page, which can be found at <http://www.bxa.doc.gov>, and copies of the public comments received will be maintained at that location (see Freedom of Information Act (FOIA) heading). If requesters cannot access the web site, they may call (202) 482-2165 for assistance.

Dated: June 28, 2001.

Matthew S. Borman,

Deputy Assistant Secretary, Bureau of Export Administration.
