FDA regrets that it was unable to publish this notice 15 days prior to the July 24, 25, and 26, 2001, Subcommittee for the Center for Devices and Radiological Health Science Review of the Science Board to the Food and Drug Administration meeting. Because the agency believes there is some urgency to bring this issue to public discussion and qualified members of the Subcommittee for the Center for Devices and Radiological Health Science Review of the Science Board to the Food and Drug Administration were available at this time, the Commissioner of Food and Drugs concluded that it was in the public interest to hold this meeting even if there was not sufficient time for the customary 15-day public notice.
